This volume contains recent and cutting-edge articles from leading criminological theorists. The book is organized into ten sections, each representing the latest in the multi-disciplinary orientations representing a cross-section of contemporary criminological theory. These sections include: 1: Classical and Rational Choice; 2: Biological and Biosocial; 3: Psychological; 4: Social Learning and Neutralization; 5: Social Control; 6: Social Ecology, Sub-cultural and Cultural; 7: Anomie and Strain; 8: Conflict and Radical; 9: Feminist and Gender; 10: Critical Criminologies: Anarchist, Postmodernist, Peacemaking. The articles were selected based on their contributions to advancing the field, including ways in which the authors of each chapter understand the current theoretical tendencies of their respective approaches and how they envision the future of their theories. Because of this, the articles focus on theory rather than empirical research. Of particular note is the tendency toward integration of different perspectives, as described by editors, Henry and Lukas, in their original introduction to this volume.

In the fourth edition of *Essential Criminology*, authors Mark M. Lanier, Stuart Henry, and Desiree M. Anastasia build upon this best-selling critical review of criminology, which has become essential reading for students of criminology in the 21st century. Designed as an alternative to overly comprehensive, lengthy, and expensive introductory texts, *Essential Criminology* is, as its title implies, a concise overview of the field. The book guides students through the various definitions of crime and the different ways crime is measured. It then covers the major theories of crime, from individual-level, classical, and rational choice to biological, psychological, social learning, social control, and interactionist perspectives. In this latest edition, the authors explore the kind of criminology that is needed for the globally interdependent twenty-first century. With cutting-edge updates, illustrative real-world examples, and new study tools for students, this text is a necessity for both undergraduate and graduate courses in criminology.

This book analyzes human rights and crime prevention challenges from the perspective of the 1948 Universal Declaration of Human Rights and the 2030 United Nations Sustainable Development Agenda, in particular its goal 16 on promoting peaceful, inclusive and just societies, the creation and development of which depend on the

interplay between various secular and non-secular (f)actors. The book reflects on the implementation of these two legal instruments from a "back to the future" standpoint, that is, drawing on the wisdom of contributors to the 2030 Agenda from the past and present in order to offer a constructive inter-disciplinary and intergenerational approach. The books intended readership includes academics and educationists, criminal justice practitioners and experts, diplomats, spiritual leaders and non-governmental actors; its goal is to encourage them to pursue a socially and human rights oriented drive for "larger freedom," which is currently jeopardized by adverse political currents.

Introduction to Criminology, Why Do They Do It?, Second Edition, by Pamela J. Schram  
Stephen G. Tibbetts, offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century. With a focus on why offenders commit crimes, this bestseller skillfully engages students with real-world cases and examples to help students explore the fundamentals of criminology. To better align with how instructors actually teach this course, coverage of violent and property crimes has been integrated into the theory chapters, so students can clearly understand the application of theory to criminal behavior. Unlike other introductory criminology textbooks, the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts, such as feminist criminology, cybercrime, hate crimes, white-collar crime, homeland security, and identity theft. Transnational comparisons regarding crime rates and the methods

other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context.

Een vernieuwende en confronterende visie op het systeem dat de onderklasse instandhoudt. Leven aan de onderkant is het relaas van een psychiater over het leven in de onderklasse en een felle aanklacht tegen de mentaliteit die mensen daarin gevangen houdt. Dalrymple werkt in een gevangenis en een ziekenhuis in een grote achterstandswijk. Hij baseert zijn analyse op de duizenden gesprekken die hij voerde met daders en slachtoffers van roof, drugsmisbruik, mishandeling en andere vormen van geweld. Het resultaat is een indringend portret van een wereld waarin relaties vluchtig en gewelddadig zijn, waarin vaders afwezig zijn, waarin zelfbeheersing en eigen verantwoordelijkheid niet of nauwelijks een rol spelen. Volgens Dalrymple wordt de onderklasse vooral instandgehouden door het waarderelativisme waarvan de westerse wereld sinds de jaren zestig van de twintigste eeuw is doortrokken. Dat komt vooral tot uiting in het goedpraten van criminaliteit door die voor te stellen als een onontkoombaar gevolg van armoede of discriminatie, maar ook in het verdacht maken van prestatiedrang in het onderwijs. Aan de onderkant van de samenleving heeft dit geleid tot een slachtoffercultuur, die verhindert dat mensen hun lot in eigen handen nemen, met alle kwalijke gevolgen van dien.

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Our Social World: Condensed inspires students to develop their sociological imaginations, to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. The award-winning author team organizes the text around the "Social World" model, a conceptual framework that demonstrates the relationships among individuals (the micro level); organizations, institutions, and subcultures (the meso level); and societies and global structures (the macro level). The use of the Social World Model across chapters (represented in a visual diagram in the chapter openers) helps students develop the practice of using three levels of analysis, and to view sociology as an integrated whole, rather than a set of discrete subjects. The Condensed version is adapted from Our Social World: Introduction to Sociology. The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by

The book describes, explains, and applies the newly formulated practice of epidemiological criminology, an emerging discipline that links methods and statistical models of public health, particularly epidemiological theory, methods,

and models, with the corresponding tools of their criminal justice counterparts. The book also applies epidemiological criminology as a practical tool to address population issues of violence and crime on a national and global basis"--Provided by publisher.
