A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, late the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.

Beginning with 1953, entries for Motion pictures and filmstrips, Music and phonorecords form separate parts of the Library of Congress catalogue. Entries for Maps and atlases were issued separately 1953-1955.

A reproduction of the Floyd Clymer Workshop Manual and possibly the most comprehensive manual ever published for this series of MG's. It includes complete technical data, service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and electrical components for the 1500cc, 1600cc and 1800cc MGA and MGB series of automobiles including the MGA 1500 (1955-59), MGA 1600 MKI (1959-61), MGA 1600 MKII (1961-62), MGB MKI (1962-67) & MGB MKII (1967-70). As many of the same mechanical components are utilized in the final series of MGB's (1970-80) much of this manual is applicable to the Series III cars also. There is adequate detailed text and diagrams to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation, making it an invaluable resource for collectors and restorers of these classic automobiles. This profusely illustrated manual includes separate sections dealing with the repair and overhaul procedures for the engine, cooling system, carburetion, clutch, transmission, brakes and wheels, hubs and drums, rear axle, drive shaft, front suspension, steering gear, a detailed electrical service section and emission control section plus a complete reproduction of the MGB & MGB GT Owners Handbook. This is a - must have - reference for any MG enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic automobiles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this reproduction as a service to all MG enthusiasts worldwide.
