Avoiding the technical jargon for which English professors are known and admired, *The Humble Essay* introduces the college essay and explains how it differs from the story, report, reflection paper, and five-paragraph trainer-essay. It then guides students through the process of educating themselves about topics and developing their own thoughtful ideas and shows them how to present their ideas with effective college essays. This down-to-earth composition textbook introduces college writing in everyday language so that non-majors are more likely to actually read these chapters, understand the ideas, and then put those ideas to good use.

How to find clarity amid the turbulence of work and life We all wish we had more time to pause and reflect about small decisions and big goals—and everything in between. But since we live and work in a vortex of tasks, meetings, decisions, and responsibilities, we rarely get the chance to step back. In this practical guide, bestselling author and Harvard Business School professor Joseph Badaracco argues that you don't need long periods of solitude and tranquility to reflect well. In fact, reflection can take place in the cracks and crevices of your very busy life, and these moments can help you understand your feelings, look at problems from different perspectives, focus on what really matters, and, ultimately, lead a better life. Building on candid interviews with over a hundred executives and professionals, as well as on the classic works of Marcus Aurelius, Michel de Montaigne, and Ignatius of Loyola, Badaracco offers simple, customizable principles and ideas for reflection that lend a gentle discipline to an otherwise nebulous process. Concise, smart, and pragmatic, *Step Back* is the guide you need to make reflection a positive force in your work and life.

This *Festschrift* honours the Dutch Latinist Ben Hijmans. Besides his studies on Seneca philosophus and Ovid, Hijmans published numerous articles on Apuleius' works, both that author's philosophical and rhetorical oeuvre, and his novel, *The Golden Ass* or *Metamorphoses*. In 1973 he initiated the research project *Groningen Commentaries on Apuleius*, and until his retirement he was editor-in-chief of the series of commentaries issued from that research project. This collection of essays contains a number of important new and original articles on Apuleius' *Metamorphoses* (by Ken Dowden, Roger Beck, Ellen Finkelppearl, Maeve O'Brien), on the reception of the Latin novel (Harrison), and on Apuleius' rhetorical work (Vincent Hunink). The book presents original research on Ovid's *Metamorphoses* (Paula James) and its reception (Van der Paardt). Other contributions testify to the broader interests of Ben Hijmans and deal with general cultural aspects (Jan Pieter Guepin), art history (Henk van Os, Marietje d'Hane), or with the art of translating (John Gahan, Hero Hokwerda), with archaeology and iconography (Roman gems: Marianne Kleibrink; opus sectile panels at Kenchreai: Hector Williams). There is an impressive article on the religious and iconographic backgrounds of Horace's *carmen saeculare* (Steven Hijmans). Ben Hijmans' fascination with, and insight in mythical motifs is reflected not only in Paula James's and Van der Paardt's articles (on Pyramus and Thisbe and Actaeon respectively), but also in contributions by Rory Egan (Narcissus) and Danielle van Mal-Maeder (on Seneca's mythical tragedies and their transformation in Roman

In *On Reflection*, Ellen Rose seeks to initiate a much-needed discussion about what reflection is and should be. The word crops up repeatedly in the discourse of teaching and learning, but its meaning is often vague. True reflection--deep, sustained thought that takes place in conditions of solitude and silence--has been undermined by new technologies that speed up the flow of information and the pace of life, as well as by contemporary schooling that unreflectively embraces technological and market imperatives in the name of outcomes, efficiencies, and the preparation of a global workforce. Drawing on a wide range of thinkers, past and present, Rose outlines the important role reflective thought can play in the classroom and in the world at large, and makes a powerful case for slowing down and returning to our thoughts.

These essays from one of our most stimulating thinkers showcase Tallis's infectious fascination, indeed intoxication, with the infinite complexity of human lives and the human condition. In the title essay, we join Tallis on a stroll around his local park - and the intricate passages of his own consciousness - as he uses the motif of the walk, the amble, to occasion a series of meditations on the freedoms that only human beings possess. In subsequent essays, the flaneur thinks about his brain, his relationship to the rest of the animal kingdom, his profession of medicine and about the physical world and the claims of physical science to have rendered philosophical reflection obsolete. Taken together the essays continue Tallis's mission to elaborate a vision of humanity that rejects religious myths while not succumbing to scientism or any other form of naturalism. Written with the author's customary intellectual energy and vigour these essays provoke, move and challenge us to think differently about who we are and our place in the material world.

This collection of essays by the author of *Lady Chatterley's Lover* presents his musings on literature, politics and philosophy in a newly restored text. Though D. H. Lawrence was one of the great writers of the twentieth century, his works were severely corrupted by the stringent house-styling of printers and the intrusive editing of timid publishers. A team of scholars at Cambridge University Press has worked for more than thirty years to restore the definitive texts of D. H. Lawrence in *The Cambridge Editions*. Between 1915–1925, D. H. Lawrence wrote a series of "philosophicalish" essays covering topics ranging from politics to nature, and from religion to education. Varying in tone from lighthearted humor to spiritual meditation, they all share the underlying themes of Lawrence's mature work: "Be thyself." As far as possible, the editors of the *Cambridge Editions* series have restored these essays to their original form as Lawrence wrote them. A discussion of the history of each essay is provided, and several incomplete and unpublished essays are reproduced in an appendix.

The Oxford Handbook of English Prose 1500-1640 is the only current overview of early modern English prose writing. The aim of the volume is to make prose more visible as a subject and as a mode of writing. It covers a vast range of material vital for the understanding of the period: from jestbooks, newsbooks, and popular romance to the translation of the classics and the pioneering collections of scientific writing and travel writing; from diaries, tracts on witchcraft, and domestic conduct books to rhetorical treatises designed for a courtly audience; from little known works such as William Baldwin's *Beware the Cat*, probably the first novel in English, to *The Bible*, *The Book of Common Prayer* and Richard Hooker's eloquent statement of Anglican belief, *The Laws of Ecclesiastical Polity*. The work not only deals with the range and variety of the substance and types of English prose, but also analyses the forms and styles of writing adopted in the early modern period, ranging from the Euphuistic nature of prose fiction inaugurated by John Lyly's mannered novel, to the aggressive polemic of the Marprelate controversy; from the scatological humour of comic writing to the careful modulations of the most significant sermons of the age; and from the pithy and concise English essays of Francis Bacon to the ornate and meandering style of John Florio's translation of Montaigne's famous collection. Each essay provides an overview as well as comment on key passages, and a select guide to further reading.
