from overeating and being bored with my life. I was at a point where I didn't even want to get out of bed. So I started looking for things to do to be active that I enjoyed.

This booklet describes techniques classroom teachers can use to do three things to ameliorate behavior for children with ADHD: 1) revise the environment to set the student up for success, 2) replace the behavior, by teaching an alternative behavior that is socially acceptable, and 3) reframing the response, so the behavior is not fed by the behavior of the adult. We call this the Three R's which are based on the Three T's. The three T's are 1) Trigger (what sets the behavior in motion, 2) Target (what behavior are you wanting to target for change in measurable and observable terms, and 3) impactT (what is the student trying to gain or escape by having this behavior?) So the three T's (Trigger, Target, impactT) form the basis for the three R's (Revise, Replace, Reframe). It's simple and Dr. Riffel's presentation that coincides with this book is color coded to help you remember which of the sections you are addressing with each intervention.

- Easy-to-use patterns
- All original designs
- Christmas and Hanukkah
- Valentine's Day, Easter, patriotic holidays, Halloween, Thanksgiving, and more
- Zodiac signs and flowers of the 12 months for birthdays

This book focuses on reinforcers (non-tangible) you can use with students within the classroom setting or a whole school setting. They can be used at the universal, targeted, or tertiary levels. This is a workbook designed to help educators look at the Triple T of a summary statement (Trigger-Target-impactT) and then build a plan based on the function of the behavior. We use the Triple R to build a multi-modal plan. We need to Revise the environment, Replace the behavior, and Reframe the response.

This book is designed to help teachers develop three strands of reinforcement in classroom management. Support, Interventions, and Reinforcement will be addressed in ways that help classroom teachers braid behavioral techniques into their strategies. The book will focus on environmental changes, replacement behavior teaching, and impacting our reactions as educators so that we feed the replacement behavior and extinguish the target behavior.

"This presentation is an encore production of Duct Tape in Not a Behavioral Intervention (Lulu.com, 2014), which was designed to help first year teachers and those who want to start anew. This book takes the next step and helps users know how to deal with and eradicate disruptions in the classroom." -- Page [4] of cover.
