To many in the United Kingdom, the British public school remains the disliked and mistrusted embodiment of privilege and elitism. They have educated many of the country's top bankers and politicians over the centuries right up to the present, including the present Prime Minister. David Turner's vibrant history of Great Britain's public schools, from the foundation of Winchester College in 1382 to the modern day, offers a fresh reappraisal of the controversial educational system. Turner argues that public schools are, in fact, good for the nation and are presently enjoying their true "Golden Age," countering the long-held belief that these institutions achieved their greatest glory during Great Britain's Victorian Era. Turner's engrossing and enlightening work is rife with colorful stories of schoolboy revolts, eccentric heads, shocking corruption, and financial collapse. His thoughtful appreciation of these learning establishments follows the progression of public schools from their sometimes brutal and inglorious pasts through their present incarnations as vital contributors to the economic, scientific, and political future of the country.

First published in 1924, 'Which School?' brings together in one volume a wide range of information and advice, updated annually, on independent education for children up to the age of 18 years.

Originally published in 1971, this volume is much more than a history of the Girls' Public Day School Trust; it examines the growth of educational opportunities for girls and is set against a background of changing social attitudes and ideas. The book is mainly concerned with a small group of schools which pioneered girls' education in the nineteenth century; schools which to this day, whether maintained, direct grant or

The Great War was the first 'Total War'; a war in which human and material resources were pitched into a life-and-death struggle on a colossal scale. British citizens fought on both the Battle Fronts and on the Home Front, on the killing fields of France and Flanders as well as in the industrial workshops of 'Blighty'. Men, women and children all played their part in an unprecedented mobilisation of a nation at war. Unlike much of the traditional literature on the Great War, with its understandable fascination with the terrible experiences of 'Tommy in the Trenches', Roll of Honour shifts our gaze. It focuses on how the Great War was experienced by other key participants, namely those communities involved in 'schooling' the nation's children. It emphasises the need to examine the 'myriad faces of war', rather than traditional stereotypes, if we are to gain a deeper understanding of personal agency and decision making in times of conflict and upheaval. The dramatis personae in Roll of Honour include Head Teachers and Governors charged by the Government with mobilising their 'troops'; school masters, whose enlistment, conscription or conscientious objection to military service changed lives and career paths; the 'temporary' school mistresses who sought to demonstrate their

'interchangeability' in male dominated institutions; the school alumni who thought of school whilst knee-deep in mud; and finally, of course, the school children themselves, whose 'campaigns' added vital resources to the war economy. These 'myriad faces' existed in all types of British school, from the elite Public Schools to the elementary schools designed for the country's poorest waifs and strays. This powerful account of the Great War will be of interest to general readers as well as historians of military campaigns, education and British society.

On 9 November 1966, popular GP Dr Helen Davidson was battered to death in dense woodland while birdwatching and exercising her dog a few miles from her Buckinghamshire home. Her body was found the next day, her eyes having been pushed into her skull. 'She had binoculars round her neck, spied illicit lovers, was spotted, and one or both of them killed her,' surmised Detective Chief Superintendent Jack 'Razor' Williams of New Scotland Yard. He had received fifty police commendations in his career, yet not one for a murder enquiry. Unsurprisingly, within weeks the police operation was wound down, Williams retired, and another cold case hit the statistics. Fifty years later, amateur sleuth and author Monica Weller set about solving the murder – without the help of the prohibited files. As she sifted the evidence, a number of suspects and sinister motives began to emerge; it was clear it was not a random killing after all. Weller uncovered secret passions, deep jealousies, unusual relationships and a victim with a dark past. Her persistence and dedication were dramatically rewarded when she uncovered the identity of the murderer – revealed here for the first time.
