Written in 1989 when the modern tourist industry had reached a crucial stage in its development, when increased mobility and affluence had led to more extensive and extravagant travel, and competition within the industry had intensified, this book is comprehensive examination of tourism development. The author provides a new perspective for its evaluation, and a suggested strategy for its continued development and evolution. He examines tourism from the viewpoint of destination areas and their aspirations, and recommends an ecological, community approach to developing and planning – one which encourages local initiative, local benefits, and a tourism product in harmony with the local environment and its people.

In 1945, President Harry Truman decorated George Wahlen with the Medal of Honor to recognize his bravery on Iwo Jima. Wahlen's medal citation reads like a rejected John Wayne movie script too grand to be believed. Those who witnessed his heroics remain dumbfounded he survived. For over 60 years, he has been the quintessential quiet hero. After decades of silence, Bob Dole (foreword) and Senator Orrin Hatch (introduction) help tell this incredible untold story.

"Addressing the ongoing quest for teaching excellence in an increasingly technological society, the information presented in this volume addresses how to effectively implement teaching technologies across disciplinary boundaries. The scholarly dimensions of belief, inquiry, argument, and reflection in information systems are presented with attention to educational theories of metacognition, technology literacy, and community informatics. Training for e-business and public agency work are discussed to better equip instructors for the distinctive information needs of these sectors."

Much misunderstood, Mormonism had a colorful beginning in the 19th century, as a visionary named Joseph Smith founded and built a community of believers with their own unique faith. In the late-20th century, the church had to come to terms with its own growth and organization, as well as with the increasing pervasiveness of globalization, secularization, and cultural changes. Today Mormonism is one of the major religions in America, and continues to grow internationally. However, though the church itself remains strong, it is elusive to those of other faiths. Here, a seasoned author and third-generation Mormon sheds light on the everyday lives and practices of faithful Mormons. Bushman's readers will come away with a more thorough appreciation of what it means to be Mormon in the modern world. Much misunderstood, Mormonism had a colorful beginning in the 19th century, as a visionary named Joseph Smith founded and built a community of believers with their own unique faith. In the late-20th century, the church had to come to terms with its own growth and organization, as well as with the increasing pervasiveness of globalization, secularization, and cultural changes. Today Mormonism is one of the major religions in America, and one that continues to grow internationally. However, though the church itself remains strong, it is elusive to those of other faiths. Here, a seasoned author and third-generation Mormon sheds light on the everyday lives and practices of faithful Mormons. Bushman's readers will come away with a more thorough appreciation of what it means to be Mormon in the modern world. Following Brigham Young into the Great Basin and founding communities that have endured for over 100 years, Mormons have forged a rich history in this country even as

they built communities around the world. But the origins of this faith and those who adhere to it remain mysterious to many in the United States. Bushman allows readers a vivid glimpse into the lives of Mormons—their beliefs, rituals, and practices, as well as their views on race, ethnicity, social class, gender, and sexual orientation. The voices of actual Mormons reveal much about their inspiration, devotion, patriotism, individualism, and conservatism. With its mythical history and unlikely success, many wonder what has made this religion endure through the years. Here, readers will find answers to their questions about what it means to be Mormon in contemporary America.

From a rare insider's point of view, *Unveiling Grace* looks at how Latter-day Saints are “wooing our country” with their religion, lifestyle, and culture. It is also a gripping story of how an entire family, deeply enmeshed in Mormonism, found their way out and what they can tell others about their lives as faithful Mormons.

Microfranchising offers a thorough-going and impartial analysis of microfranchising, covering both practice and theory. . . The tome's well documented chapters provide an objective overview of the various aspects of microfranchising and outline its main characteristics. . . This book should be read by all those involved in, or concerned by, the fight against poverty who are looking for a complete overview of microfranchising. The various actors of the entrepreneurial world will also find much in the volume of interest to them. . . Academics will find well documented sources, complete with operational examples, which will help them to present action projects to their students. Microfranchising and, more generally, micro-entrepreneurship, represent a vast field of research that will be of great interest to scholars working in the field of entrepreneurship. Fairbourne, Gibson and Dyer's book not only offers a valuable introduction to micro-entrepreneurship, but demonstrates the human side of entrepreneurship as a whole. Frédéric Demerens, *Entrepreneurship and Innovation Microfranchising* has clues and cautions to help create wealth and lift humanity from poverty by energizing communities, families and individuals to profit-making productivity in cooperation with guidance, education, and other resources from established businesses, financial institutions and philanthropists. Anyone interested in shrinking the bottom of the world's income and wealth pyramid to create real widespread sustainability and all the consequent social and health benefits should read this book. Joseph H. Astrachan, Kennesaw State University, US What do buying honey, renting mobile phones and fitting prescription glasses have in common? Answer: they are all activities that have expanded in low-income countries through microfranchising. This book brings together the ideas of researchers and social entrepreneurs at the heart of a movement to turn microfranchising into a mechanism for sustainable poverty reduction on a scale to match microfinance. A seductive mix of advocacy and realism, analysis and case-study provides readers with the ingredients to make up their own mind about the potential of microfranchising as a development tool. James G. Copestake, University of Bath, UK Poverty remains one of the most intractable problems in the developing world. Microfranchising offers great promise in alleviating poverty by aiding in the foundation of locally owned businesses. Microfranchising is defined as small businesses whose start-up costs are minimal and whose concepts and operations are easily replicated. It involves the systematizing of microenterprises to create and replicate turnkey businesses for the poor. With the awarding of the 2006 Nobel Peace Prize,

attention has increased on this remarkable concept. This unique book provides an overview of the need to alleviate poverty and what methods have been used in the past to do so (e.g. microcredit). It then introduces the concept of the microfranchise and discusses how this business model can be used in poverty alleviation. Different models of microfranchising are reviewed and specific case studies highlighted to show how it has worked in different parts of the world. The book concludes with a discussion of the advantages as well as the potential problems and pitfalls that accompany microfranchising. This book is a must read for business scholars and economists, practitioners and lenders, members of NGOs dedicated to poverty alleviation and anyone else who is interested in learning about an innovative, business focused tool to alleviate poverty.

Creating Research Infrastructures in the 21st-Century Academic Library focuses on research infrastructures with topics such as research and development in libraries, datasets, e-science, grants and grant writing, digital scholarship, data management, library as publisher, metadata, web archiving, and the research lifecycle.

A guide to the nation's colleges publishes extensive surveys--all written by current or past students--from over three hundred educational institutions, covering admission, academics, quality of life, social life, and employment prospects.

Clearing up many of the misconceptions held about Mormonism and its members, the third edition of the Historical Dictionary of Mormonism expands on the second edition and includes hundreds of cross-referenced dictionary entries on crucial persons, organizations, churches, beliefs, and events.

Mormonism is the unofficial name for The Church of Jesus Christ of Latter-Day Saints, which originated in the early 1800s. Mormonism refers to the doctrines taught by Joseph Smith, doctrines that are believed to be original gospel preached by Jesus Christ. The Mormons oppose abortion, homosexuality, unmarried sexual acts, pornography, gambling, tobacco, consuming alcohol, tea, coffee, and the use of drugs. Despite its relatively young age, the Mormon Church continues to grow, and today it contains about 13 million members. The A to Z of Mormonism relates the history of the Mormon church through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on crucial persons, organizations, churches, beliefs, and events. Clearing up many of the misconceptions held about Mormonism and its members, this is an essential reference.

The directory lists and describes university programs for teachers of English to speakers of other Languages (TESOL) at the undergraduate and graduate levels in the United States and Canada. Lists are presented by country, and within country, alphabetically by the name of the offering institution. There are 194 U.S. institutions listed, offering over 300 programs, and 19 Canadian institutions offering 33 programs are listed. For each state or province, State/provincial certification requirements are outlined and a contact address provided. For each country, indexes refer the reader to doctoral, master's graduate certificate, undergraduate, and TEFL certificate programs and programs leading to a state or

provincial credential in TESOL. Appended materials include a list of acronyms, geographic index, and index to institutions. (MSE)

Focuses primarily on the years of McKay's presidency of the Church of Jesus Christ of Latter-day Saints during some of the most turbulent times in American and world history.

As the only American in the senior management team of the 2008 Beijing Summer Olympic Games, Jeff Ruffolo takes you behind the scenes and into a world no one has ever before witnessed. This remarkable, first-person account of the Beijing Summer Olympic Games is a riveting narrative taking you inside the greatest Olympics ever! This true story recounts the author's effort to perfect the broadcasting of NCAA Volleyball on the fledgling Internet and commercial radio stations throughout the Western USA and how he parlayed that experience into becoming America's voice of Olympic Volleyball at the 1996 Atlanta, 2000 Sydney and 2004 Athens Summer Olympics and then finally securing a position with the Beijing Olympic Organizing Committee. Follow the author as he maneuvers alone through uncharted and perilous waters in The People's Republic of China to become the Senior Expert of the Beijing Olympic Organizing Committee and the personal challenges he faced as the 2008 Beijing Olympic Media Center managed one global media crisis after another. Be captivated by this fascinating tale of political intrigue, mystery and magic as you too will be transported ... Inside the Beijing Olympics.

This bibliography is a compilation of 15 short bibliographies published in an issue of the Journal of Second Language Writing from January 1993 to September 1997. The work focuses on theoretically grounded research reports and essays addressing issues in second and foreign language writing and writing instruction, containing 676 entries, each including a 50+ word summary intended to be non-evaluative in nature. The editors hope that this work will be a useful tool for developing theory, research, and instruction in second language writing.

The Innovative University illustrates how higher education can respond to the forces of disruptive innovation , and offers a nuanced and hopeful analysis of where the traditional university and its traditions have come from and how it needs to change for the future. Through an examination of Harvard and BYU-Idaho as well as other stories of innovation in higher education, Clayton Christensen and Henry Eyring decipher how universities can find innovative, less costly ways of performing their uniquely valuable functions. Offers new ways forward to deal with curriculum, faculty issues, enrollment, retention, graduation rates, campus facility usage, and a host of other urgent issues in higher education Discusses a strategic model to ensure economic vitality at the traditional university Contains novel insights into the kind of change that is necessary to move institutions of higher education forward in innovative ways This book uncovers how the traditional university survives by breaking with tradition, but thrives by building on what it's done best.

Traces the history of Hawaiian sports and lists local records

Offers a state-by-state directory of oral history collections and includes information on collection size, conditions of access, purpose, and access aids

The fourth edition of Historical Dictionary of the Latter-day Saints contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on the important people, ideas, doctrine, and events during the 190 year history of The Church of Jesus Christ of Latter-day Saints.

Church History Study Guide, Pt. 3: Latter-Day Prophets Since 1844. This volume is the third of three on Church History and the Doctrine and Covenants. It covers Church history during the administration of all of its Prophet-Prophets since

Joseph Smith. It begins with the succession of the Apostles after Joseph Smith's martyrdom, the building of the Nauvoo Temple, and the trek to the west of the Latter-day Saint pioneers. We follow them through Iowa, Winter Quarters, and on to Utah. We witness the colonization of the state of Deseret, while the rest of the country suffered from Civil War. Then we follow events through the administrations of all of the 19th-Century, 20th-Century, and 21st-Century prophets from John Taylor to Thomas S. Monson. We become familiar with the early lives, missions, marriages, and callings of each of these prophets, seeing how the Lord prepared them for the particular time that they led the Church. We finish with a look toward the future as we await the Second Coming of our Lord. The cover features a beautiful photograph of the Salt Lake Temple, taken at dusk during the Christmas season from the roof of the Joseph Smith Memorial Building.

This is volume 26 of *Interpreter: A Journal of Mormon Scripture* published by The Interpreter Foundation. It contains articles on a variety of topics including: "The Power is In Them," "A Lengthening Shadow: Is Quality of Thought Deteriorating in LDS Scholarly Discourse Regarding Prophets and Revelation? Part One," "A Lengthening Shadow: Is Quality of Thought Deteriorating in LDS Scholarly Discourse Regarding Prophets and Revelation? Part Two," "A Lengthening Shadow: Is Quality of Thought Deteriorating in LDS Scholarly Discourse Regarding Prophets and Revelation? Part Three," "Consecration Brings Forth Zion, Not Just Disaster Relief: An Examination of Scholarly and Prophetic Statements on the Law of Consecration," "The Next Big Thing in LDS Apologetics: Strong Semitic and Egyptian Elements in Uto-Aztecan Languages," "Lehi's Dream and the Garden of Eden," and "On Doctrine and Covenants Language and the 1833 Plot of Zion."

First published in 2003. Routledge is an imprint of Taylor & Francis, an informa company.

This handbook explores contemporary Mormonism within a global context. The authors provide a nuanced picture of a historically American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today. They explain where and how the Church of Jesus Christ of Latter-day Saints has penetrated national and cultural boundaries in Latin America, Oceania, Europe, Asia, and Africa, as well as in North America beyond the borders of Mormon Utah. They also address numerous concerns within a multinational, multicultural church: What does it mean to be a Latter-day Saint in different world regions? What is the faith's appeal to converts in these places? What are the peculiar problems for members who must manage Mormon identities in conjunction with their different national, cultural, and ethnic identities? How are leaders dealing with such issues as the status of women in a patriarchal church, the treatment of LGBTQ members, increasing disaffiliation of young people, and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa?

Winner of the Best Anthology Book Award from the John Whitmer Historical Association Winner of the Special Award for

Scholarly Publishing from the Association for Mormon Letters Scholarly interest in Mormon theology, history, texts, and practices--what makes up the field now known as Mormon studies--has reached unprecedented levels, making it one of the fastest-growing subfields in religious studies. In this volume, Terryl Givens and Philip Barlow, two leading scholars of Mormonism, have brought together 45 of the top experts in the field to construct a collection of essays that offers a comprehensive overview of scholarship on Mormons. The book begins with a section on Mormon history, perhaps the most well-developed area of Mormon studies. Chapters in this section deal with questions ranging from how Mormon history is studied in the university to the role women have played over time. Other sections examine revelation and scripture, church structure and practice, theology, society, and culture. The final two sections look at Mormonism in a larger context. The authors examine Mormon expansion across the globe--focusing on Mormonism in Latin America, the Pacific, Europe, and Asia--in addition to the interaction between Mormonism and other social systems, such as law, politics, and other faiths. Bringing together an impressive body of scholarship, this volume reveals the vast range of disciplines and subjects where Mormonism continues to play a significant role in the academic conversation. The Oxford Handbook of Mormonism will be an invaluable resource for those within the field, as well as for people studying the broader, ever-changing American religious landscape.

Winner of the Best Anthology Award from John Whitmer Historical Association Latter-day Saints have a paradoxical relationship to the past; even as they invest their own history with sacred meaning, celebrating the restoration of ancient truths and the fulfillment of biblical prophecies, they repudiate the eighteen centuries of Christianity that preceded the founding of their church as apostate distortions of the truth. Since the early days of Mormonism, Latter-day Saints have used the paradigm of apostasy and restoration in their narratives about the origin of their church. This has generated a powerful and enduring binary of categorization that has profoundly impacted Mormon self-perception and relations with others. *Standing Apart* explores how the idea of apostasy has functioned as a category to mark, define, and set apart "the other" in Mormon historical consciousness and in the construction of Mormon narrative identity. The volume's fifteen contributors trace the development of LDS narratives of apostasy within the context of both Mormon history and American Protestant historiography. They suggest ways in which these narratives might be reformulated to engage with the past, as well as offering new models for interfaith relations. This volume provides a novel approach for understanding and resolving some of the challenges faced by the LDS church in the twenty-first century.

A guide to the nation's colleges publishes extensive surveys from three hundred educational institutions, covering college essays, interviews, SAT's, academic workloads, housing, fraternities, campus facilities, and other details.

The life of Edward Hunter Snow (1865–1932), a leader in second-generation Mormon Utah, closely paralleled the early-twentieth-

century development of the West. Born in St. George, Utah, to Julia Spencer and Mormon apostle Erastus Snow, Edward Hunter Snow was instrumental both in the development of southern Utah and in the growth of the Church of Jesus Christ of Latter-day Saints during a period of rapid change. In *Edward Hunter Snow*, the first biography of the man, noted western and Mormon historian Thomas G. Alexander presents Snow as a servant of family, church, state, and nation. Offering insights into the LDS Church around the turn of the twentieth century, Alexander narrates the events of Snow's missions to the American South, including encounters with the Ku Klux Klan in the 1880s, and to New York. As president of the St. George Stake and church leader, Snow sought to reshape the LDS Church's place in Utah—confining its influence to religious and cultural practices and avoiding politics. Although he was involved in numerous causes throughout his life, Snow was especially dedicated to education. A graduate of what is now Brigham Young University, he worked to ensure that the state's children would have access to quality education. Snow founded what is now Dixie State College and, as a state senator, introduced legislation to establish what is now Southern Utah University. As the nineteenth century gave way to the twentieth, Snow helped St. George grow from an isolated cotton colony to an important stop on the main automobile route from Salt Lake City to Los Angeles. Alexander shows that rugged, southwestern Utah's flowering into cultural and commercial maturity was due to the foresight and dedication of second-generation pioneers like Edward Hunter Snow.

Siting Culture will be essential reading to the many students of culture who are looking for ways of siting culture in the diffuse and complex theoretical space of present day anthropology.

A home reference guide to key terms in Mormon culture. A one-volume compendium of Mormon culture, this handy reference book covers key doctrinal terms, beliefs, ordinances, church history and growth, and more. You'll find extensive entries on the prophets and personalities from all four standard works accepted by the church, and many interesting anecdotes and facts on a wide array of topics. Teens and adults will appreciate the fresh, innovative approach this encyclopedia takes as it culls the vast sea of LDS information available into a manageable book suitable for the whole family.
