Using rare and previously unpublished images from around the world, *The Elite: The A-Z of Modern Special Operations Forces* is the ultimate guide to the secretive world of modern special operations forces. It sends the reader back in time to operations such as Eagle Claw in Iran and the recapture of the Iranian Embassy in London and then forward to recent operations against al-Shabaab and Islamic State. Entries also detail units ranging from the New Zealand SAS Group to the Polish GROM, and key individuals from Iraq counter-terrorism strategist General Stanley McChrystal to Victoria Cross recipient SASR Corporal Mark Donaldson. Answering questions such as how much the latest four-tube night vision goggles worn by the SEALs in Zero Dark Thirty cost, which pistol is most widely employed by special operators around the world and why, and if SOF still use HALO jumps, this book is the definitive single-source guide to the world's elite special forces.

The Colorado Plateau is America's western treasure, home to the country's highest concentration of national parks, monuments, wilderness areas, and state parks, and a near-endless bounty of wild, stunning landscape. Discovering the Colorado Plateau will explore this region through beautiful maps, full-color photography, and detailed descriptions of the area's geography, history, and geology, as well as signature activities that encapsulate the best each locale has to offer. By purposefully shifting the focus away from the national parks, this book introduces readers to the various public lands and protected areas that are as exciting and wonderful as any of the major parks. Unlike any other book published recently about the Plateau, this book not only acts as a source of great information and imagery, but as a practical guide and a true celebration of one of America's most beautiful and endangered lands.

The Author has experience in Ice Age Climatology and Geology in the area from the Black Hills, South Dakota to eastern Nebraska with Midland College, the University of Nebraska Department of Geology and Morrill Hall State Museum of Paleontology. He mapped Ice Age deposited soils and landforms including fossil deposits. He performed Arctic Surveys with the US Navy Oceanographic Office ships USNS Dutton and Michelson and the Coast and Geodetic Survey ships Surveyor and Oceanographer. These were the first modern geophysical surveys in the North Sea and offshore Alaska, Washington to California and Hawaii. His particular expertise in modern geophysical surveying and mapping has led to well grounded understanding of coastal and sea floor features of the arctic and Antarctic, using new ice and sediment mapping techniques tied to modern navigation and positioning. His hobby is understanding man's adaptability to climate, early migrations, exploration and appreciation of the Neolithic mind gaining man's survival abilities. Adequate education of the public, including historic climate change information, for planet management seems necessary. The fact that 700 million years ago, earth was locked in ice cover for millions of years should be realized. Then vast volcanic eruptions created a greenhouse gas atmosphere and earth's climate alternated between too hot and too cold for human development. These conditions should be understood and avoided at all costs. For future survival, humans must understand the importance of climate and earth management, and live and act accordingly.

Tony Durán was een avonturier en een gokker, en toen hij de zusjes Belladona ontmoette, meende hij de hoofdprijs te hebben gewonnen. Hun ménage à trois schokte het dorp en hield de gemoederen maandenlang bezig. Hij verscheen voortdurend met een van hen in het restaurant van het Plaza Hotel, maar niemand wist ooit welke van de twee het was, omdat de tweelingzusjes zo op elkaar leken dat zelfs hun handschrift identiek was. En dan wordt hij dood aangetroffen De gepensioneerde commissaris Croce moet de zaak oplossen en krijgt daarbij van de kant van de wet minstens zoveel tegenwerking als van de bewoners van het dorp en de familie van de zusters Belladona. Er duikt zelfs een journalist uit Buenos Aires op om het geval te verslaan. Een psychologische thriller waarin de gekte van de commissaris essentieel is voor de mysteries die hij moet oplossen. Een intense, tragische familiegeschiedenis en een diepgravende reflectie op macht en recht. `Bij elk nieuw boek van Piglia vraag ik me niet meer af óf hij de Premio Cervantes verdient, maar wannéér hij deze erkenning krijgt. La Vanguardia
