Covering the nurse's role in promoting community health, Community/Public Health Nursing, 5th Edition is known for its "upstream" preventive focus and social justice approach, photo novellas with clinical stories, and a concise, readable style. It shows how you, as a nurse, can take an active role in social action and health policy – especially in caring for diverse population groups. Expert authors Mary A. Nies and Melanie McEwen discuss today's issues and trends, and describe the key issues and responsibilities of contemporary community/public health nursing. An "upstream" focus addresses factors that are the precursors to poor health in the community. A "social justice" approach promotes health for everyone. Photo novellas use photographs to tell stories showing real-life clinical scenarios and applications of important community health nursing roles. Case Study: Application of the Nursing Process feature presents specific community components of the nursing process separately from individual and family. Clinical examples offer snippets of real-life client situations. Research Highlights boxes show the application of current research to chapter content. Ethical Insights boxes highlight ethical issues and concerns. Healthy People 2020 boxes summarize objectives and their importance in community health. Objectives, key terms, and chapter outlines introduce important concepts and terminology at the beginning of every chapter. Learning Activities at the end of each chapter ask you to apply concepts to the world outside the classroom. New Health Promotion and Risk Reduction chapter details the promotion of health and presents strategies that can identify risk factors for illness. Faith Community Nursing chapter reflects current terminology from the ANA's Scope and Standards of Practice, and includes more coverage of the spiritual health of clients. Health: A Community View chapter expands its discussion of the continual challenges and strategies associated with the delivery of health care. Communicable Disease chapter includes new information about public health surveillance, outbreaks, and bioterrorism. Cultural Diversity and Community Health Nursing chapter features new content on complementary and alternative therapies.

COMPREHENSIVE COMMUNITY HEALTH NURSING is a readable text offering complete coverage of all major topics in community health nursing from epidemiology and communicable disease to chronic illness and home health nursing. Centered on the family as the basic unit of community, this edition highlights and expands the discussion of aggregates at risk with a new chapter on contemporary health issues including poverty and homelessness, substance abuse, and violence. The text has been thoroughly updated to describe the impact managed care is having on the health care delivery system. The various roles and responsibilities of community health nurses, within a spectrum of non-acute care settings such as schools, businesses and industries, clinics and hospice centers, are clearly described. Provides a complete discussion of U.S. health legislation and health services to help the reader understand the current status of the health care system and access valuable services for their clients. Integrates over 40 case studies to demonstrate application of concepts to practice. Includes standards of practice developed by the American Nurses Association and other bodies for Community Health Nursing, Home Health Nursing, Gerontological Nursing, and more. Uses the nursing process, including nursing diagnosis and intervention, to consistently present care of families, aggregates, and communities. Provides coverage of growth and development of aggregates at risk across the lifespan to help the reader plan and implement health promotion strategies at the primary, secondary, and tertiary levels. Features "An Exercise in Critical Thinking" at the conclusion of each chapter to enhance analysis and problem-solving skills. Provides assessment tools and quick reference information in appendices for easy access. Offers an Instructor's Resource Manual with approximately 1,000 test questions/answers and transparency masters, plus a Computerized Test Bank.

Do you ever feel overwhelmed by concepts in Community Health Nursing? Do you ever feel that it is just a small part of the entirety of nursing concepts yet you need to pass the subject to finish your nursing program? Do you consider this as your Achilles' heel in passing NCLEX? Community nursing is not a small matter at all. With the adaptive nature of the NCLEX exam, it may happen that you may incorrectly answer 2 to 3 questions on this subject and subsequently find yourself lost answering many similar questions as the exam progresses. Don't get lost! Be ready and put on your best armor for success. This test bank will help you significantly because it highlights important concepts that will help you understand community nursing. The quality of this test bank is assured because community health nurses themselves compiled the questions. The test bank has undergone the strictest development and evaluation processes so that accuracy and significance are ensured. The test bank reveals concepts from the book, "Introduction to Community-Based Nursing, Fifth Edition by Roberta Hunt." The questions and rationales have been streamlined to include most important concepts to remember. It also includes the latest NCLEX question structure, the SATA (Select All That Applies) questions to further enhance your test-taking skills. The book itself develops clinical reasoning that will be helpful in these times when home health in the community setting gains momentum as stay in acute care settings is shortened. It also gives a fair emphasis on cross-cultural care. Furthermore, it provides a great insight into how the family influences individual care. Whether you are a student taking this subject, a graduate aspiring to be a professional or already a registered nurse looking into community nursing as a career path, this test bank is a powerful tool to help achieve your goals. It would give you an edge over others in terms of readiness and critical thinking skills. Get this test bank now!

This unique, problem-solving, case-based approach shows you how. You'll encounter different case studies in every chapter—that explore concepts such as community assessments, public health policy, and surveillance. Step by step, you'll develop the knowledge and skills you need to apply public health principles across a variety of health care settings, special populations, and scenarios.

- \*The author has secured a knowledgeable, expert contributor to develop meaningful, concept maps for the clinical chapters and we will work to revise our current concept map creator on Evolve to be more state of the art
- \*Integrate the DSM-V to the extent that we know prior to publication to make our text as current as possible. DSM-V content is to be released in Spring 2013 while our text is in production. All relevant and updated NANDA content will be included as well
- \* The number of photos and illustrations will be increased to add to the appeal of the text (per reviewer comments). One example is to include normal brain images in the clinical chapters that are also accompanied by an image demonstrating clinical pathology (eg: schizophrenia)

A unique text designed specifically for use throughout the associate degree nursing (ADN) curriculum, [this volume] provides students with a solid foundation for administering nursing care in the community. [It] provide[s] an overview of the health care system, an introduction to the epidemiology of health and illness, and an exploration of the factors that influence the health and care of individuals and families living in the community.-Back cover.
