Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers foundations in psychology: social psychology, cognitive psychology, biological psychology and learning theories. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and answers will: - - Build understanding of the different question types, so that students can approach each question with confidence. - - Enable students to target top grades in Paper 1 with sample answers and commentary explaining exactly why marks have been awarded.

For the past 60 years, the American Board of Professional Psychology (ABPP) has been the premier credentialing agency for psychologists. ABPP is increasingly recognized as a highly valuable standard of specialty competency through the board certification process. For specialty recognition, some jurisdictions require ABPP certification, with more states getting involved each year. Additionally, there is increasing recognition of the importance of the ABPP credential by employers such as hospitals and health service systems, and organizations such as the US Public Health Service, the US Department of Defense, and the Department of Veteran Affairs. This edited book provides a comprehensive description and hands-on, practical guide for individuals seeking certification from any one of the 13 specialty boards of the American Board of Professional Psychology. The book contains answers to frequent areas of inquiry and questions posed by potential candidates. In addition to providing a brief description of the history and mission of ABPP, the book offers step-by-step information concerning the "where, what, and how" of the board certification process. Finally, never-before offered information is provided, such as what pitfalls to avoid, and how to get further involved in the profession as a board certified psychologist.

Written by an experienced teacher and senior examiner with an in-depth understanding of teaching and assessments for the IB psychology SL and HL courses. This new TestPrep book helps students to familiarise themselves with the psychology SL and HL exams. It provides information about the approach of the papers and the types of exam questions they will come across. Students can practice answering the questions by writing directly into the book, just like they do in the exam. And, as they work through, there are strategies, hints and support for answering the questions PLUS fully worked solutions at the end. From some excellent and unique practice questions for Paper 1 to invaluable advice from the experts on how to tackle Paper 2 (plus some unseen stimulus material for HL students for Paper 3), this book provides essential exam practice support for students revising for their psychology exams. Students will:

- understand what to expect from the psychology exam papers - with a breakdown of the format of Paper 1 (SL and HL), Paper 2 (SL and HL) and Paper 3 (HL only), the command terms and the assessment objectives
- see example answers to Paper 1, Paper 2 and Paper 3-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner
- test themselves - with three complete sets of exam-style psychology practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second set has fewer helpful prompts; the last set has no additional help and is designed so students can have a go at it themselves!)
- check answers - with fully-worked solutions in the back of

the book.
