Jack Ryan is an eight-year-old boy obsessed with playing video games! Tired of her son's constant game playing, Jack's mother tells him to go find something else to do. Jack follows his little sister Zoey into her homemade blanket tent. Zoey tells Jack that the blanket tent is not really a tent, but is rather a SECRET sparkly cave! At first Jack doesn't believe her, but then...very slowly...the tent turns into a cave! Join Jack and Zoey as they embark on a wild adventure that takes them out of the cave, underwater, and up into the stars! In addition to the Play picture book story, the paperback also includes: 1. Zoey's Room Activity Challenge! Use your creative thinking skills by trying to guess where Jack and Zoey played pretend in Zoey's bedroom! 2. The author's unique Search & Find Game! After reading the story, go back through the book, and try to figure out which things in the illustrations were real photos, and which things were drawings! 3. How to Make a Blanket Tent! Have you ever made a blanket tent, and played pretend? Here is a quick step-by-step guide on how to make a blanket tent in your home! This book is great for early readers, reading aloud at home, as a bedtime story, and it's especially fun to read right before you go PLAY! Review: "I really loved it and was definitely up my street. Getting kids away from computers for a while has to be a bonus for me. I loved the illustrations and the wording so going to rate it a 4 out of 5. I think its a great read for kids!" -Vicky Lloyd, NeDay Crafts and Events Limited. Our everyday lives are increasingly being lived through electronic media, which are changing our interactions and our communications in ways that we are only beginning to understand. In *Discourse 2.0: Language and New Media*, editors Deborah Tannen and Anna Marie Trester team up with top scholars in the field to shed light on the ways language is being used in, and shaped by, these new media contexts. Topics explored include: how Web 2.0 can be conceptualized and theorized; the role of English on the worldwide web; how use of social media such as Facebook

and texting shape communication with family and friends; electronic discourse and assessment in educational and other settings; multimodality and the "participatory spectacle" in Web 2.0; asynchronicity and turn-taking; ways that we engage with technology including reading on-screen and on paper; and how all of these processes interplay with meaning-making. Students, professionals, and individuals will discover that Discourse 2.0 offers a rich source of insight into these new forms of discourse that are pervasive in our lives.

Michael Langford, photographer, Course Director, RCA, and writer, 1933 - 2000 Praise for the previous edition: "Diagrams and photographs demystify information, helping the book strike a balance between technical details and shooting advice, and helpfully it doesn't talk down to the reader...The scope of information and the reasonable price ensures this is recommended." - What Digital

Camera "There is a lot of technical information that will give you a good grounding in photography, covering both traditional darkroom techniques and digital methods. Projects allow further exploration of themes and are a good way of extending your mastery of the camera." - Amateur Photographer "At last there is an introductory book that I can unreservedly recommend to friends, students and others who are in any way interested in the basics of photography and digital photography." - Sidney Ray, Senior Lecturer in Digital and Photographic Imaging, University of Westminster, photographer and Imaging Consultant.

This book breaks with convention and provides an overview of Chinese history in the form of special topics. These topics include the major issues of "A Scientific Approach to the Origins of Chinese Civilization," "Ancient Chinese Society and the

The book is based on current literature and research by university students. The modern history section is relatively concise, while the topics related to ancient Chinese history are longer, reflecting the country’s rich history and corresponding wealth of materials. There is also an in-depth discussion on the socialist modernization of the People’s Republic of China. The book provides insights into Chinese history, allowing readers “to see the value of civilization through history; to see the preciseness of history through civilization.” It focuses on the social background, lifestyle and development processes to

Here is an insider's account of the telecom industry and the true story of a telecom industry executive turned Wall Street analyst, just as the stock market bubble was beginning to burst. Thomas J. Lauria was a Wall Street analyst covering the white-hot telecom sector during the stock market bubble of 2000. 'The Fall of Telecom' revisits the telecom industry's historic and humble beginnings as part of the monopolistic Bell System and brings us into the life of a telecom industry executive turned Wall Street analyst, just as investor euphoria with technology stocks was starting to unravel. He shares many personal reflections on his time in industry and on the Street. This book will appeal to investors, business executives, former industry employees, and students of business history and the global telecom industry. It ends with a summary of valuable lessons and a Q&A discussion with the author.

PC John Bragg is young and full of ambition, and with his eye on making Superintendent one day, he squares up to each case that comes his way as an opportunity to show himself brave, reliable and a good detective. In town and country, at scenes of murder, robbery, fraud, abduction, military and industrial spying and arson, PC John Bragg's character grows as his mettle is tested. From dealing with artists' models in a murder case, to ensuring a bejewelled, high-spirited American heiress doesn't attract the wrong sort of attention, to protecting the pay destined for a staff of quarrymen, PC Bragg has his work cut out for him.

"You're going to die," the doctor said. But Canadian author Martin Avery laughed and walked away. *Fall Down Nine Times, Get Up Ten* tells the story of a man who was told he would never work or walk again, in Canada, but lived to get a better diagnosis of "jing-chi-shen" in China.

In this book, the author describes his attempt to create a meaningful and satisfying grieving process following the death of his 19 year old son, Jason, in a car accident. The narrative confronts the harsh reality of death from

The two-volume set LNCS 6753/6754 constitutes the refereed proceedings of the 8th International Conference on Image and Recognition, ICIAR 2011, held in Burnaby, Canada, in June 2011. The 84 revised full papers presented were carefully reviewed and selected from 147 submissions. The papers are organized in topical sections on image and video processing; feature extraction and pattern recognition; computer vision; color, texture, motion and shape; tracking; biomedical image analysis; biometrics; face recognition; image coding, compression and encryption; and applications. The picturebook is now recognized as a sophisticated art form that has provided a space for some of the most exciting

innovations in the field of children's literature. This book brings together the work of expert scholars from the UK, the USA and Europe to present original theoretical perspectives and new research on picturebooks and their readers. The authors draw on a variety of disciplines such as art and cultural history, semiotics, philosophy, cultural geography, visual literacy, education and literary theory in order to revisit the question of what a picturebook is, and how the best authors and illustrators meet and exceed artistic, narrative and cultural expectations. The book looks at the socio-historical conditions of different times and countries in which a range of picturebooks have been created, pointing out variations but also highlighting commonalities. It also discusses what the stretching of borders may mean for new generations of readers, and what contemporary children themselves have to say about picturebooks. This book was originally published as a special issue of the *New Review of Children's Literature and Librarianship*.

After the Snow Began to Fall is a novel that will make you laugh, cry, sit on the edge of your seat at times, and present you with questions (maybe even a few answers) that have challenged each of us during our lifetimes. The world in which these characters live is much different than that which we face, but their approach to living should be an inspiration to all. They must make do with less and become innovative when it counts. Life and death decisions are intertwined with humor and romance. Without anyone else to come to their aid, they struggle to survive and create a new life for themselves and those who join them along the way. In addition, this novel is rather unique, I think, because it is actually two novels in one. One of the characters is a writer who creates a novel for the other characters as the story proceeds. This was originally 4 separate books, but I realized that it would be less expensive for readers to buy one
