The Successful Law Student: An Insider's Guide to Studying Law is the ultimate companion for all prospective and current law students. Packed full of insights, advice and perspectives from current and past law students it is the only student guide to offer you the inside track on how to make the most of your law degree and your time at university. The Successful Law Student: An Insider's Guide to Studying Law is perfect for you whether you're taking a one-, two-, three- or four-year degree course or planning to take a year abroad, whether you're a full-time, part-time, or mature student, or whether you'll be balancing your studies with work or other commitments. The focus is on the things that will make a big difference to your student experience, including making a smooth transition to university level study, getting the most out of lectures and feedback from tutors, advice on how to approach law exams, and finding a rewarding career. Complemented by a variety of insider voices from students and alumni, which add valuable context and real-life insight, Imogen Moore and Craig Newbery-Jones use their extensive experience as law teachers to explore the learning process and look beyond it to consider the wider definition of success, and help you manage the pressures of legal study.

With an ever-growing body of corpus linguistic tools, resources and applications, it becomes increasingly important to reflect critically on the underlying assumptions that corpus linguistics is based on. Focusing on meaning and methods, this book tackles fundamental concepts and approaches that define the discourse of the field. Internationally renowned contributors address topics that range from the history of corpus linguistics to contrastive perspectives between languages, to interpreting patterns in corpora as evidence of both mainstream discourses and individual voices within them. This collection not only adds to our understanding of the fundamentals of corpus linguistics, it also brings innovative meanings to the corpus linguistics discourse. It has been edited in honour of Wolfgang Teubert, who for decades has been a significant voice in this discourse.

Achieve your survey goals by empowering your survey respondents. Too often, surveys are designed for the analyst, rather than the respondent. This book challenges the status quo by putting respondents' needs at the heart of survey development. It encourages you to stop, listen, and then design to improve response rates and collect high quality data. Drawing on their experience at the UK Office for National Statistics, the authors: Show you how to design better surveys by combining social research and user experience best practice. Equip you with the tools to design inclusive and accessible surveys. Enable you to overcome practical research problems, including managing participant recruitment, and working to any budget. Provide links to helpful web material and further reading as part of the book's online resources. Promoting a new way to conceptualise and conduct survey design, this book expands your theoretical thinking and shows you, step-by-step, how to put it into practice.

In this textbook designed for courses on aviation labor relations, the authors-experts with many years of experience in these sectors-examine and evaluate the labor process for all aspects of the aviation and aerospace industries, including aerospace manufacturing, airlines, general aviation, federal and state administrative agencies, and public airports. The reason to do online learning, at least for a part of your education is that it's much cheaper than attending a college or school fulltime so you can hold down a job while studying from home for at least part of your degree thus avoiding the hassles of attending classes live unless you're young and curious and want the social college-school experience. Some of the benefits of distance education are: Convenience, go at your own pace. Stay home. Available anywhere over the internet. Prices are cheaper for online courses than traditional college courses. Some distance-education programs have an in-class component, particularly ones with labwork or internships. You need basic computer skills. There is teacher interaction over the internet but no face-to-face interaction. There is no social life, no friends, no classmates.
