

## Janes All The Worlds Aircraft 1975 76 Saosey

Provides technical details of manned civil and military aircraft in development or production around the world. This book delivers a comprehensive view of civil and military manned air platforms in development, providing A&D businesses with the market intelligence that drives business development, strategy and product development activity. Jane's All the World's Aircraft sets the standard in aviation reference, providing exhaustive technical detail on over 950 civil and military aircraft currently being produced or under development by more than 550 companies. Complete with photographs and line drawings to aid recognition and comparison, this authoritative resource provides you with the ability to evaluate competitors, identify. Each entry enables you to check key specifications for any aircraft including dimensions, performance, structure, landing gear, power plants, and armaments. Plus, with details of the world's aircraft manufacturers and their programmes, you can identify key contracts and customers. Recommended companion resources include Jane's Aircraft Upgrades for aircraft modernisation programmes and Jane's Helicopter Markets and Systems for full industry, operator and manufacturer coverage. CD and online versions are also available.

Sets the standard in aviation reference. It provides exhaustive technical detail on over 1,000 civil and military aircraft currently being produced or under development by more than 560 companies. In addition, there are details of the world's aircraft manufacturers and their programmes.

Provides details of aircraft and aero-engines from 50 countries. For each entry, details are given of the development programme, operational uses, current versions and customers. Also detailed are aerodynamic features, propulsion, dimensions, weights and loadings. Also available on CD-ROM and EIS.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

'Jane's All the World's Aircraft' sets the standard in aviation reference, providing exhaustive technical detail on over 1000 civil and military aircraft currently being produced or under development by over 560 companies.

Jane's All the World's Aircraft sets the standard in aviation reference, providing exhaustive technical detail on over 950 civil and military aircraft currently being produced or under development by more than 550 companies. complete with photographs and line drawings to aid recognition and comparison, this authoritative resource provides you with the ability to evaluate competitors, identify potential buyers, and business partners, and examine aircraft equipment.
