

## Magruder's American Government Chapters Section Assessment Answers

Ten essays discuss federal democracy, the form of government of the United States. The first essay discusses the origins of American federalism. The second examines why we have a federal system, the functions federalism serves, and the consequences of federalism for the American political system. Federalism in the Constitution and constitutional law are treated in the third essay. The importance of cultural pluralism in American life and the role of American federalism in supporting pluralism are the foci of the fourth essay. The roles that the local community, the states, and political parties play in the federal system are examined in essays 5, 6, and 7, respectively. State, local, and professional roles in citizenship education are discussed in the eighth essay. The ninth essay explores how high school U.S. history and government textbooks approach federalism. The concluding essay describes resources on federalism that can be used in curriculum development at the secondary and college levels. Many of the essays are followed by topics for further study and suggested readings for teachers. (RM)

Unless experienced and well-read English teachers can develop coherent and increasingly demanding literature curricula in their schools, average high school students will remain at about the fifth or sixth grade reading level--where they now are to judge from several independent sources. This book seeks to challenge education policy makers, test developers, and educators who discourage the assignment of appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible.

This book explores four interrelated themes: rethinking civic education in light of the diversity of U.S. society; re-examining these notions in an increasingly interconnected global context; re-considering the ways that civic education is researched and practiced; and taking stock of where we are currently through use of an historical understanding of civic education. There is a gap between theory and practice in social studies education: while social studies researchers call for teachers to nurture skills of analysis, decision-making, and participatory citizenship, students in social studies classrooms are often found participating in passive tasks (e.g., quiz and test-taking, worksheet completion, listening to lectures) rather than engaging critically with the curriculum. Civic Education for Diverse Citizens in Global Times, directed at students, researchers and practitioners of social studies education, seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory.
