"International crime and punishment has captivated (or recaptivated) our attention since the early 1990s. Both the substantive contents of international crimes and the ways and means of punishing them have given us a great deal of food for thought. The entry into force on July 1, 2002 of the Rome Statute of the International Criminal Court has spurred further soul searching on these issues. This collection presents some voices in this debate. The issues tackled herein are among the more difficult and the less-treated ones. They relate to the definition of aggression, mistake of law as a defense, the doctrine of command responsibility, and the International Committee of the Red Cross as a witness before international criminal tribunals. These are more or less unsettled issues, and they cry out for rigorous treatment." -- from the Preface, p. [v].

Omdat ze weigert hem na sluitingstijd een drankje te geven vermoordt Vicky Rai, playboy en zoon van de minister van Binnenlandse Zaken, de serveerster Ruby Gill. Hij kent de juiste mensen en wordt vrijgesproken. Maar op het feestje dat hij geeft om zijn vrijspraak te vieren wordt hij zelf neergeschoten. Wanneer de politie de gasten fouilleert, treft ze bij zes mensen een pistool aan. Deze verdachten blijken allemaal een motief te hebben. De onderzoeksjournalist Arun Advani maakt het tot zijn missie uit te zoeken wie de moordenaar is.

Vikas Swarup schetst in zijn langverwachte tweede roman een intrigerend beeld van de hedendaagse standenmaatschappij in India en van onze door corruptie, machtsmisbruik en celebrityverering gekenmerkte wereld. Zes verdachten is een onvervalste pageturner, het werk van een meesterverteller.

An analysis of political corruption and attempts to battle it in the Soviet elite, without the usual baggage of moral indignation and finger-pointing. Examines how corruption fit into the structure of the bureaucracy and the society, attitudes toward it, data on its prevalence, the politics and methods of combating it, and the future of reform in the successor states. "Authoritative and comprehensive, this multivolume set includes hundreds of articles in the field of criminal justice. Impressive arrays of authors have contributed to this resource, addressing such diverse topics as racial profiling, money laundering, torture, prisoner literature, the KGB, and Sing Sing. Written in an accessible manner and attractively presented, the background discussions, definitions, and explanations of important issues and future trends are absorbing. Interesting sidebars and facts, reference lists, relevant court cases, tables, and black-and-white photographs supplement the entries. Appendixes cover careers in criminal justice, Web resources, and professional organizations. A lengthy bibliography lists relevant works."--"The Best of the Best Reference Sources," American Libraries, May 2003.

New footnotes have been added, based on discoveries by the leading Soviet Dostoevsky scholar, Sergei Belov. "Backgrounds and Sources", highly praised in the Second Edition, remains unaltered. Included are a detailed map of nineteenth-century St. Petersburg, selections from Dostoevsky's notebooks and letters, and a crucial passage from an early draft

of his novel. Noteworthy among the several new "Essays in Criticism" are a little-known but important passage by Leo Tolstoy on Raskolnikov; an essay by Sergei Belov; observations by the Russian literary theoretician and scholar Mikhail Bakhtin; and an essay by the Nobel laureate Czeslaw Milosz. A Chronology of Dostoevsky's Life and a Selected Bibliography are also included.

Designed as a text for Criminal Justice and Criminology capstone courses, *Toward Justice* encourages students to engage critically with conceptions of justice that go beyond the criminal justice system, in order to cultivate a more thorough understanding of the system as it operates on the ground in an imperfect world—where people aren't always rational actors, where individual cases are linked to larger social problems, and where justice can sometimes slip through the cracks. Through a combined focus on content and professional development, *Toward Justice* helps students translate what they have learned in the classroom into active strategies for justice in their professional lives—preparing them for careers that will not simply maintain the status quo and stability that exists within our justice system, but rather challenge the system to achieve justice.

Crime and Punishment is a novel by the Russian author Fyodor Dostoyevsky. It was first published in the literary journal *The Russian Messenger* in twelve monthly installments during 1866. Later, it was published in a single volume. It is the second of Dostoyevsky's full-length novels following his return from 5 years of exile in Siberia. *Crime and Punishment* is considered the first great novel of his "mature" period of writing. *Crime and Punishment* focuses on the mental anguish

and moral dilemmas of Rodion Raskolnikov, an impoverished ex-student in Saint Petersburg who formulates and executes a plan to kill an unscrupulous pawnbroker for her cash. Raskolnikov, in an attempt to defend his actions, argues that with the pawnbroker's money he can perform good deeds to counterbalance the crime, while ridding the world of a vermin. He also commits the murder to test a theory of his that dictates some people are naturally capable of such actions, and even have the right to perform them. Several times throughout the novel, Raskolnikov compares himself with Napoleon Bonaparte and shares his belief that murder is permissible in pursuit of a higher purpose. Odin's Library Classics is dedicated to bringing the world the best of humankind's literature from throughout the ages. Carefully selected, each work is unabridged from classic works of fiction, nonfiction, poetry, or drama.

This volume consists of research papers written under editor Sienho Yee's supervision at the University of Colorado School of Law. The papers address interesting and difficult issues relating to substantive international crimes and the international regimes of punishment. Issues discussed include the Rome Statute and the crystallization of the norm proscribing statutes of limitations for serious international crimes; acts of terrorism as crimes against humanity under the Rome Statute; the balance between military necessity and civilian immunity;

juvenile death penalty under international law; the practical applications of *Ne Bis in Idem*; and the possible federalization of the crime of torture. This volume is of great value to scholars and practitioners in international law and international relations, international criminal law, and to N.G.O. advocates.

An examination of the enormous changes in Chinese society in the first half of the 20th century through the lens of the Chinese prison system. More than a simple history of prison rules or penal administration, the text offers a social and cultural analysis of the Chinese prison system that explores the profound effects and lasting repercussions of superimposing Western-derived models of repentance and rehabilitation on traditional categories of crime and punishment. It is generally assumed that we are justified in punishing criminals because they have committed a morally wrongful act. Determining when criminal liability should be imposed calls for a moral assessment of the conduct in question, with criminal liability tracking as closely as possible the contours of morality. Versions of this view are frequently argued for in philosophical accounts of crime and punishment, and seem to be presumed by lawyers and policy makers working in the criminal justice system. Challenging such assumptions, this book considers the dominant justifications of punishment and subjects them to a piercing moral critique. It argues that none overcome the objection that people who are

convicted of a serious crime and sent to prison have their basic human rights violated. The institution of criminal punishment is shown to be a regrettable necessity not deserving of the moral enthusiasm it enjoys among many politicians and the popular press. From a moral point of view, punishment is entitled at best to grudging toleration. In the course of developing the argument, the book introduces the principal issues of criminal law theory with the aim of presenting a morally enlightened perspective on crimes and why we punish them. Enforcement of the law by police, prosecutors, and courts is a matter of concern for political morality, and the principal practices of the criminal justice system are subjected to moral scrutiny. The book presents an original, engaging, and provocative approach to the philosophy of crime and punishment, challenging not only students, but a wide range of other readers to rethink the fascinating and troubling questions at the foundations of crime and punishment.

This broad-ranging 1995 book provides a comprehensive account of the development of Australia's colonial economy before the gold rushes. Noel Butlin's analysis of the developing economy includes background discussion of eighteenth-century British social, economic, and military history and a detailed demographic analysis of the Australian population over a period of sixty years. He goes on to explore the role of private investment in the economy and the way

in which dependence on the British public purse was replaced by dependence on private British capital inflow. A key focus of the book is the extent to which the Australian economy was independent or externally driven, that is, the level of synergism between Australia and Britain. Within this framework, Noel Butlin discusses the central issues of human capital and funding and their impact on the formation of the Australian economy. Forming a Colonial Economy does for the period to the 1840s what Noel Butlin's previous landmark economic histories have done for Australia from the 1860s to the 1890s. It is an ambitious and imaginative book that marks the culmination of a life's work.

This book was written as part of a much wider criminological enterprise, designed at creating a real and critical basis for criminological enquiry in Ireland. Properly understood the Criminal Justice System (CJS) is every bit as important to society as the circular flow of money. No government would dream of conducting its business without the advice of an economist or, indeed, providing an econometric model of the economy. Yet when it comes to the CJS, governments take the opposite view and legislate in the dark, hardly reconnoitering for a moment to see what effect proposed legislation will have on the several institutions it invariably affects. Maybe this was okay when those effects could not be calculated. But such is no longer the case. In 1967 a President's Commission on Law

Enforcement and the Administration of Justice featured a model of criminal justice entitled "The Challenge of Crime in a Free Society." Incredibly misunderstood and widely neglected, this model marked a breakthrough -- the first step, as it were -- in coming to terms with the multiple agencies that go to make up what has come to be called the Criminal Justice System (CJS). In Volumes 2 and 3 of the present series Seamus Breathnach traces the initial steps necessary to complete the revolution begun by the President's Commission. In doing this he reveals the systematized neglect of the CJS in the Republic of Ireland for years 1950-80. In eight lectures he delineates the Republic's inability to get its act together or to engage the terms or significance of the '67 landmark - an inability that is anchored both in a deep religious resistance to the secular social sciences as well as an exaggerated estimation of the criminal lawyer as social commentator. From this study it appears that the first step for criminologists is to see the CJS as a totality - to see it as a social process clamoring to be rescued from the spokesmen of the discrete agencies that comprise it.

Published to great acclaim and fierce controversy in 1866, Fyodor Dostoevsky's Crime and Punishment has left an indelible mark on global literature and our modern world, and is still known worldwide as the quintessential Russian novel. Readers of all backgrounds have

debated its historical, cultural, and spiritual dimensions, probing the moral and ethical dilemmas that Dostoevsky so brilliantly stages throughout his narrative. Yet, at its heart, this masterpiece of literary realism is ultimately an immersive tale of passion and redemption--indeed, "the best of all murder stories" (Harold Bloom), "most perfect in pacing and structure. There is no more gripping novel in the world" (Michael Dirda). Now, acclaimed translator Michael R. Katz breathes fresh life into this ageless classic in a sparkling new translation, with novel insights into the linguistic richness, subtle tones, and cunning humor of Dostoevsky's magnum opus. Embracing the complex linguistic blend inherent in modern literary Russian that has provided an exceptionally fertile source of images and diction for Russian writers since the time of Pushkin, Katz recaptures the richness of tone and register of the novels most poignant and significant passages. Sensitive to this linguistic mosaic, Katz ably recreates the feeling of the original Russian for the English reader, allowing the text to evoke the same stirring emotional responses as the author intended. With its searing and unique portrayal of the labyrinthine universe of nineteenth-century Russia, this masterful rendering of *Crime and Punishment* will be the translation of choice for years to come.

Selected works of Fyodor Dostoevsky from the series "Best of the Best" is the book that everyone should read to understand themselves and each other. The authors and works for this book series were selected, as a result of numerous studies, analysis of the texts over the past 100 years and the demand for readers. It must be read in order to understand the world around us, its history, to recognize the heroes, to understand the winged expressions and jokes that come from these literary works. Reading these books will mean the discovery of a world of self-development and self-expression for each person. These books have been

This volume of the Best of the Best series includes famous works The Idiot Crime and Punishment The Brothers Karamazov The Insulted and the Injured Notes from the Underground The Grand Inquisitor The Possessed The Gambler Poor Folk Uncle's Dream The Permanent Husband An Honest Thief

This four volume collection looks at the essential issues concerning crime and punishment in the long nineteenth-century. Through the presentation of primary source documents, it explores the development of a modern pattern of crime and a modern system of penal policy and practice, illustrating the shift from eighteenth century patterns of crime (including the clash between rural custom and law) and punishment (unsystematic, selective, public, and body-centred) to nineteenth century patterns of crime (urban, increasing, and a metaphor for social instability and moral decay, before a remarkable late-century crime decline) and punishment (reform-minded, soul-centred, penetrative, uniform and private in application). The first two volumes focus on crime itself and illustrate the role of the criminal courts, the rise and fall of crime, the causes of crime as understood by contemporary investigators, the police ways of 'knowing the criminal,' the role of 'moral panics,' and the definition of the 'criminal classes' and 'habitual offenders'. The final two volumes explore means of punishment and look at the shift from public and bodily punishments to transportation, the rise of the penitentiary, the convict prison system, and the late-century decline in the prison population and loss of faith in the prison.

Patricia Highsmith's thrilling novel *Ripley's Game*. Vintage Crime is just one of ten Vintage Classic Twins to collect. Each twin consists of two books: a specially designed limited edition of one modern classic title and one established classic work. The books in each pair have been carefully selected to provide a thought-provoking combination. *Crime and Punishment*: A troubled young man commits the perfect crime. Raskolnikov is desperate for money, but convinces himself that his motive for murder is to benefit mankind. So begins one of the greatest novels ever written, a journey into the criminal mind, a police thriller, and a meditation on morality and redemption. *Ripley's Game*: Tom Ripley detested murder. Unless it was absolutely necessary. If possible, he preferred someone else to do the dirty work. In this case someone with no criminal record, who would commit 'two simple murders' for a very generous fee. . .

This book provides an account and analysis of the history of the Bow Street Runners, precursors of today's police force. Through a detailed analysis of a wide range of both qualitative and quantitative research data, this book provides a fresh insight into their history, arguing that the use of Bow Street personnel in provincially instigated cases was much more common than has been assumed by many historians. It also demonstrates that the range of activities carried out by Bow Street personnel whilst employed on such cases was far more complex than can be gleaned from the majority of books and articles concerning early nineteenth-century provincial policing, which often do little more than touch on the role of Bow Street. By describing the various roles and activities of the Bow Street Principal Officers with specific regard to cases originating in the provinces it also places them firmly within the wider contexts of provincial law-enforcement and policing history. The book investigates the types of case in which the 'Runners' were involved, who employed them and why, how they operated, including their interaction with local law-enforcement bodies, and how they were perceived by those who utilized their services. It also discusses the legacy of the Principal Officers with regard to subsequent developments within policing. Bow Street Police Office and its personnel have long been regarded by many historians as little more than a discrete and often inconsequential footnote to the history of policing, leading to a partial and incomplete understanding of their work. This viewpoint is challenged in this book, which argues that in several ways the utilization of Principal Officers in provincially instigated cases paved the way for important subsequent developments in policing, especially with regard to detective practices. It is also the first work to provide a clear distinction between the Principal Officers

and their less senior colleagues.

The idea of American exceptionalism has made frequent appearances in discussions of criminal justice policies--as it has in many other areas--to help portray or explain problems that are especially acute in the U.S., including mass incarceration, retention of the death penalty, racial and ethnic disparities, and the War on Drugs. While scholars do not universally agree that it is an apt or useful framework, there is no question that the U.S. is an outlier, when compared with other industrialized democracies, in its punitive and exclusionary criminal justice policies. This volume of essays deepens the debate of American exceptionalism in crime and punishment through comparative political, economic, and historical analyses, with an orientation toward forward-looking prescriptions for American law, policy, and institutions of government. The chapters expand the literature to neglected areas such as community supervision, parole release, and collateral consequences of conviction; explore claims of causation, in particular the view that the U.S. history of slavery and racial inequality has been a primary driver of crime policy; examine arguments that the framework of multiple governments and localized crime control, populist style of democracy, and laissez-faire economy are implicated in problems of both crime and punishment; and assess theories that cultural values are the most salient predictors of penal severity and violent

crime. With an outstanding list of contributors edited by a leading authority on punishment, this volume demonstrates that the largest problems of crime and justice cannot be brought into focus from the perspective of single jurisdiction, and that comparative inquiries are necessary for an understanding of the current predicament in the US.

Designed to complement "Crime and Punishment: An Introductory History" UCL Press, 1996, this sourcebook contains documents specifically selected to illuminate major issues raised in the textbook. In the first part of the book, extracts of laws and royal, local and church records from Anglo- Saxon England to the 18th century reveal changing patterns of crime and punishment. The first sociology of English crime Harman's Caveat, 1566 as well as Henry Fielding's reform proposals of the mid-eighteenth century are included and the growing use of imprisonment is reflected in the later sections.; The second part covers the 19th century. Documents range from commentaries on the day-to-day crimes of theft, drunkenness And Assault To The Sensationalism Of Garroting And Murder. Documents charting the impressive growth of the police force are included. Criminal justice is approached through the minutiae of police charge books and newspaper column's, the personal reminiscences of magistrates, the sweeping arguments of law reformers and the pleading voices of Petitioners For Mercy. Crime is one of the most significant political issues in contemporary American society. Crime control statistics and punishment policies are subjects of constant partisan debate, while the media presents sensationalized stories of criminal activity and over-crowded prisons. In the highly politicized arena of crime and justice, empirical data and reasoned analysis are often overlooked or ignored. The Handbook of Crime and Punishment, however, provides a comprehensive overview of criminal justice, criminology, and crime control policy, thus enabling a fundamental understanding of crime and punishment essential to an informed public. Expansive in its coverage, the Handbook presents materials on crime and punishment trends as well as timely policy issues. The latest research on the demography of crime (race, gender, drug use) is included and weighty current problems (organized crime, white collar crime, family violence, sex offenders, youth gangs, drug abuse policy) are examined. Processes and institutions that deal with accused and convicted criminals and techniques of punishment are also examined. While some articles emphasize American research findings and developments, others incorporate international research and offer a comparative perspective from other English-speaking countries and Western Europe. Editor Michael Tonry, a leading scholar of criminology, introduces the 28 articles in the

volume, each contributed by an expert in the field. Designed for a wide audience, The Handbook is encyclopedic in its range and depth of content, yet is written in an accessible style. The most inclusive and authoritative work on the topic to be found in one volume, this book will appeal to those interested in the study of crime and its causes, effects, trends, and institutions; those interested in the forms and philosophies of punishment; and those interested in crime control. The Handbook of Crime and Punishment is a comprehensive professional/reference work designed for those interested in the study of crime--its causes, effects, trends, and institutions; in the forms and philosophies of punishment, and in crime control. Although primarily American in its orientation, many of this book's articles are of a broader, more international nature. The Handbook is expansive in its coverage, providing the reader with information about the context, contemporary crime problems, causes of crime, methods of crime reduction, the processes and institutions that deal with accused and convicted criminals, and techniques of punishment. The book consists of 28 articles, each written by an expert in the field and including a short selected reference list, as well as a general introduction to the work written by editor Michael Tonry. The Handbook will be an indispensable reference work for academics, graduate students, and undergraduate students in criminology.

Jessie Coulson's translation provides the text for the Third Edition of this acclaimed Norton Critical Edition.

This classic, begun as a novel concerned with the psychology of a crime and the process of guilt, surpasses itself to take on the tragic force of myth.

A selection of some of the author's best-known and most provocative writings on criminal law. Although it discusses the legitimacy of criminal punishment, it proceeds on the footing that the criminal law does many important things apart from punishing people.

Eind jaren dertig staat een jonge man – aanstormende componist, toegewijde huisvader – met een ingepakt koffertje bij de lift van een flatgebouw in Leningrad. Hij wacht er de hele nacht, nachtenlang, in de overtuiging dat hij opgepakt zal worden en afgevoerd naar het Grote Huis. Geen enkele beroemdheid die hij in de afgelopen tien jaar heeft ontmoet, kan hem nu helpen. En weinig mensen die naar het Grote Huis worden afgevoerd, komen ooit terug. Aldus begint de eerste roman van Julian Barnes sinds zijn met de Man Booker Prize bekroonde *Als of het voorbij is*. Een verhaal over de botsing tussen Kunst en Macht, en de compromissen die een kunstenaar moet aangaan om zijn stempel op de wereld te drukken – dit allemaal aan de hand van de fictionele biografie van een van de grootste componisten van de twintigste eeuw, Dmitri Sjostakovitsj. 'Het tumult van de tijd' is wel Barnes' meest diepgaande werk tot nu toe, het werk van een literaire grootmeester.
