A fast-paced contemporary romance that sizzles from the New York Times bestselling author of *Order of Protection* where passion for the law isn't the only thing heating up the courtroom. Isla Shayne knows she's in over her head. As former all-star linebacker Trey Adams's personal lawyer, she's used to handling his business dealings and private financial matters, not murder charges. She needs to find an experienced criminal attorney who speaks her client's language. David Cormack of *Garrison, Cormack and Lawless* is exactly what she needs in the courtroom--and the only man she wants in the bedroom. For David, taking on the Adams case means diving back into a world he thought he'd left behind and colliding head on with tragic possibilities he's in no mood to face. There's a reason professional football is in his past and no matter how close Isla gets to the truth he intends to leave it there. But long days working on the case together lead to hot nights in each other's arms. As their feelings grow, the case takes a deadly twist that could change the game between the two lovers forever.

How would you feel if you were convicted of a crime you did not commit? Would you lie down and do nothing? Would you accept the truth that the judicial system played out for you? Would you fight for the truth? Would you seek justice that isnt there for you? Would you do everything in your power to fight for your freedom? Or would you just allow the judicial system to tear your world apart? These are some of the things that I had to answer in my book Justice or just Us . . . You Decide. Justice or Just Us is an up close and personal account of the inadequacies of the judicial system on racial profiling. No matter what walk of life you come from, this can happen to you. It takes place in Eastbay, California in the city of Devils Bay. I was a 41yr old African American disabled woman that was wrongfully accused of a crime I did not commit. Before this happened in my life my record was clean. The charges were 2 counts of battery on a couple (man and woman). This couple befriended me, stole from me, lied about me, used me, and wanted to sue me to get money. On their last few days at living above me, they decided to put their plan into action. I walked out of my house, and was dragged into the bushes underneath the stairs at the apartments and beaten by them. As I lay there I am screaming bloody murder for they both were beating on my body, as I was begging someone to call the police, my poor black body was being brutally beaten. The Police told them to press charges against me. The Caucasian Officer said to me How dare you come into my town thinking you can beat up on my white women. At that point I knew I was in for a long hard, drug out fight of my life. In my story I will show you the evidence, the transcripts, all paperwork pertaining to this incident and bring you through the process. All I ask is to look at the evidence and decide for yourself if this was a fair verdict. From the Misrepresentation of Attorneys, to witnesses testimonies, to the unfair treatment at the hospital, to the inadequate judges in the trial and appeal process, all the way through to the sentencing and home monitoring. This book will take you through from the incident to the trial and beyond.

Exciting new developments in risk assessment and management Risk assessment and management is fundamentally founded on the knowledge available on the system or process under consideration. While this may be self-evident to the laymen, thought leaders within the risk community have come to recognize and emphasize the need to explicitly incorporate knowledge (K) in a systematic, rigorous, and transparent framework for describing and modeling risk. Featuring contributions by an international team of researchers and respected practitioners in the field, this book explores the latest developments in the ongoing effort to use risk assessment as a means for characterizing knowledge and/or lack of knowledge about a system or process of interest. By offering a fresh perspective on risk assessment and management, the book represents a significant contribution to the development of a sturdier foundation for the practice of risk assessment and for risk-informed decision making. How should K be described and evaluated in risk assessment? How can it be reflected and taken into account in formulating risk management strategies? With the help of numerous case studies and real-world examples, this book answers these and other critical questions at the heart of modern risk assessment, while identifying many practical challenges associated with this explicit framework. This book, written by international scholars and leaders in the field, and edited to make coverage both conceptually advanced and highly accessible: Offers a systematic, rigorous and transparent perspective and framework on risk assessment and management, explicitly strengthening the links between knowledge and risk Clearly and concisely introduces the key risk concepts at the foundation of risk assessment and management Features numerous cases and real-world examples, many of which focused on various engineering applications across an array of industries Knowledge of Risk Assessment and Management is a must-read for risk assessment and management professionals, as well as graduate students, researchers and educators in the field. It is also of interest to policy makers and business people who are eager to gain a better understanding of the foundations and boundaries of risk assessment, and how its outcomes should be used for decision-making.

This battle defines our conscious and unconscious lives, so that we do not know that true life is altered beyond recognition. As such, this is plenary deleterious to our existence. Yahweh for Christians will present actual history, revealing the collateral lies of wrote history. It will connect the dots to creation, Judaism, Catholicism, Christianity, Islam, Japheth, Shem, Ham, Egypt, Greco-Rome, Germany, the dark ages, the crusades, Great Britain, slavery, the world wars, our present time, and our soon coming end. Some have said that the word "scam" is too strong for a book that argues against the church's most sacred cow, but "scam" is exactly the right word because tithing has been put forth as a duty that will earn that which Christ suffered and died to freely give us. Not only is it wrong to suggest that tithing will do what Christ died to do, such as open heaven or make one right with God, but such teaching is an insult to His sacrifice and in reality, an enemy to the Cross even as circumcision was in the early church. Our ministers have been naively leading the church back under the Old Testament Law, and its curse, with imagined tithing promises that have gone way beyond even that which Malachi promised. Under the guise of "obedience, faithfulness and stewardship," we've been duped into believing we must prove ourselves without realizing that practicing the Law (tithing) blocks us from becoming sons and heirs according to Galatians 4: 5. Do you know that The book of Malachi was never intended to be instruction to the New Testament church? All the ordinances in Malachi (including tithing) were nailed to Jesus' cross, according to Colossians chapter 2? Tithing is part of the Law according to Matt. 23: 23, Malachi 3: 7, and Hebrews 7: 18? The practice of tithing, the Law, can expose you to the "curse of the Law" causing incurable sicknesses, debt, death, and many other problems, according to the Apostle Paul in Galatians 3: 10? The practice of tithing actually removes you from the state of grace and places you back the category of "sinner"? Hebrews 5: 4 Tithing causes you to "frustrate the grace of God," and causes "Christ to profit you nothing"? Galatians 2: 21 and 5: 2 Making tithing a practice today actually causes the New Testament to

become "another gospel" according to Paul in Galatians 1: 6? Order The Great Tithing Scam today and find out what else tithing will or won't do.

As Tony Blair's chief spokesman and strategist he helped guide the Labour Party to victory in three successive general elections, and he's fascinated by what it takes to win. How do sports stars excel, entrepreneurs thrive, or individuals achieve their ambition? Is their ability to win innate? Or is the winning mindset something we can all develop? Reviews I was literally blown away with this book, I could not put it down! What an excellent resource to every question you could possibly ask about this life and beyond. Well written and completely engaging I can't recommend Petra's book enough. Melissa Barry, Australia I very liked the straight forward approach. It seems that Max and his group have gone far beyond other spirit guides in transposing their knowledge into understandable human terms. In reading "Seth" stuff I continually felt that I was not grasping much of what was being presented, not so with this material. I am looking forward to Petra and Max's next books. John Kramar, Bel Air, Maryland United States The insights in the book "Life Journeys" are reassuring and comforting in an insane world. Diana Excerpt In the second edition of Life Journeys, the focus this time is more on the nonphysical universe to give you some idea of what life is about when you actually die. The choices are many, the places are unique and the possibilities are endless. This does not mean that your life on Earth is less exciting, even though, at times life on Earth seems to be hard and difficult. Nevertheless, everyone had lifetimes when living in luxury and plenty had become a very boring adventure. Yes, remember you have chosen your life for a purpose and we like to emphasise that every single human being has a purpose.

The year is 2112 and scientists are predicting that in twenty years or so an ice age will develop, that will, in all probability, be an extinction level event (ELE). Six scientists from various scientific fields come together and are able to build a spaceship that is capable of traveling faster than the speed of light. They

discover that this will allow them to travel back in time. Traveling essentially the speed of light allows them to travel forward in time. Using time travel, they go back to 2012 to try to convince people to change their ways and prevent this ELE from happening. Unfortunately, the people in that time period don't believe them and the ice age is definitely coming. The six explorers search for an earth-like planet to which they can bring a number of people. They find a suitable planet more than two million light-years from earth. Is there time to find the appropriate individuals and transport them to this new planet before ice age engulfs the entire Earth?

She lived and breathed history, but when Margaux finds herself a hundred years into the past, she knows it's more than an episode of *Deja Vu*. First it was days, then weeks, then decades. And it's getting worse the more she thinks about it. Somehow, Margaux Pennington is reliving pieces of time. When she lands in the Old West, 1881, befriended by four ex-prostitutes, she's determined to beat out Roman Shaw, owner of the opposing saloon. Two award-winning professors, a former admissions officer at a major university (now a counselor at a prestigious high school), and a gifted high school senior (now in the throes of the college admissions process himself) team up to offer you over 600 tips, techniques, and strategies to help you get in to the college of your choice. Comprehensive, yet easy-to-read, this book will teach you: How to size up the colleges you're considering—and come up with a coherent list. What are college nights, college fairs, and college rep visits—and how you can use each to your advantage. What are "holistic", "contextualized", and "legacy" admissions—and how each can work for you. How some schools count "demonstrated interest"—and how you can take advantage of this little-known fact. What are Early Decision, Early Action, and Single-Choice Early Action—and whether any is right for you. How to figure out the true costs of college, and what is the difference between "need-" and "merit-based" aid. What it means when colleges say they meet "100% of demonstrated financial aid" and what "loan-free" means. When and how to make campus visits—and what to do on each. How to prepare for each section of the ACT or SAT—and how to increase your scores. What admissions officers are looking for in your application—and how to give it to them. How to write the all-important Common App essay—and present your extra-curricular activities. How to prepare for an alumni interview—and present yourself in the best light. Whom to ask for letters-of-recommendation—and how to help them write the best possible letter. How to compare your final offers—and, in some cases, substantially improve them. When it's good to wait out the "wait list"—and when not. -and much, much more. When you understand the college admissions process, you can maximize your chance of success. Why not put yourself ahead of the pack?

From the Stone Age onwards, humans have added a personal touch to our endings with ceremonies, burials and services. And while some of these finishing touches are solemn, others can be downright bizarre - "Star Trek" creator Gene Roddenberry had his ashes blasted into space, and the Victorians were so afraid of being buried alive that they invented coffins

with spring-loaded lids and escape hatches. Keith R. Lindsay compares funeral practices from around the world - from biodegradable coffins to cringeworthy funeral music - and gives witty and practical advice on choosing our own final exits. After all, surely it's better to be prepared than finding yourself commemorated by your ex giving your eulogy and your niece playing "Candle in the Wind" on her recorder? Full of side-splitting stories and unforgivable jokes, Keith R. Lindsay really does put the fun back into funerals.

Gina Barreca is fed up with women who lean in, but don't open their mouths. In her latest collection of essays, she turns her attention to subjects like bondage which she notes now seems to come in fifty shades of grey and has been renamed Spanx. She muses on those lessons learned in Kindergarten that every woman must unlearn like not having to hold the hand of the person you're waking next to (especially if he's a bad boyfriend) or needing to have milk, cookies and a nap every day at 3:00 PM (which tends to sap one's energy not to mention what it does to one's waistline). She sounds off about all those things a woman hates to hear from a man like "Calm down" or "Next time, try buying shoes that fit". "If You Lean In, Will Men Just Look Down Your Blouse?" is about getting loud, getting love, getting ahead and getting the first draw (or the last shot). Here are tips, lessons and bold confessions about bad boyfriends at any age, about friends we love and ones we can't stand anymore, about waist size and wasted time, about panic, placebos, placentas and certain kinds of not-so adorable paternalism attached to certain kinds of politicians. The world is kept lively by loud women talking and "If You Lean In, Will Men Just Look Down Your Blouse?" cheers and challenges those voices to come together and speak up. You think she's kidding? Oh, boy, do you have another thing coming.
