Keith C. Barton,

University of Cincinnati "This text fills a valuable niche and should quickly become a leading reference for teachers and teacher educators." Linda S. Levstik, University of Kentucky This book, resulting from a collaboration among an educational psychologist, a social studies educator, and a primary teacher, describes in rich detail and illustrates with excerpts from recorded lessons how primary teachers can engage their students in social studies lessons and activities that are structured around powerful ideas and have applications to their lives outside of school. The teaching portrayed connects concepts and skills emphasized in national and state standards, taught in ways that build on students' prior experiences in their local communities and connect with their family backgrounds and home cultures. The analyses include rich descriptions of the teacher-student interactions that occur during lessons, detailed information about how and why the teacher adapted lesson plans to meet her students' background experiences and adjusted these plans to take advantage of teachable moments that emerged during lessons, and what all of this might imply concerning principles of practice. The principles are widely applicable in elementary schools across the country, as well as across the curriculum (not just in social studies) and across the elementary grades (not just the primary grades).

This thematic, integrated unit about the Mayas, Aztecs, and Incas will provide both the teacher and the students with a broad understanding of the topic. The unit starts off with core teaching lessons to build a base for knowledge, followed by student worksheets that compliment the core lessons. Optional lessons are included to add a degree of flexibility and possible enrichment activities to the lesson. The unit finishes off with a major project that allows students to demonstrate further knowledge of Ancient America. This History lesson provides a teacher and student section with a variety of reading passages, activities, crossword, word search, pictorial history and answer key to create a well-rounded lesson plan.

This unit, designed for use with intermediate and junior high school students, centers on the Mayan, Aztec and Incan civilizations in Central and South America and contains literature selections, poetry, writing ideas, curriculum connections to other subjects, group projects and more. The literary works included are: The corn grows ripe / by Dorothy Rhoads -- Aztecs: the fall of the Aztec capital / by Richard Platt -- Secret of the Andes / Ann Nolan Clark.

Binet schetst op briljante wijze een alternatieve wereldgeschiedenis Onder welke voorwaarden had de geschiedenis anders kunnen lopen? Als de oorspronkelijke inwoners van Latijns-Amerika paarden, ijzer en antistoffen tegen Europese ziektes hadden gehad, zouden ze dan de conquistadores hebben kunnen weerstaan? In Beschavingen gaat Binet aan de haal met deze hypothese: de laatste Inca Atawalpa sterft niet door toedoen van de Spanjaarden maar zet voet aan land in het Europa van keizer Karel V. Daar krijgt hij te maken met de Spaanse inquisitie, het ontluikende kapitalisme, het wonder van de drukkunst, een met piraten bezaaide zee, een continent verscheurd door godsdiensttwisten en dynastieke oorlogen. Maar bovenal met mensen die honger lijden en in opstand willen komen: Joden in Toledo, Moren in Granada, geuzen in Nederland – voor Atawalpa zijn het allemaal mogelijke bondgenoten waardoor het omverwerpen van het regime uiteindelijk een fluitje van een cent is. Binet herschrijft, en speelt met de wereldgeschiedenis en laat zien welke rol intrige en toeval spelen in wat wij doorgaans als vaststaand, als beschaafd, beschouwen. In de pers 'Beschavingen is een potpourri van literaire genres en een feest voor kenners van het literaire en culturele Europese erfgoed.' De Standaard 'Een branieachtige en ingenieuze roman.' Trouw 'Een explosieve roman.' de Volkskrant

This book covers the origin and archaeological development of selected categories of civilized elements identified as being "Jaredite" in origin. It is an attempt to elevate the Jaredite civilization into the light of day from the heretofore dark mists of history where science has forced it for the last 2,500 years. The Jaredite civilization spanned a possible 2,530 years, and its known achievements have far exceeded those of modern man's in many regards. In c. 2800 BC, the Jaredites built a pair of concrete superhighways over 2,700 miles, complete with paved exits and a secondary road network, nearly the entire length of the South American continent. Their civilization could answer the riddles of the Sphinx, the questions of who built the pyramids and why, the mystery and likely origin of UFOs, prove whether or not George Lucas had the only ET, detail what Noah brought aboard the ark besides three sons and their families, and provide an answer to the question posed to Dr. J. Robert Oppenheimer by a student as to whether Alamogordo's nuclear bomb in July 1945 was the first ever atomic bomb explosion in history. Many other possible but likely Jaredite achievements are incredibly fascinating and await only an honest archaeological effort to prove them. The historical facts exist; they are real and three-dimensional, but to date, standard classical science has relegated them to the dustbin of history's forgotten basement closet. Satan has made a tremendous effort since mankind's beginning to keep man blinded to the historical facts of our heritage, causing the deliberate destruction of millions of artifacts, scrolls, books, and whole libraries throughout the world to do so. This book is but a small effort to expose and make known a portion of mankind's previously hidden but rightful heritage.

Historische feiten in woord en beeld over het leven en werken van de Azteken in de 13e eeuw na Chr.

Describes the lives and achievements of American Indians and discusses their contributions to the world.

Explore the wonders of history, space, the natural world and more with Picturepedia. it's a mini-encyclopedia for kids on every page! From astonishing insects and outer-space to musical instruments and fascinating animals, Picturepedia explains every topic under (and including) the Sun. Uncover the secrets of prehistoric life using photographs, explore the human body through graphics and discover galleries of musical instruments in Picturepedia. Ideal for homework, projects or young curious minds, Picturepedia is a must-have encyclopedia for kids.

This Handbook outlines the current state of research in social studies education – a complex, dynamic, challenging field with competing perspectives about appropriate goals, and on-going conflict over the content of the curriculum. Equally important, it encourages new research in order to advance the field and foster civic competence; long maintained by advocates for the social studies as a fundamental goal. In considering how to organize the Handbook, the editors searched out definitions of social studies, statements of purpose, and themes that linked (or divided) theory, research, and practices and established criteria for topics to include. Each chapter meets one or more of these criteria: research activity since the last Handbook that warrants a new analysis, topics representing a major emphasis in the NCSS standards, and topics reflecting an emerging or reemerging field within the social studies. The volume is organized around seven themes: Change and Continuity in Social Studies Civic Competence in Pluralist Democracies Social Justice and the Social Studies Assessment and Accountability Teaching and Learning in the Disciplines Information Ecologies: Technology in the Social Studies Teacher Preparation and Development The Handbook of Research in Social Studies is a must-have resource for all beginning and experienced researchers in the field.

Pack your bags and climb aboard for a trip around the world to explore various cultures! This set of 8 books includes 8 nonfiction readers, and feature high-interest nonfiction text, primary source graphics, highlighted content-area vocabulary, sidebars, photographs, maps, glossary, and index. Titles include Egypt, India, Rome, Greece, China, Sub-Saharan Africa, Mesopotamia, and Mayas, Incas, and Aztecs. 32 pages each.

Grab your passport to discover primary sources related to each of eight different cultures with activities to help teach important fluency strategies. While learning about people and cultures from around the world, students make content-area connections, develop fluent and meaningful oral reading, and develop vocabulary and word decoding skills. Included with each text is a history connection, a vocabulary connection, and extension ideas. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills and supports Common Core State Standards. 192pp.

This is not a study on archaeology or the history of ancient civilisations! My foremost intention is not to inform you about Traditional Chinese Medicine, Indian Ayurvedic Medicine, shamanism, a Paleo diet, vegetarianism or raw foodism, but the emphasis is on the fact that those who exercise discipline in their particular fields, whether tradition or lifestyle, do so with all their might. I want you to radiate this attitude in your present lifestyle diet and future life expectancy! Pythagoras puts it so well, "salt is born of the purest of parents: the sun and the sea".

Ebook MCQ on Aztec civilization multiple-choice questions and answers.

Via 100 entries or 'mini-chapters,' the SAGE 21st Century Reference Series volumes on Anthropology will highlight the most important topics, issues, questions, and debates any student obtaining a degree in the field of anthropology ought to have mastered for effectiveness in the 21st century. The purpose is to provide undergraduate students with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon, detail or density as a journal article or a research handbook chapter.

Bring history to life for students in grades 5 and up using Mayan, Incan, and Aztec Civilizations! This 96-page book features reading selections and assessments that utilize a variety of questioning strategies, such as matching, true or false, critical thinking, and constructed response. Hands-on activities, research opportunities, and mapping exercises engage students in learning about the history and culture of Mayan, Incan, and Aztec civilizations. For struggling readers, the book includes a downloadable version of the reading selections at a fourth- to fifth-grade reading level. This book aligns with state, national, and Canadian provincial standards.

Focus on the similarities and differences of the three ancient cultures that once thrived on Earth: Mayan, Incan and Aztec. Read about the unique features of each civilization. Learn about their cultures, achievements and society, too. By learning about ancient civilizations, children will gain a better understanding of the modern world. Encourage this book today.

Draws on the myths and legends of the great civilizations of the Aztec, Mayan and Inca empires, as well as those of the Amazon tribes. Sheds light on contemporary life and illuminates the spiritual beliefs and main preoccupations of these people.

As the study of world history evolves from a Eurocentric perspective to a more global viewpoint, formerly marginalized groups are now the focus of discussion, revealing a background rich with important military, political, social, and economic achievements. This book examines the once prosperous and powerful native civilizations in Central and South America, discussing the key individuals, strategies, and politics that made these countries strong and indomitable. In spite of this, the author shows how, in only a few generations, Spain defeated these mini-empires, eventually dominating much of the Western Hemisphere. "Conflict in the Early Americas: An Encyclopedia of the Spanish Empire's Aztec, Incan, and Mayan Conquests" focuses primarily on the defeat of the Aztec, Incan, and Mayan civilizations, but also includes Spanish interactions with lesser-known native groups. Supporting documents including primary sources, maps, and visual aids provide necessary context to this once-untold story.

An overview of the history of the world including the ancient world, great civilizations, the medieval world, and the modern world. Take students beyond textbook history to explore various people and events from ancient Egypt through the 20th Century using primary sources. Students will develop critical-thinking and essay writing skills as they analyze the various documents including photographs, posters, letters, maps, and more. Multiple social studies topics are included for grades K-3, 4-8, and 9-12. This resource includes engaging digital resources and is aligned to College and Career Readiness and other state standards.

Provide students with a solid foundation in Caribbean history and encourage social studies skills, with an active approach to the study of social history for Lower Secondary. - Ensure full coverage with content spanning history from ancient civilisations to more recent 21st Century events. - Prepare students for studies at CSEC level with a solid grounding in Caribbean history. - Provide practice in many different skill areas with activities, including 'What would you do?' problem solving activities. - Encourage students to compare and contrast past events with more recent ones with 'Then and Now' feature. - Inspire interest with relevant archaeological information from the region as well as career options related to the subject as part of the 'Did you know?' feature. - Reinforce learning and test knowledge through comprehensive revision questions.

This wide-ranging introduction to the anthropology of Latin America and the Caribbean offers broad coverage of culture and society in the region, taking into account historical developments as well as the roles of power and inequality. The chapters address key topics such as colonialism, globalization, violence, religion, race and ethnicity, gender and sexuality, health, and food, and emphasize the impact of Latin American and Caribbean peoples and cultures in the United States. The text has been thoroughly updated for the second edition, including fresh case studies and new chapters on independence, neoliberalism and immigration, and popular culture and the digital revolution. Students are provided with a solid overview of the major contemporary trends, issues, and debates in the field. Each chapter ends with a summary, up-to-date recommendations for viewing films/videos and websites, and a comprehensive bibliography for further reading and research.

This detailed study is the only reference work of its kind to address Spain's conquest of Central and South America, providing in-

depth coverage of native and European ideologies, political motivations, and cultural practices of the region.
