This workbook is designed for first and second grade students who need extra practice in addition and subtraction, high-frequency words, rhyming words, compare and contrast, telling time, money, expanded form and word name, and creative writing. Ninety pages take kids into a world of jelly fish, earthworms, squirrels, the quarter, sharks, rainy days, the flea, snakes and lizards, grasshoppers, caterpillars, the quarter, dinosaurs, vacation, butterflies, cats and mountain lions, mosquitoes, flowers, elephants, sea horses and sword fish, pincher bugs, hummingbirds, airplanes, sunny days, groundhogs, quarters, dark days, worms, aphids, and birds. There are a variety of game formats so children don't get bored: a word search, a spinner game, spaces to draw, and fill-in-the-blanks scattered throughout. This is NOT your traditional, boring collection of "I already did that" and "I don't want to do this." These problems are new, created by me with a blend of the world of the Gifted and the world of the regular student (where I taught for twenty years). Activities are ideal for tutoring or independent work, during vacation or on weekends or rainy days when they complain about being bored. If you need extra work for vacation, then this is it. If you want extra help for weekends or a trip, then this is it. And if you want more, then smile, because this is one book in a series of four, and each has over 90 pages of Wow! for your child to show that they are a smart kid.

De 12-jarige Kester woont in een wereld waarin alle dieren zijn uitgeroeid. Denkt hij. Dan ontmoet hij een groepje pratende duiven en een bazige kakkerlak ('De Generaal'). Ze hebben zijn hulp dringend nodig: er leven nog wel een paar dieren, maar ze zijn ziek. Samen met een edelhert, een enthousiast wolfje, een hooghartige kat, een dansende dwergmuis en het meisje Polly vertrekt Kester op een gevaarlijke missie. Het wordt een race tegen de klok, want ze worden achternagezeten door de wraakzuchtige Kapitein Skuldiss, die alle dieren voorgoed wil uitroeien... 'Van dit soort series wil je graag dat ze én grappig én spannend én ontroerend zijn, en De laatste wilde dieren is dat allemaal.' - Edward van de Vendel

For eons, King Oblivion, Ph.D., was one of the most ruthless supervillains the world has ever known. As the CEO of the ISS (International Society of Supervillains) for half a century, he was personally responsible for numerous nefarious acts, including Nixon's presidential election, stealing the country of Japan, Star Wars: Episode I-III, and Milli Vanilli, just to name a few. Since his untimely (and inexplicable) passing, Matt D. Wilson, who was found rotting in one of Oblivion's numerous dungeons, has discovered in his giant lair (located in the Earth's mantle) what seems to be the early workings of the villain's ultimate manifesto. Though in-depth research (and paper cuts), Wilson reviewed endless documents and has compiled numerous unedited chapters, email correspondences, and various threats which combine tell the "life story" of this anti-hero. Supreme Villainy is an intimate look into the mastermind who once ruled the globe with an iron fist (and ray gun). For the first time ever, readers will learn of his birth (which has never been noted on record), rise to power, and domination of the world as we know it today. Revealed inside are never-before-seen notes, illustrations, and personal letters which, now collected, show a glimpse into the once-infamous villain's uncompleted manuscript, and maybe a hint into who the real man was behind that horrible mask.

overkomt de twaalfjarige Maeve twee buitengewone dingen: ze wordt gekust door Daniel en even later wordt ze aangevallen door een haai. Achttien jaar later is Maeve een gevierd zeebioloog. Haar bijnaam is de haaienfluisteraar en er is niets in het water dat haar angst aanjaagt. Wanneer ze terugkeert naar Florida en de plek waar ze is opgegroeid – een hotel gerund door haar grootmoeder – ontdekt ze dat haar tweelingbroer aan een roman werkt over haar mislukte relatie met Daniel. En dat Daniel, die ze al jaren niet meer heeft gesproken, als kok werkt bij het hotel. Het leven staat op z'n kop: aan Maeve de keus of ze wegvlucht in haar werk of de confrontatie aangaat met haar verleden. 'Zwemmen met haaien' is een ontroerende roman over de liefdes in je leven en over tweede kansen.

Katsa had nooit verwacht dat ze verliefd zou worden op de knappe prins Po. Ze had nooit verwacht de ware aard van haar gave te ontdekken, of het verschrikkelijke geheim dat ver weg verborgen is; Een geheim dat alle zeven koninkrijken kan vernietigen. Kristin Cashore woont in Florida, de Verenigde Staten. Ze studeerde Engels en Jeugdliteratuur. Ze heeft allerlei banen gehad, o.a. bij een hondenuitlaatservice, in een snoepfabriek en als redactie-assistent. Ze werkte ook als freelance schrijver. De gave van Katsa is haar eerste boek.

The Texas of vast open spaces inhabited by independent, self-reliant men and women may be more of a dream than a reality for the state's largely urban population, but it still exists in the Big Bend. One of the most sparsely settled areas of the United States, the Big Bend attracts people who are willing to forego many modern conveniences for a lifestyle that proclaims "don't fence me in." Marcia Hatfield Daudistel and Bill Wright believe that the character traits exemplified by folks in the Big Bend—including self-sufficiency, friendliness, and neighborliness—go back to the founding of the state. In this book, they introduce us to several dozen Big Bend residents—old and young, long-settled and recently arrived, racially diverse—who show us what it means to be an authentic Texan. Interviewing people in Marathon, Big Bend National Park, Terlingua, Redford, Presidio, Alpine, Marfa, Valentine, Balmorhea, Limpia Crossing, and Fort Davis, Daudistel and Wright discover the reasons why residents of the Big Bend make this remote area of Texas their permanent home. In talking to ranchers and writers, entrepreneurs and artists, people living off the grid and urban refugees, they find a common willingness to overcome difficulties through individual skill and initiative. As one

interviewee remarks, you have to have a lot of “try” in you to make a life in the Big Bend. Together, these voices and images offer the most complete, contemporary portrait of the Texas Big Bend.
