MasterClass in History Education draws on international research and practice to present effective and engaging approaches for history teachers who want to explore the ways in which reading, research and reflection can support the development of history teaching and learning in the classroom. At the heart of the book is a series of professional enquiries carried out by experienced history teachers, working in a range of contexts. Each history

teacher addresses clear questions arising from their practice and together they illustrate various approaches to data collection, data analysis and argument. These history teachers also show how they drew on diverse scholarship in history and history education, including many publications by other history teachers. In eight further chapters, other experts, ranging from practitioner-scholars to researchers in diverse fields (such as history, history education, teacher education, teacher research and curriculum theory) reflect on the distinctive insights that these teachers offer and explore connections with their own fields. The combination of perspectives and the depth of knowledge of the varied contributors reveal the importance of different kinds of relationship between 'theory' and 'practice'. The links between classroom realities and research and the critical use of different kinds of text will support history teachers in developing their practice and professional voice.

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner. Cognitive approaches to drama have enriched our understanding of Early Modern playtexts, acting and spectatorship. This monograph is the first full-length study of Shakespeare's props and their cognitive impact. Shakespeare's most iconic props have become transhistorical, transnational metonyms for their plays: a strawberry-spotted handkerchief instantly recalls Othello; a skull Hamlet. One reason for stage properties' neglect by cognitive theorists may be the longstanding tendency to conceptualise props as detachable body parts: instead, this monograph argues for props as detachable parts of the mind. Through props, Shakespeare's characters offload, reveal and intervene in each other's cognition, illuminating and extending their affect. Shakespeare's props are neither static icons nor substitutes for the body, but volatile, malleable, and dangerously exposed extensions of his characters' minds. Recognising them as such offers new readings of the plays, from the way memory becomes a weapon in Hamlet's Elsinore, to the pleasures and perils of Early Modern gift culture in Othello. The monograph illuminates Shakespeare's exploration of extended cognition, recollection and remembrance at a time when the growth of printing was forcing Renaissance culture to rethink the relationship between memory and the object. Readings in Shakespearean stage history reveal how props both carry audience affect and reveal

cultural priorities: some accrue cultural memories, while others decay and are forgotten as detritus of the stage.

Now in its second edition, *Debates in History Teaching* remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy, research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. *Debates* include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? *Debates in History Teaching* remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's-level study.
