"I am a human being; I am a woman; I am a black woman; I am an African. Once I was free; then I was captured and became a slave; but inside me, here and here, I am still a free woman." During a period of four hundred years, European slave traders ferried some 12 million enslaved Africans across the Atlantic. In the Americas, teaching a slave to read and write was a criminal offense. When the last slaves gained their freedom in Brazil, barely a thousand of them were literate. Hardly any stories of the enslaved and transported Africans have survived. This novel is an attempt to recreate just one of those stories, one story of a possible 12 million or more. Lawrence Hill created another in *The Book of Negroes* (Someone Knows my Name in the U.S.) and, more recently, Yaa Gyasi has done the same in *Homegoing*. Ama occupies center stage throughout this novel. As the story opens, she is sixteen. Distant drums announce the death of her grandfather. Her family departs to attend the funeral, leaving her alone to tend her ailing baby brother. It is 1775. Asante has conquered its northern neighbor and exacted an annual tribute of 500 slaves. The ruler of Dagbon dispatches a raiding party into the lands of the neighboring Bekpokpam. They capture Ama. That night, her lover, Itsho, leads an attack on the raiders' camp. The rescue bid fails. Sent to collect water from a stream, Ama comes across Itsho's mangled corpse. For the rest of her life she will call upon his spirit in time of need. In Kumase, the Asante capital, Ama is given as a gift to the Queen-mother. When the adolescent monarch, Osei Kwame, conceives a passion for her, the regents dispatch her to the coast for sale to the Dutch at Elmina Castle. There the governor, Pieter de Bruyn, selects her as his concubine, dressing her in the elegant clothes of his late Dutch wife and instructing the obese chaplain to teach her to read and write English. De Bruyn plans to marry Ama and take her with him to Europe. He makes a last trip to the Dutch coastal outstations and returns

infected with yellow fever. On his death, his successor rapes Ama and sends her back to the female dungeon. Traumatized, her mind goes blank. She comes to her senses in the canoe which takes her and other women out to the slave ship, The Love of Liberty. Before the ship leaves the coast of Africa, Ama instigates a slave rebellion. It fails and a brutal whipping leaves her blind in one eye. The ship is becalmed in mid-Atlantic. Then a fierce storm cripples it and drives it into the port of Salvador, capital of Brazil. Ama finds herself working in the fields and the mill on a sugar estate. She is absorbed into slave society and begins to adapt, learning Portuguese. Years pass. Ama is now totally blind. Clutching the cloth which is her only material link with Africa, she reminisces, dozes, falls asleep. A short epilogue brings the story up to date. The consequences of the slave trade and slavery are still with us. Brazilians of African descent remain entrenched in the lower reaches of society, enmeshed in poverty. "This is story telling on a grand scale," writes Tony Simões da Silva. "In Ama, Herbstein creates a work of literature that celebrates the resilience of human beings while denouncing the inscrutable nature of their cruelty. By focusing on the brutalization of Ama's body, and on the psychological scars of her experiences, Herbstein dramatizes the collective trauma of slavery through the story of a single African woman. Ama echoes the views of writers, historians and philosophers of the African diaspora who have argued that the phenomenon of slavery is inextricable from the deepest foundations of contemporary western civilization." Ama, a Story of the Atlantic Slave Trade, won the 2002 Commonwealth Writers Prize for the Best First Book. Het bos waarin de negentienjarige Feyre woont is in de lange wintermaanden een koude, sombere plek. Haar overlevingskansen en die van haar familie berusten op haar vermogen om te jagen. Wanneer ze naar het gevreesde feeënrijk Prythian wordt gesleept, ontdekt Feyre dat haar ontvoerder geen beest is, maar Tamlin – een van de dodelijkste, onsterfelijke magische wezens ooit gekend. Terwijl ze op zijn landgoed verblijft, veranderen haar ijzige vijandige gevoelens voor Tamlin in een vurige passie die elke leugen en waarschuwing over de mooie, gevaarlijke wereld van de Elfiden in rook doet opgaan. Maar een oude, kwaadaardige schaduw groeit over het land, en Feyre moet een manier vinden om het te stoppen of Tamlin en zijn wereld zullen voor eeuwig verdoemd zijn.

It was night—drawing on to midnight—in summer, that I who write this book arrived at the little lonely farm of Biarg, on the Middle River, in the north of Iceland. It was night, near on midnight, and yet I could hardly call it night, for the sky overhead was full of light of the clearest amethyst, and every stock and stone was distinctly visible. Across the valley rose a rugged moor, and above its shoulder a snow-clad mountain, turned to rosy gold by the night sun. As I stood there watching the mist form on the cold river in the vale below, all at once I heard a strange sound like horns blowing far away in the sky, and looking up, I saw a train of swans flying from west to east, bathed in sunlight, their wings of silver, and their feathers as gold. I had come all the way from England to see Biarg, for there was born, about the year A.D. 997, a man called Grettir, whose history I had read, and which interested me so much that I was resolved to see his native home, and the principal scenes where his stormy life was passed. The landscape was the same as that on which Grettir's childish eyes had looked more than eight hundred and fifty years ago. The same outline of dreary moor, the same snowy ridge of

mountain standing above it, catching the midnight summer sun, the same mist forming over the river; but the house was altogether different. Now there stood only a poor heap of farm-buildings, erected of turf and wood, where had once been a noble hall of wood, with carved gable-ends, surrounded by many out-houses. Before we begin on the story of Grettir, it will be well to say a few words about its claim to be history. Iceland never was, and it is not now, a much-peopled island. The farmhouses are for the most part far apart, and the farms are of very considerable extent, because, owing to the severity of the climate, very little pasturage is obtained over a wide extent of country for the sheep and cattle. The population lives round the coast, on the fiords or creeks of the sea, or on the rivers that flow into these fiords. The centre of the island is occupied by a vast waste of ice-covered mountain, and desert black as ink strewn with volcanic ash and sand, or else with a region of erupted lava that is impassable, because in cooling it has exploded, and forms a country of bristling spikes and gulfs and sharp edges, very much like the wreck of a huge ginger-beer bottle factory. What are now farmhouses were the halls and mansions of families of noble descent. Indeed, the original settlers in Iceland were the nobles of Norway who left their native land to avoid the tyranny of Harold Fairhair, who tried to crush their power so as to make himself a despotic king in the land.

NABEEL'S SONG is an epic true story of one family's experience of life before, during and after the regime of Saddam Hussein. Nabeel Yasin had an ordinary childhood, in a middle-class neighbourhood in 1950s Baghdad. He showed an early gift for poetry and as a young man became famous for it. But by the end of the 1970s Saddam's rise to power was encroaching on his life, and that of his family. Nabeel's brothers were arrested and he himself

was denounced as an enemy of the state and fled Iraq in 1980. NABEEL'S SONG tells his story, and that of the family that he left behind; his matriarch of a mother Sabria, his four brothers and their rebellion against Saddam's regime, and his two sisters - all ordinary people living in extraordinary and difficult times. This is a moving family story of exile and endurance. 'Jo Tatchell's moving narrative, from Nabeel's mouth, tells of endurance, literary resistance and the courage of a loving, close-knit family opporessed by tyranny and war' The Times

An analysis of medical ethics during war and the inherent conflict between the principles of bioethics and the morally legitimate but competing demands of military necessity.

The author and every male member of his immediate family served in the Vietnam war. In 1988, his older brother, Elmo, died from Agent Orange-related cancers linked to his service as a Swift Boat commander during the Vietnam war. In a bitter irony, it was the actions of his father, Admiral Elmo R. Zumwalt, Jr., in ordering the spraying of Agent Orange when he commanded all US naval forces in Vietnam that sealed his brother's fate. People react differently to grief. For the author, it turned to animosity, directed against not only the war but also the enemy against whom we had fought. In 1994, traveling to Vietnam for the first time since the war, he met with Vietnamese leaders to discuss the Agent Orange issue. In doing so, it provided him with the opportunity to learn about the conflict from the perspective of those who had fought it on the other side of the battlefield. As these former enemy veterans began sharing their personal stories of hardship and tragedy-one of which was not too dissimilar from the author's own-he was struck by a stark realization. As difficult and tragic as the war had been for

Americans who served, it had taken as much, if not greater, a toll on the Vietnamese. In war, there are never winners-and Vietnam was no exception. Returning to Vietnam more than 50 times to interview hundreds of North Vietnamese Army (NVA) and Viet Cong (VC) veterans, in addition to Vietnamese civilians, the author obtained a better understanding as to the extent of our former enemy's suffering during that war. The result was a metamorphosis, which changed his attitude towards a former foe. "Bare Feet, Iron Will" became the vehicle by which he shares what this metamorphosis taught him. In "Bare Feet, Iron Will" are stories of intrigue, of patience, of ingenuity, of dedication and, most importantly, about a people with no option other than victory. These stories, share unique insights about the war. Intriguing insights evolving into odd coincidences-such as what led a Vietnamese veteran to write a novel, praised by Western critics, about the war; an interview where the author would learn the interviewee had tried to assassinate his father; the earlier-than-realized first American casualty of the Vietnam conflict and what that incident would portend for US involvement. About Vietnam's allies-including China, a country with which Vietnam has fought in almost every century and how China sought at times to give the appearance of helping North Vietnam while not doing so and North Korea, which pressured to send pilots to fight the Americans, only to have Hanoi send the Koreans home, trying to hide their participation by burying North Korean pilots in an obscure cemetery. More than a generation after the war in Vietnam ended, many Americans are still haunted by its

memory. More than thirty-four years after the fall of Saigon, it is time to better understand the enemy we fought and the role their "iron will" played. And with that understanding, hopefully many may find the healing they seek.

The strategic potential of the three-day attack of two NVA regiments on Kham Duc, a remote and isolated Army Special Forces camp, on the eve of the first Paris peace talks in May 1968, was so significant that former President Lyndon Johnson included it in his memoirs. This gripping, original, eyewitness narrative and thoroughly researched analysis of a widely misinterpreted battle at the height of the Vietnam War radically contradicts all the other published accounts of it. In addition to the tactical details of the combat narrative, the authors consider the grand strategies and political contexts of the U.S. and North Vietnamese leaders.

THE YEAR The New York Times bestselling author of *In Harm's Way* and *Horse Soldiers* shares the powerful account of an American army platoon fighting for survival during the Vietnam War in “an important book....not just a battle story—it’s also about the home front” (The Today show). On January 31, 1968, as many as 100,000 guerilla fighters and soldiers in the North Vietnamese Army attacked thirty-six cities throughout South Vietnam, hoping to dislodge American forces during one of the vital turning points of the Vietnam War. Alongside other young American soldiers in an Army reconnaissance platoon (Echo Company, 1/501) of the 101st Airborne Division, Stanley Parker, the nineteen-year-old son of a Texan ironworker, was suddenly thrust into savage combat, having been in-country only a few weeks. As Stan and his platoon-mates, many of whom had enlisted in the Army, eager to become paratroopers, moved from hot zone to hot zone, the extreme physical and mental stresses of Echo Company’s day-to-day existence, involving ambushes and attacks, grueling machine-gun battles, and impossibly dangerous rescues of wounded comrades, pushed them all to their limits and forged them into a lifelong brotherhood. The war became their fight for survival. When they came home, some encountered a bitterly divided country that didn’t understand what they had survived. Returning to the small farms, beach towns, and big cities where they grew up, many of the men in the platoon fell silent, knowing that few of their countrymen wanted to hear the stories they lived to tell—until now. Based on interviews, personal letters, and Army after-action reports, *The Odyssey* of

In the late nineteenth and early twentieth centuries, radical women's movements and the avant-gardes were often in contact with one another, brought together through the socialist internationals. Jill Richards argues that these movements were not just socially linked but also deeply interconnected. Each offered the other an experimental language that could move beyond the nation-state's rights of man and citizen, suggesting an alternative conceptual vocabulary for women's rights. Rather than focus on the

Download Ebook Bare Feet Iron Will Stories From The Other Side Of Vietnams Battlefields

demand for the vote, The Fury Archives turns to the daily practices and social worlds of feminist action. It offers an alternative history of women's rights, practiced by female arsonists, suffragette rioters, industrial saboteurs, self-named terrorists, lesbian criminals, and queer resistance cells. Richards also examines the criminal proceedings that emerged in the wake of women's actions, tracing the way that citizen and human emerged as linked categories for women on the fringes of an international campaign for suffrage. Recovering a transatlantic print archive, Richards brings together a wide range of activists and artists, including Lumina Sophie, Ina Césaire, Rosa Luxemburg, Rebecca West, Angelina Weld Grimké, Elizabeth Gurley Flynn, Hannah Höch, Claude Cahun, Paulette Nardal, and Leonora Carrington. An expansive and methodologically innovative book, The Fury Archives argues that the relationship of women's rights movements and the avant-gardes offers a radical alternative to liberal discourses of human rights in formation at the same historical moment.

David Maraniss tells the epic story of Vietnam and the sixties through the events of a few gripping, passionate days of war and peace in October 1967. With meticulous and captivating detail, *They Marched Into Sunlight* brings that catastrophic time back to life while examining questions about the meaning of dissent and the official manipulation of truth—issues that are as relevant today as they were decades ago. In a seamless narrative, Maraniss weaves together the stories of three very different worlds: the death and heroism of soldiers in Vietnam, the anger and anxiety of antiwar students back home, and the confusion and obfuscating behavior of officials in Washington. To understand what happens to the people in these interconnected stories is to understand America's anguish. Based on thousands of primary documents and 180 on-the-record
