

Practicing Law In The Sharing Economy Helping People Build Cooperatives Social Enterprise And Local Sustainable Economies

International Trade Law: Interdisciplinary Theory and Practice has been completely revised in its Third Edition, building upon the global successes of its two predecessor editions. Truly a "world law" Textbook applicable in any of the approximately 152 WTO countries, the Third Edition places much emphasis on coverage of developing and least developed countries in Asia, Africa, and Latin America, highlighting the significance of their demographics, politics, culture, and economic dynamism. Europe and the high-profile trade disputes between the United States and the European Union is another chief focal point of this distinctively comprehensive book. Notably, the Textbook avoids two pitfalls: an American-centric approach, and the suggestion that international trade law is only about the WTO. The Textbook contains 50 Chapters dedicated to all aspects of the field, from ancient and medieval views about the morality of trade to the mysteries of adjustments to Constructed Export Price in a dumping margin calculation. The Textbook covers fully the Doha Round and the new, post-9/11 trade security rules. It includes 6 Chapters on free trade agreements (FTAs), 2 Chapters each on agriculture, services, and intellectual property (IP), and plenty of excerpts from key WTO and U.S. court cases. Overall, the Textbook is both a tour de force and user friendly. Not surprisingly, the Textbook has been used at roughly 100 law schools around the world, and translated into Vietnamese. Each chapter is manageably-sized and offers a user-friendly structure, allowing the flexibility of choosing the chapters that best serve the needs of a professor's individual course. The topics in each chapter help students establish a fundamental foundation upon which to build their knowledge of international trade law. Useful notes appear throughout the text, carefully constructed and organized to guide and challenge students, without abandoning them to trying to play "find-the-ball" on their own, piecemeal. The author sets forth five clear and fundamental themes in the preface which resonate throughout the text, providing not only coherence and integration, but also the passion that will ensure lively classroom discussion and debate. The author covers hot topics, such as protectionism, regionalization, labor, the environment, and sanctions, from both a practical and theoretical standpoint. Interesting and substantive interdisciplinary readings provide further penetration of a subject on not only the economics of international trade law, but on perspectives brought to the field by political scientists, international relations specialists, and philosophers.

Transactional lawyers are needed, en masse, to aid in an epic reinvention of our economic system. This reinvention is referred to by many names the "sharing economy," "collaborative consumption," the "grassroots economy" and involves different ways of meeting people's needs, participating in production, and transacting with each other. This book illustrates the nine primary areas of work that a sharing lawyer must know, including drafting agreements, structuring entities, employment regulations, intellectual property, and much more. The work of a sharing lawyer will often be challenging, but will always be interesting and demand creativity. Perhaps best of all, the work of sharing lawyer will contribute importantly to the creation of a world in which innumerable people have now decided they want to live."

The book, written with a rich teaching and research experience of the author, emphasises the critical evaluation of contemporary human rights law and practice with special reference to India. It also evaluates the ongoing discourse on various issues relating to life, liberty, equality and human dignity and their reflections in international human rights law referring the state practices through constitutional guarantees, judicial decisions as well as through enacting appropriate legislations. This lucid and comprehensive book is logically organised into nine chapters. Beginning with the theoretical foundations of human rights law referring to origin, development and theories of human rights at preliminary level, the book proceeds to "International Bill of Human Rights" demonstrating various facets of civil and political rights as well as economic, social and cultural rights. It further discusses the importance of human rights law in protection against inhuman wrongs and examines a large number of debates concerning human right to development and protection of environment. Then, it moves on to explore various issues relating to human rights in Indian Constitutional Law. The latter part of the book emphasises on the protection of rights of women and children, which has been the focal point of all human rights discussions. It also deals with the scope and ambit of the rights of indigenous peoples and minorities including their protection. At the end, the book examines the utility and justifications of human rights law in protecting the rights of people with disabilities (divyang). Though the book is primarily designed for LLB, BA LLB and LLM and courses on human rights, it will be equally beneficial for the researchers, academicians, jurists, lawyers, judges as well as members of civil society.

The study of ancient law has blossomed in recent years. In English alone there have been dozens of studies devoted to classical Greek and Roman law, to the Roman legal codes, and to the legal traditions of the ancient Near East among many other topics. Legal documents written on papyrus began to be published in some abundance by the end of the nineteenth century; but even after substantial publication history, legal papyri have not received due attention from legal historians. This book blends the two usually distinct juristic scholarly traditions, classical and Egyptological, into a coherent presentation of the legal documents from Egypt from the Ptolemaic to the late Byzantine periods, all translated and accompanied by expert commentary. The volume will serve as an introduction to the rich legal sources from Egypt in the later phases of its ancient history as well as a tool to compare legal documents from other cultures.

Key features include: • A comprehensive overview of legal and policy-related issues • A blend of approaches underpinning strategic considerations with analytical rigour • Regional coverage of the key characteristics of trademark transactions in a range of jurisdictions • Authorship from renowned trademark experts Practitioners advising trademark owners, including trademark attorneys, will find this book to be an invaluable resource for their practice, particularly where cross-border issues arise. It will also be a key reference point for scholars working in the field.

Intellectual Property Law and Practice in Israel provides a comprehensive overview of Israeli intellectual property laws and an in-depth analysis of the pertinent case law. Commerce has become an area of central importance to the South Pacific region. Although the countries are small it is widely acknowledged that their need to promote and develop commercial enterprise is crucial for their future sustainability. This new textbook is the first to examine the main areas of commercial law in the common law jurisdictions of the South Pacific region. These jurisdictions include the Cook Islands, Fiji Islands, Kiribati, Marshall Islands, Niue, Nauru, (Western) Samoa, Solomon Islands, Tonga, Tuvalu and Vanuatu. The text is divided into six parts each with its own introduction to aid the reader through each particular area. Utilising both a structural and transactional approach it examines: the establishment and termination of commercial organizations the internal and external relations within and between organizations the legal principles applicable to various kinds of commercial dealings eg. insurance, sale of goods, bills of exchange aspects of foreign trade and international commerce relevant to the region. Knowledge of the legal principles that regulate commercial activity within the South Pacific Region is essential for the communities themselves and for those from outside interested in doing business in the area. Students studying commercial law in the region will find this textbook essential reading as will those involved, or seeking to become involved, in commercial activity there

This book reviews the practice of shared responsibility in multiple issue areas of international law, to assess its application and development.

Private Law in Theory and Practice explores important theoretical issues in tort law, the law of contract and the law of unjust enrichment and relates the theory to judicial decision-making in these areas of private law. Topics covered include the politics and philosophy of tort law reform, the role of good faith in contract law, comparative perspectives on setting aside contracts for mistake and the theory and practice of proprietary remedies in the law of unjust enrichment. Contributors to the book bring a variety of theoretical approaches to bear on the analysis of private law. They include: economic analysis, corrective justice theory, comparative analysis of law, socio-legal inquiry, social history, political theory as well as doctrinal analysis of the law. In all cases the theoretical approaches are applied to recent case law developments in England, Australia and Canada, or, in the case of tort law, proposals in all these jurisdictions to reform the law. The book presents the theory of private law and the application of theory to practical legal problems in an accessible form to teachers and students of tort, contract and the law of unjust enrichment, legal researchers and law reformers.

In Practicing Law in Frontier California Gordon Morris Bakken combines collective biography with an analysis of the function of the bar in a rapidly changing socioeconomic setting. Drawing on manuscript collections, Bakken considers hundreds of men and women who came to California to practice law during the gold rush and later, their reasons for coming, their training, and their usefulness to clients during a period of rapid population growth and social turmoil. He shows how law practice changed over the decades with the establishment of large firms and bar associations, how the state's boom-and-bust economy made debt collection the lawyer's bread and butter, and how personal injury and criminal cases and questions of property rights were handled. In Bakken's book frontier lawyers become complex human beings, contributing to and protecting the social and economic fabric of society, expanding their public roles even as their professional expertise becomes more narrowly specialized.

In this book, a cross-section of women attorneys in a variety of practice areas share their experiences, frustrations, and advice with those considering or currently practicing law. They discuss how they perceive the present state of legal practice for female attorneys, provide their favorite tips for achieving a work-life balance, and discuss a variety of solutions to work-life balance issues.

Mental health professionals, more than any other clinicians, encounter legal issues on a regular basis. This is a book for anyone in the field, at any stage in their training or practice, who has ever found themselves scratching their head in confusion or dreading that they will expose themselves to liability as they navigate the complexities at the interface of law and mental health. Written by established experts and the rising stars of the next generation, the 16 chapters in this book offer readers a basic understanding of legal principles encountered in clinical practice, as well as practical advice on how to manage situations at the interface of law and clinical practice. Using case examples and clear language, this book helps clinicians understand the underlying principles behind the legal requirements of clinical care. It aims to enhance the reader's knowledge of legal issues and ability to deliver good clinical care when those issues are encountered.

This book is unique in that it is, first and foremost, for mental health clinicians in training and those already in practice. While it is not a textbook for lawyers or forensic clinicians, forensic specialists and other professionals who encounter mental health issues in their work, such as law enforcement professionals, will benefit from its practical and clear discussion of legal and mental health issues.

This edited collection brings together leading scholars and practitioners from various jurisdictions with essays and commentaries co-ordinated around the theme of alignments and misalignments between commercial law and commercial practice. The purpose of the book is to prompt a more critical and constructive reassessment of current commercial law and its practices, and to instigate a more fruitful dialogue between academics, judges, law reformers and practitioners. The result is a series of provocative and challenging essays addressing an enormous range of problems that are of intimate concern to commercial practice. Some essays focus on broad themes, such as globalization and trust. Others address more specific issues, such as contract interpretation or constraining modern management. Yet another group targets special problems, such as dematerialisation or super-priority, in order to assess the success of commercial law in meeting commercial demands. The depth and breadth of issues addressed is a credit to the authors. Taken as a whole, the volume makes some pointed suggestions for improving the practices and processes, and indeed the future progress, of commercial law.

"This is the first book to give social workers the tools to understand their clients' legal needs and rights and to address them collaboratively and effectively. Lyn Slater and Kara Finck ground their text in a comprehensive grasp of the legal system and the inequities of race, class, and gender that shape clients' experiences. Social Work Practice and the Law is a powerful call for social workers to be passionate and skillful advocates for their clients. Essential reading for social workers and lawyers alike who serve low-income people entangled in systems that so often fail them." Dorothy Roberts, JD Kirkland & Ellis Professor, Northwestern University School of Law Author, Shattered Bonds: The Color of Child Welfare Based on the author's innovative and nationally recognized prototype for inter-professional work at Fordham University, this is the only volume about social work and the legal system that is written from the social worker's perspective. Devoid of "legalese," the book is designed to help social workers develop the ability to reappraise, question, and challenge the law to best serve their clients. It aims to promote the development of a more strategic relationship with the legal system—a partnership that can achieve more creative and just solutions to social problems. Exhaustive in scope, Social Work and the Law identifies current national and international trends and legal movements that support and invite inter-professional, critically competent social work participation. The book also identifies and explains the essential knowledge, skills, values, and attitudes necessary for the attainment of collaborative critical competence when interacting with the legal system. Each chapter includes vivid case studies based on actual collaborations that illustrate the application of theory to practice. Chapters also include legal, social work, and evidence-based resources. Key Features: Promotes a proactive approach to the ways in which social workers can use law to promote clients' best interests Addresses all domains of social work practice—child welfare, housing law, educational access, disability law, benefits, and more Offers abundant case studies taken from the authors' real-life work Devoid of "legalese" and written from a social worker's perspective
