The Sissy Baby is an incredibly important and common aspect of ABDL life. These four novels are not books that are a full-on sissy extravaganza from the first word until the last. They are – like in real life – a step-by-step journey that follows the story of a young man who finds femininity erupting in his life, just as infancy is also developing. The twin aspect merge and a sissy baby is formed. And in every case, the sissy baby needs to find a life where they are able to live, develop, grow and be part of a relationship that works and matters. I hope you enjoy these four novels as much as the authors enjoyed writing them and it is worth remembering that while they are fiction, they do represent part of the canvas of real life and some scenes are based in part on actual events. Enjoy your travels through the world of the sissy adult baby.

When my ten year old son once again asked if he could wear diapers despite the fact he hadn't wet his bed since he was 4, I again said no and moved on, thinking nothing about it. Knowing who we are as individuals is the most important journey in our lives and for many, it is the most difficult one. Even for people we call 'vanilla', with no apparent kinks and oddities, it is a herculean task. But when you are an Adult Baby, it is a vastly more complex mission. Add being sissy to the mix and we are already pushing up hill and often, failing miserably. But if we don't know who we are, we act as if we are someone we are not. We try to create a personality not fully our own. We create masks and in doing so, we create problems for ourselves and others around us. This is the true value of books like this and others along the same vein. ABDL is not like other identity problems. It is unique, different and requires a perspective all of its own. It is not about gender – although gender issues can be involved. It is not about sexual preference – although that can

be involved as well. It is primarily about age, and being powerfully driven back to a time of life most have left behind and yet, we still literally inhabit. We don't wear diapers for no reason. We don't play with baby toys just for something to do. We do it because part of our identity mix is that of an infant.

It addresses real-life issues in managing a non-peer-based relationship and how to actually make it work, and work well. Sissies are a growing part of society and within the ABDL community, the sissy baby is relatively common. But spouses, partners and friends tend to be dismissive or even scared of sissy babies.
