For business manager or student with little or no exposure to law, this book studies the nature and functions of the legal system and the legal issues faced by business managers.

This book constitutes the refereed proceedings of five workshops symposia, held at the 37th International Conference on Conceptual Modeling, ER 2018, in Xi'an, China, in October 2018. The 42 papers promote and disseminate research on theories of concepts underlying conceptual modeling, methods and tools for developing and communicating conceptual models, techniques for transforming conceptual models into effective implementations, and the impact of conceptual modeling techniques on databases, business strategies and information systems. The following workshops are included in this volume: Emp-ER: Empirical Methods in Conceptual Modeling, MoBiD: Modeling and Management of Big Data, MREBA: Conceptual Modeling in Requirements and Business Analysis, QMMQ: Quality of Models and Models of Quality, SCME: Conceptual Modeling Education. Proceedings of the 14th FRAP Finance, Risk and Accounting Perspectives conference taking place in Cambridge UK.

Franz Michael Fischer investigates the relationships between the application of the controllability principle and managers' cognitive, affective, and behavioral responses. The author further explores the impact of several important contextual factors on the basic relationships and, thus, develops moderated mediation models. He reveals that the application of the controllability principle has a significant effect on role stress and role orientation which, in turn, are related to managerial performance and affective constructs.
