Showcasing the work of more than 200 women writers of African descent, this major international collection celebrates their contributions to literature and international culture. Twenty-five years ago, Margaret Busby's groundbreaking anthology *Daughters of Africa* illuminated the "silent, forgotten, underrated voices of black women" (*Washington Post*). Published to international acclaim, it was hailed as "an extraordinary body of achievement...a vital document of lost history" (*Sunday Times*). *New Daughters of Africa* continues that mission for a new generation, bringing together a selection of overlooked artists of the past with fresh and vibrant voices that have emerged from across the globe in the past two decades, from Antigua to Zimbabwe and Angola to the USA. Key figures join popular contemporaries in paying tribute to the heritage that unites them. Each of the pieces in this remarkable collection demonstrates an uplifting sense of sisterhood, honours the strong links that endure from generation to generation, and addresses the common obstacles women writers of colour face as they negotiate issues of race, gender and class, and confront vital matters of independence, freedom and oppression. Custom, tradition, friendships, sisterhood, romance, sexuality, intersectional feminism, the politics of gender, race, and identity—all and more are explored in this glorious collection of work from over 200 writers. *New Daughters of Africa* spans a wealth of genres—autobiography, memoir, oral history, letters, diaries, short stories, novels, poetry, drama, humour, politics, journalism, essays and speeches—to demonstrate the diversity and remarkable literary achievements of black women who remain under-represented, and whose works continue to be under-rated, in world culture today. Featuring women across the diaspora, *New Daughters of Africa* illuminates the richness and cultural history of this original continent and its enduring influence, while reflecting our own lives and issues today. Bold and insightful, brilliant in its intimacy and universality, this essential volume honours the talents of African daughters and the inspiring legacy that connects them—and all of us.

This book examines performances in the American film industry's highest-earning and most influential films. Countering decades of discourse and the conventional notion that special effects are the real stars of Hollywood blockbusters, this book finds that the acting performances in these big-budget action movies are actually better, and more genre-appropriate, than reputed. It argues that while blockbusters are often edited for speed, thrills, and simplicity, and performances are sometimes tailored to this style, most major productions feature more scenes of stage-like acting than hyper-kinetic action. Knowing this, producers of the world's highest-budgeted motion pictures usually cast strong or generically appropriate actors. With chapters offering unique readings of some of cinema's biggest hits, such as *The Dark Knight*, *Pirates of the Caribbean*, *Star Wars*, *Iron Man* and *The Hunger Games*, this unprecedented study sheds new light on the importance of performance in the Hollywood blockbuster.
