Dissertations can be the most rewarding, and for some the most stressful, part of any undergraduate degree course,

providing the opportunity for students to pursue a chosen subject in some depth, developing their expertise. The dissertation offers many challenges to those seeking to do it well and this guide is the perfect book for those seeking to succeed with their dissertation. Judith Burnett helps students to rise to this challenge, making the most of the opportunities which a dissertation offers and overcoming the obstacles to successful completion. This book takes students through the process of doing a dissertation from turning the raw ideas into a research question, designing the research project, choosing appropriate methods, developing a research proposal, planning and executing the project, working with data, writing up, and preparing the work for presentation. *Doing A Dissertation in the Social Sciences* is an invaluable guide to avoiding the pitfalls and making the most of the opportunities offered by the dissertation. It ought to be compulsory reading for undergraduate students in any social science discipline. SAGE Study Skills are essential study guides for students of all levels. From how to write great essays and succeeding at university, to writing your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills website for tips, quizzes and videos on study success!

Complex presentation will be possible once this guide is studied. Not only does it cover all aspects required by the ECDL/ICDL Advanced AM6 syllabus, but could also be used by those familiar with PowerPoint but wishing to further their knowledge. Topics include inserting and editing various types of image, as well as adding sounds and movies. Data files are supplied which allow you to practise the different features. Approved by the ECDL Foundation

Continual technological evolution has led to an explosion of new techniques in Human-Computer Interaction (HCI) research. *Research Methods in Human-Computer Interaction* is a thoroughly comprehensive guide to performing research and is essential reading for both quantitative and qualitative methods. Chapters cover a broad range of topics relevant to the collection and analysis of HCI data, going beyond experimental design and surveys, to cover ethnography, time diaries, physiological measurements, case studies, and other essential elements in the well-informed HCI researcher's toolkit. "This book is a must read for anyone in the field of Human-Computer Interaction. The multi-disciplinarian approach, housed in the reality of the technological world today, makes for a practical and informative guide for user interface designers, software and hardware engineers and anyone doing user research." Dr. Mary Czerwinski, Research Area Manager, Microsoft Research, USA "Research Methods in HCI is an excellent read for practitioners and students alike. It discusses all the must-know theory, provides detailed instructions on how to carry out the research, and offers great examples. I loved it!" Professor Vanessa Evers, Professor, Human Computer Studies Lab, University of Amsterdam, the Netherlands "The book is superb: comprehensive, clear, and engaging! This is a one-stop HCI methods reference library. If you can only buy one HCI methods book, this is the one!" Dr. Clare-Marie Karat, IBM TJ Watson

Brilliant ECDL is the complete fully-accredited guide to passing the ECDL 4.0 examination for self-learners. With close to a million people in the UK alone studying the ECDL syllabus, the benefits of this easy-to-use guide are endless. The ECDL (European Computer Driving Licence) is an internationally-recognised, objective, standardised, and certificate of end-user computing skills. To qualify for the licence, candidates have to pass seven tests of PC knowledge and skill in the common business applications (wordprocessing, database, spreadsheets, presentations and the Internet). With ECDL registrations in the UK increasing monthly, the qualification is becoming more widely recognised as a desirable and mandatory certification of basic entry-level computing, IT skills and knowledge. With this rise in validation, more and more individuals are becoming aware of the need to gain the

qualification for themselves, rather than as part of a company training plan or initiative. Traditional training guides can be unwieldy and make it hard to get the information you need right away. Brilliant ECDL allows you to find the information you need easily and with minimal fuss, guiding you through each task using a visual step-by-step approach. Fully-updated to cover all 7 modules of the ECDL 4.0 Syllabus using the most popular business software, Microsoft Windows XP, Microsoft Office XP, and Internet Explorer 6, Brilliant ECDL is the perfect solution to all ECDL students' needs.

How to pass ECDL® for Microsoft® Office 2003 Paul Holden and Brendan Munnely How to Pass ECDL for Office 2003 has been written and designed to help you to study for the ECDL, to remember what you have learned - and to pass the exams with confidence! Fully covering the latest version of the ECDL syllabus - ECDL4 - using the most popular and commonly-used PC software (Microsoft Windows XP®; Office 2003; and Internet Explorer 6), How to Pass ECDL provides everything you need to understand and apply the subjects covered by the syllabus, and introduces many new features intended to make your studies more accessible and successful, including: Two-colour layout makes it easy to follow each lesson and find your way around each module Four-colour "cut-out-and-keep" guides for each module to help your revision Learning goals explain exactly what you will be covering in each module New terms explained by subject area help you get to grips with unfamiliar terminology Example-based workbook approach guides you through new topics by practising as you go Tips boxes give you additional practical insider knowledge Clear screenshots illustrate each feature covered and help build your understanding The European Computer Driving Licence® (ECDL) is THE internationally recognised qualification that will allow you to demonstrate your competence in computer skills. Employers are increasingly relying on the ECDL to improve the skills of their workforce and to recruit computer-literate staff. The main benefits of the ECDL to you as an individual are that it: Raises your level of competence in IT and computer skills Improves your productivity at home and work Requires no prior knowledge of IT or computer skills Provides you with an industry-recognised qualification Everything you need to know to demonstrate your competence in computer skills and pass the ECDL tests, all in one book! Visit us on the web at www.pearson-books.com.

There has never been an ECDL/ICDL Guide like this. 100 Success Secrets is not about the ins and outs of ECDL/ICDL. Instead, it answers the top 100 questions that we are asked and those we come across in forums, our consultancy and education programs. It tells you exactly how to deal with those questions, with tips that have never before been offered in print. This book is also not about ECDL/ICDL's best practice and standards details. Instead, it introduces everything you want to know to be successful with ECDL/ICDL. This ECDL/ICDL book is designed to assist people at work, home or in study, establish Certification in ICDL/ECDL, a recognised standard for everyone who uses a computer in a professional or personal capacity. Individuals can choose how they wish to study for the tests - through TAFE, privately-run courses or self-study. ECDL/ICDL certification informs current and prospective employers that you possess competency in fundamental IT skills. Most importantly, you will gain self-confidence from knowing you can use a PC and a variety of standard computer software applications. Benefits of ECDL/ICDL Certification are: Increase your confidence to participate in the global digital society, Improve the quality of your life by gaining a better working knowledge of computers, Increase your value in the workplace by possessing a valuable credential, Establish a solid range of basic computer skills on which to increase your computer literacy.

The European Computer Driving Licence (ECDL) is a European-wide qualification that enables you to demonstrate your competence in computer skills. It covers a range of specific knowledge areas and skill sets, broken down into seven modules. It is becoming the most widely recognised qualification, in the UK and Europe, for work-related computer use. Springer's study guides have been designed to complement the ECDL syllabus. Each study guide contains a set of clearly defined objectives that directly relate to the syllabus, and takes you through all the knowledge areas and skills required to understand and pass the corresponding module of the ECDL syllabus. Written in clear, jargon-free language with self-paced exercises and review questions throughout, these books will provide you with an understanding of all the key elements which will prepare you for the ECDL tests. The seven study guides are: Module 1: Basic Concepts of Information Technology (ISBN 1-85233-442-8) Module 2: Using the Computer & Managing Files (ISBN 1-85233-443-6) Module 3: Word Processing (ISBN 1-85233-444-4) Module 4: Spreadsheets (ISBN 1-85233-445-2) Module 5: Database (ISBN 1-85233-446-0) Module 6: Presentation (ISBN 1-85233-447-9) Module 7: Information & Communication (ISBN 1-85233-448-7) The study guides are also available separately.
