Case-driven content and succinct explanations are combined with summaries, questions, and examples to allow students to gain a sound understanding of the theory and application of contract law principles.

French Business Law in Translation sets forth a unique collection of translations of those French laws relevant in an international business context. It presents a bilingual version of the French laws and regulations that the authors have condensed from tens of thousands of pages down to the “essence” of the law in each of the fifteen subject areas. They refer to rules and regulations in French law of recurrent importance to business professionals and legal practitioners involved in international business. By adding the relevant French text in a column directly across from the translation into English, this 2nd edition has a whole new dimension which makes it an invaluable resource in legal linguistics for international practitioners and academics. The selection of texts has been made by members of the Paris office of Paul, Hastings, Janofsky & Walker (Europe) LLP, under the direction of Pierre Kirch. A team of advanced French and American law students at Columbia University Law School, supervised by Professor Bermann, has prepared the basic translations. The definitive translations and chapter introductions were prepared by the authors. Through a sound translation of the legislation which recurrently applies to ordinary and usual business situations, it is possible to discern the philosophy underlying the French system, reflective of how France conceives and regulates business phenomena that are in themselves essentially universal. Significant excerpts of fast-evolving areas of the law have been translated because in a French setting, transactional work involves not only fundamental contractual concepts set out in the Civil Code, but also securities law, intellectual property, competition, tax and labor law considerations. Each chapter opens with a brief introduction to the subject and an outline of its contents. The purpose is to allow the reader to place the translated legislation and rules in their overall context. The selection of translated material is done in such a way as to enable the reader to appreciate in their full scope the fundamentals of each area of the law, as conceived by the legislator, the French Government and, in certain cases, independent regulatory authorities. A glossary added to each chapter is intended to give a preliminary idea of the conceptual linguistic tools used in each of the subject-area chapters. Legal translation is not an exact science, but based on the authors' combined experience of more than 50 years in dealing with the fascinating differences between French law and U.S. law, they are keenly aware of the fact that the translation of legal language is not made by the translation of words, but rather by an attempt to use words to achieve an (often rough) equivalence of concepts. By putting the French original across from the translation, and by investing themselves in the qualitative value

of seeking not words but conceptual equivalents or explanations for the rules of French law, they hope to have fostered a deeper understanding of the laws and regulations governing business in France. This should not only better inform those lawyers involved internationally but also be instructive to French lawyers interested in the recurrent linguistic characteristics of French legal texts. This can only be shown when the French original is compared with the appropriate conceptual link to American legal English.

Business Law has been written to meet the requirements of the Legal Practice Course, and provides all of the relevant material students need to understand the latest legal developments affecting business law transactions. The guide provides practical, up-to-date coverage of company, partnership, taxation, and insolvency law, plus all relevant aspects of EU law. This 2007-2008 edition includes detailed information on the Companies Act 2006; discussion of the parts of this legislation which are not in force until 2008 are clearly marked for the student. Fuller coverage of partnership offers students a more in-depth exposition of this topic. Development questions are included at the end of the book to test students' awareness of issues raised. Extensive and updated legal references allow students to cross-refer to appropriate primary sources, or use the guide to interpret such sources. Online Resource Center This edition is accompanied by an Online Resource Center providing student learning activities written by the authors. These scenario based multiple choice questions are freely accessible and encourage students to assess their own knowledge and understanding. They cover the topics students often find more difficult, including partnership agreements, insolvency, company law, taxation, and EC law. New questions dealing with several aspects of the new Companies Act 2006 have also been added for the 2007-2008 edition. The questions and feedback link directly to the material within the text and can be printed out to allow students to build up a permanent record of business law problems and solutions. Updates on the progress of the Companies Act 2006 will also be posted on the Online Resource Center when appropriate to ensure that students remain fully informed.

There has been a long felt need for a book which details the legal aspects of the airport business. This book will discuss the nature of the airport business and inquire into the constraints faced by airports in obtaining their revenues. It will also discuss the liability of an airport operator for injury to persons who use the airport premises and liability for vehicular accidents landside or airside including work accidents of airport employees or other accidents caused by airport employees of the airport. The bulk of the book will be dedicated to the legal aspects of issues such as principles of lease financing of premises and equipment; employee contracts; agency; general contractual and tortious liability of airports; negligent entrustment of property and equipment; obligations of oversight of tenants in their implementation and application of contractual terms, Risk Management; legal principles pertaining to the oversight of airport safety

and security; competition; labour law; and the art of negotiation.

The purpose of this book is to introduce the reader to the law of agency and partnership, as well as company law. Over the past years, knowledge-intensive industries have gained significant importance as economic factor, giving rise to professional service firms (PSFs) such as law firms, accounting firms, or consultancies. Following this development, the research interest especially in the strategies pursued by PSFs has grown substantially. However, past research focused mainly on strategies of established, mature PSFs, leaving academics as well as potential entrepreneurs without guidance on what newly founded, entrepreneurial PSFs should pay attention to in order to ensure lasting competitive advantages. Based on an explorative grounded theory analysis of two outstanding commercial law firm spin-offs in Germany, this work advances the research in this field. In addition to a detailed case study report, it offers a comprehensive theoretical framework and argues that PSFs have to employ a set of seven specific entrepreneurial strategies – including for example service delivery, people development, and client acquisition strategies – in order to successfully manage the entrepreneurial phase. In providing examples for the growing PSF industry, the findings on commercial law firm spin-offs also inform entrepreneurship research in other professions

The 11 chapters of this book are intended to assist police investigators in obtaining the evidence required to prove the distinctive criminal elements of embezzlement and fraud. The first chapter defines "white-collar crime" and describes types of white-collar crime under the categories of crimes by individuals, crimes in the furtherance of legitimate business, and criminal activity disguised as legitimate business. The international scope of white-collar crime and the enforcement of white-collar crime are then discussed. The second chapter focuses on the white-collar crime of embezzlement, which occurs when a person fraudulently appropriates to his/her own benefit money or property entrusted to him/her by another without the effective consent of the owner. Fraud is the subject of the third chapter. Fraud occurs when a person obtains the property of another by deception. The deception involves making representations that are knowingly false by the design of the offender, and these representations are made with the intent to defraud a targeted victim. Relying on these false representations, the victim is induced to voluntarily give his/her property to the offender. The fourth chapter, a new chapter in this second edition, addresses identity theft, its incidence and costs, and the laws that it violates. The remaining chapters focus on the practical aspects of investigating embezzlement, fraud, and identity theft. Separate chapters cover accounting theory for investigators; auditing theory for investigators; financial interviewing and interrogation; public information, subpoenas, and search warrants; evidence and documentation; proving illicit transactions; and case preparation and the investigative report. Seven appendixes pertain to the numerical system of the American Bankers Association, the affidavit of financial information, area assignments of Social Security numbers, a guide to sources for financial information, consent to search, customer consent and authorization for access to financial records, and statement of rights.

Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series. The study presents detailed benchmarking data on alumni relations from 55 North American colleges. The 200+ page study covers fundraising and outreach strategies, alumni office staffing and budget trends, analysis of alumni affairs staff time use, use of social media and other marketing and outreach vehicles, relations with alumni clubs, spending on consulting, travel, telephone solicitation, and direct mail, and much much more. The report also gives highly specific data on participation rates in various kinds of alumni reunions and overall participation in the alumni association, among other data

points. Data is broken out for public and private colleges, and by enrollment level, general Carnegie Class and annual tuition charged, to enable more precise benchmarking.
