A gifted child's comprehension, critical-thinking ability, and interests can range far beyond his or her current grade level. This workbook caters to that unique capacity. It contains almost two hundred pages of math activities carefully calibrated for your advanced student. Avoiding practice drill pages in favor of logic-based activities provides kids with a chance to grow and challenge themselves beyond the work they do in the regular classroom. The advanced content is rich in problem solving and develops critical and creative thinking. The varied activities encourage your gifted learner to experience learning at an accelerated level. Each Math for the Gifted Student workbook features: Activities designed to encourage independent thinking and stimulate creativity Logic-based activities aligned to national math standards Full-color illustrations and diagrams that bring concepts to life Perforated pages for on-the-go practice

Go Math! offers an engaging and interactive approach to covering the Common Core State Standards. This Grade 2 student edition is organized into individual chapter booklets and comes with a student resource book.
