Based on the bestselling series from The Great Courses, Building Great Sentences celebrates the sheer joy of language—and will forever change the way you read and write. Great writing begins with the sentence. Whether it's two words ("Jesus wept.")

or William Faulkner's 1,287-word sentence in *Absalom! Absalom!*, sentences have the power to captivate, entertain, motivate, educate, and, most importantly, delight. Yet, the sentence-oriented approach to writing is too often overlooked in favor of bland economy. *Building Great Sentences* teaches you to write better sentences by luxuriating in the pleasures of language. Award-winning Professor Brooks Landon draws on examples from masters of long, elegant sentences—including Don DeLillo, Virginia Woolf, Joan Didion, and Samuel Johnson—to reveal the mechanics of how language works on thoughts and emotions, providing the tools to write powerful, more effective sentences.

*The Conscious Teacher* is about all kinds of strategies and techniques educators might employ to become more effective teachers. In an accessible, conversational style, Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike. She begins with her personal story of not being able to read all through elementary school. Her early failures convinced her she was dumb. At first, she struggled, but when she still failed, she adopted an avoidance strategy that served her well until junior high. An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and, later, to applying the lessons she learned as a child to her own teaching. What makes *The Conscious Teacher* unique are the inspirational lessons that are unlike what most teachers get in their teacher-education courses or student teaching. Ms. Nichols Poulos points out, for

example, that from the very first day, it is important that students learn they will be treated with dignity and respect no matter what. And especially helpful are the steps Ms. Nichols Poulos employs to set up a behavior management plan that works. She explains the strategic steps she takes before school starts—how essential it is to get to know each student before they walk into class on that first day. She also illustrates how setting up classroom routines helps students know what to expect and how to make the best use of every minute. And she emphasizes the importance of the parent-student-teacher team and includes many examples of how to communicate with—and involve—parents, even those who may be difficult. Foundational to her program are reading and writing. Among other things, she lays out the steps for students—even as early as fourth grade—to write five paragraph essays and their own student-authored books, and to research and write reports that include bibliographies. When she differentiated curriculum to support all students' needs, she found their learning accelerated. All teachers will appreciate her ideas about how to teach the basics of math, as well as advanced math concepts. And her ideas for teaching the arts are inspirational, as she describes in detail how her fourth graders performed Shakespeare's Hamlet, Macbeth, King Lear, Julius Caesar, and A Midsummer Night's Dream. She also shows how to integrate social studies with literature and writing. Her experiences taught her that young students are much more capable than many people realize. The Conscious Teacher is an indispensable guide for all new teachers. Many of

the ideas Ms. Nichols Poulos provides will also be an eye-opener for parents and experienced teachers as well. The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling.
