Expert pharmacology educators and clinicians

## Read Free Abrams Clinical Drug Therapy

explain the "why" behind each nursing action and emphasize individualized nursing care and drug therapy to promote optimal outcomes in every care setting. Filled with case studies, concept maps, and other engaging features, this updated edition establishes a solid foundation for understanding clinical drug therapy, reflects the latest evidence-based standards for administration, and details how to prevent or minimize adverse effects. A robust suite of online resources complements the text to guide students to success throughout their courses, NCLEX® exams, and nursing careers. Nursing Process Concept Maps simplify guidelines for visual learners. QSEN Safety Alerts help students ensure compliance with standards for safe practice. Clinical Application Case Studies reflect the SBAR model and challenge students to apply concepts to realistic patient care scenarios. Clinical Reasoning Case Studies test students' critical thinking and clinical judgment. Unfolding Patient Stories, written by the National League for Nursing, foster valuable reflection on commonly encountered clinical scenarios. Concept Mastery Alerts clarify commonly misunderstood concepts based on Lippincott® PrepU adaptive learning data. Learning Objectives highlight essential chapter content. Black Box Warnings alert students to life-threatening adverse effects identified by the FDA. Evidence-Based Practice boxes familiarize students with the latest clinical research and its relevance for effective nursing practice. NCLEX® Success sections reflect the latest NCLEX test plan and ready students for success on the exam. Drugs at a Glance tables summarize the routes and dosage ranges (for adults and children), as well as the pregnancy category, for each drug in the class. Drug Interactions and Herb and Dietary Interactions boxes highlight the risk of interactions as well as increased or decreased drug effects when drugs are combined with other medications, food, or herbal supplements. Patient Teaching Guidelines list specific information to improve patient and family education. Key Terms define important terminology for understanding chapter content.

CoursePoint+ The same trusted solution, innovation and unmatched support that you have come to expect from CoursePoint+ is now enhanced with more engaging learning tools and deeper analytics to help prepare students for

practice. This powerfully integrated, digital learning solution combines learning tools, case studies, virtual simulation, real-time data and the most trusted nursing education content on the market to make curriculum-wide learning more efficient and to meet students where they're at in their learning. And now, it's easier than ever for instructors and students to use, giving them everything they need for course and curriculum success! Coursepoint+ includes: Engaging course content provides a variety of learning tools to engage students of all learning styles. A more personalized learning approach, including adaptive learning powered by PrepU, gives students the content and tools they need at the moment they need it, giving them data for more focused remediation and helping to boost their confidence. Varying levels of case studies, virtual simulation, and access to Lippincott Advisor help students learn the critical thinking and clinical judgement skills to help them become practice-ready nurses. Unparalleled reporting provides in-depth dashboards with several data points to track student progress and help identify strengths and weaknesses. Unmatched support includes training coaches, product trainers, and nursing education consultants to help educators and students implement CoursePoint with ease. This popular core nursing pharmacology textbook provides unique coverage of nursing interventions for drug therapy with related rationales. Highly praised for its organized and readable presentation, the text explains the "why" behind each nursing action, and emphasizes how drugs work differently in different patients. The 10th edition has a new fresh design and approach with an added focus on patient safety integrated into the text.

This popular core nursing pharmacology textbook provides unique coverage of nursing interventions for drug therapy with related rationales. Highly praised for its organized and readable presentation, the text explains the "why" behind each nursing action and emphasizes how drugs work differently in different patients. New to the Ninth Edition is an Evidence-Based Nursing feature that builds on the previous edition's Research Briefs and highlights the nursing implications of current research. Chapter openers now include key terms with definitions. Other highlights include a comprehensive glossary, a revised art program, and thoroughly revised end-of-chapter NCLEX-style questions.

This package contains the following products: 9781609137113 Frandsen Abrams' Clinical Drug Therapy, 10e  
9781469839370 Karch Lippincott Nursing Drug Guide

'Study Guide for Abrams' Clinical Drug Therapy'. Tenth edition.

This study guide includes exercises, clinical challenge questions, critical thinking, and 10 NCLEX® review questions per chapter, including 3 new alternate-format NCLEX® questions per chapter.

Abrams' Clinical Drug Therapy has a long tradition of promoting safe and effective medication administration. Highly praised for its organized and readable presentation, this text explains the "why" behind each nursing action, and emphasizes individualized nursing care and drug therapy.

Highly praised for its clear organization and approachable presentation, Abrams' Clinical Drug Therapy, Twelfth Edition continues a long tradition of guiding students and instructors through the practice of safe and effective medication administration. Expert pharmacology educators and clinicians explain the "why" behind each nursing action and emphasize individualized nursing care and drug therapy to promote optimal outcomes in every care setting. This updated edition is filled with case studies, concept maps, and other engaging features, and is complemented by robust online resources that reinforce understanding and establish a solid foundation for success from the classroom to the NCLEX® to clinical practice.

PrepU for Frandsen's Abrams' Clinical Drug Therapy, 11e uses a formative and individualized approach to help students master their Nursing Pharmacology course. The adaptive quizzing engine provides students with personalized quizzes that help each student learn based on demonstrated mastery, while giving instructors a window into students' and class-wide misconceptions, strengths, and weaknesses. The new edition has been fully updated in conjunction with the main text, with more than 900 items added to the existing pool of thousands of questions--many of them alternate-format!

This study tool provides a wealth of activities to reinforce content from the text. The activities accommodate many learning styles and promote the reader's ability to apply information in the patient care setting. Applying Your Knowledge exercises challenge readers to develop critical thinking skills. Mastering the Information exercises expand the reader's understanding of drug therapy and develop insight about client teaching needs. NCLEX-style multiple-choice and alternate-format questions offer opportunities to practice test-taking skills.
