Committee Serial No. 7. Considers H.R. 7092, to extend funding and development of saline water conversion program, including use of steam heat from nuclear power plants to distill seawater.

Committee Serial No. 8. Considers H.R. 4851 and related H.R. 5666, H.R. 5594, H.R. 5919, and H.R. 7785, to amend the Small Reclamation Projects Act of 1956 to authorize continuation of various small project programs including improvements to irrigation projects, an adjusted interest rate charge for water service to nonagriculture land, and nonreimbursable grants for recreation. Also modifies procedures for obtaining grants for fish and wildlife resources development projects.

Part 1, Group 1: Books, v. 19 : Nos. 68 - 123 (September, 1922 - January, 1923)

Committee Serial No. 2. Considers H.R. 485, and seven related bills to extend Federal funding for Central Valley Project.

Committee Serial No. 89-25. Considers H.R. 3606 and four similar bills, to amend the Water Resources Research Act of 1964 to increase Federal funding for water resources research.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*, and the *Congressional Globe (1833-1873)*

The all-inclusive reference to starting and operating a landscape architecture firm *The Professional Practice of Landscape Architecture, Second Edition* is completely revised to keep up with the latest developments driving the day-to-day operation of a successful private-practice landscape architecture office. Whether helping a landscape architecture student identify a career track, providing direction on starting a new office, guiding an owner seeking to jumpstart a stagnant or fledgling business, or assisting a landscape architect-in-training study for the national Landscape Architecture Registration Exam (LARE), this single-source blueprint is the key to prospering in this dynamic field. This new edition features: Indispensable information for practicing landscape architects, including professional ethics, finances, office administration, marketing and promotion, and project management An updated look at government regulatory laws, federal tax administration, sustainable design, and LEED certification Strategies for using the Internet, computer software, and technology to market and manage a firm Examples of professional contract templates Case study profiles of landscape architecture firms Requirements for professional registration and criteria for taking the national exam This comprehensive and practical reference combines real-world experience with the highest professional standards to instruct the reader on business concepts. Expertly organized and easy to follow, *The Professional Practice of Landscape Architecture, Second Edition* continues to be the one source that landscape architects need to direct all facets of their practice.

What is landscape architecture? Is it gardening, or science, or art? In this book, Bruce Sharky provides a complete overview of the discipline to provide those that are new to the subject with the foundations for future study and practice. The many varieties of landscape practice are discussed with an emphasis on the significant contributions that landscape architects have made across the world in daily practice. Written by a leading scholar and practitioner, this book outlines the subject and explores how, from a basis in garden design, it 'leapt over the garden wall' to encapsulate areas such as urban and park design, community and regional planning, habitat restoration, green infrastructure and sustainable design, and site engineering and implementation. Coverage includes: The effects that natural and human factors have upon design, and how the discipline is uniquely placed to address these challenges Examples of contemporary landscape architecture work - from storm water management and walkable cities to well-known projects like the New York High Line and the London Olympic Park Exploration of how art and design, science, horticulture, and construction come together in one subject Thinking about Landscape Architecture is perfect for those wanting to better understand this fascinating subject, and those starting out as landscape architecture students.

Committee Serial No. 6. Considers H.R. 36 and H.R. 378, to authorize Interior Dept to construct, operate and maintain Burns Creek project, upper Snake River Valley, Idaho.

Committee Serial No. 89-24. Considers H.R. 2829 and companion S. 490, to authorize Interior Dept to construct, operate, and maintain the Manson Unit, Chelan Division, Chief Joseph Dam Project.

This collection by death-row prisoners, playwrights, poets, activists, and literary scholars provides literary perspectives on the subject of the death penalty.

Since the first edition was published in 1992, Nick Robinson's *The Planting Design Handbook* has been widely used as a definitive text on landscape architecture courses throughout the world. It remains one of the few titles written by a practicing landscape architect and educator who is also a horticulturalist and accomplished plantsman, and which deals with the application of planting

design on a large scale in landscape architecture and urban design projects. The Planting Design Handbook is distinctive for its elegant integration of an ecological approach with an understanding of visual and spatial composition. It emphasizes the role of vegetation layers and designed plant communities in complex and diverse plant assemblages for all kinds of sites and uses. This expanded and comprehensively updated third edition still provides a complete examination of principles and practice of design for public, institutional and private landscapes. It takes account of developments in theory and practice, especially in the use of perennials, and reflects a variety of media and approaches current in landscape architecture and design. All chapters have been revised and re-written to ensure updated references and new references have been added. Many new photographs of planting and projects around the world have been included, with examples of current professional drawings to illustrate the design process. It is generously illustrated, including a colour section and the beautifully detailed line drawings of the Chinese architect and painter Jia-Hua Wu.

Considers (89) H.R. 2020, (89) S. 32.

Committee Serial No. 89-36. Considers H.R. 13914, to authorize the Interior Dept to construct, operate, and maintain the Southwest Idaho Water Development Project in the Snake River Basin.

Committee Serial No. 11. Considers H.R. 162, to authorize Interior Dept to construct, operate and maintain the Columbus Bend Project water supply for storing, regulating and furnishing water from the Colorado River.
