The Journal of School Public Relations is a quarterly publication providing research, analysis, case studies and descriptions of best practices in six critical areas of school administration: public relations, school and community relations, community education, communication, conflict management/resolution, and human resources management. Practitioners, policymakers, consultants and professors rely on the Journal for cutting-edge ideas and current knowledge. Articles are a blend of research and practice addressing contemporary issues ranging from passing bond referenda to building support for school programs to integrating modern information.

markets, and systems. Part I provides a country-by-country overview of banking and finance in East, Southeast, and South Asia, including examples from China, Japan, Hong Kong, India, and Singapore. Part II contains thematic chapters, covering topics such as commercial banking, development banking, infrastructure finance, stock markets, insurance, and sovereign wealth funds. It also includes examinations of banking regulation and supervision, and analyses of macroprudential regulation, capital flow management measures, and monetary policy. Finally, it provides new insights into topical issues such as SME, green, and Islamic finance. This handbook is an essential resource for scholars and students of Asian economics and finance and for professionals working in financial markets in Asia.

The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and

among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

A commonly expressed view is that the citizens and the Member States are destined to be overcome by the European Union. There is a sense that the Union of today is not what was intended to be created or acceded to by the Member States or its citizens. The *Outer Limits of European Union Law* brings together a diverse group of legal scholars to consider aspects of EU substantive, constitutional and procedural law in a manner highlighting the many senses in which the European Union is or can be limited and so demonstrating that the fear of being overcome is largely a false fear. By exploring the mechanisms and devices used to limit the European Union, the contributors also reveal not only the strengths of the various limits, but also and more crucially the weakness of the limits, thereby demonstrating that the prospect of being overcome may be a genuine risk to be guarded against. By considering general themes (eg legitimacy) and core subject areas (eg policing, free movement of goods, remedies) the book reveals the various techniques used by the Court of Justice, Community institutions and Member States to define and modify the outer limits of the European Union and European Union Law. The *Journal of School Leadership* is broadening the conversation about schools and leadership and is currently

This book criticizes the widespread view that the 1997 Asian crisis was due to 'crony capitalism' and puts the blame instead on misguided liberalization. It analyzes the case of Korea's business conglomerates, the chaebol, with particular attention to the car industry, to show how liberalization contributed to the crisis even at the level of the firm. It shows how those firms that had developed innovative capabilities survived the crisis much better than those that had merely expanded into markets

opened up by liberalization.

Abstrakte Bankgarantien sind im internationalen Wirtschaftsverkehr ein unverzichtbares Zahlungssicherungsmittel für komplexe Bauvorhaben und andere Großprojekte. Sie versprechen im Bedarfsfall sofortige Liquidität und lassen sich auf erstes Anfordern abrufen, ohne dass Einwände aus dem Grund-, oder Deckungsgeschäft die Auszahlung verhindern können. Diese unmittelbare Verwertungsmöglichkeit birgt jedoch zwangsweise ein erhöhtes Risiko einer ungerechtfertigten oder missbräuchlichen Abrufung. Das vorliegende Werk untersucht rechtsvergleichend den Missbrauch von Bankgarantien (sog. demand guarantee/independent guarantee/standby letter of credit) im südafrikanischen, englischen sowie deutschen Recht. Unter Auswertung aktueller Gerichtsentscheidungen sowie des Schrifttums werden die praxisrelevanten Missbrauchsfallgruppen analysiert und Wege zur Risikominimierung bzw. -vermeidung aufgezeigt. Das Werk ist gleichermaßen für die Praxis und Wissenschaft geeignet und leistet einen wichtigen Beitrag zur Auflösung des Spannungsfeldes von Rechtssicherheit und materieller Gerechtigkeit im internationalen Wirtschaftsverkehr.

volumes of data to provide significant insights for crucial decisions in critical situations. It presents studies employing computing techniques like machine learning, which explore decision-making for cross-platforms that contain heterogeneous data associated with complex assets, leadership, and team coordination. It also reveals the advantages of using decision sciences with management-oriented problems. The book includes a selection of the best papers presented at the 2nd International Conference on Decision Science and Management (ICDSM 2019), held at Hunan International Economics University, China, on 20–21 September 2019.

This edited volume is about the Australian difference and how Australia's economic and social policy has diverged from the approach of other countries. Australia seems to be following a 'special path' of its own that it laid down more than a century ago. Australia's distinctive bent is manifested in a tightly regulated labour market; a heavy reliance on means testing and income taxation; a geographical centralization of political power combined with its dispersal amongst autonomous authorities, and electoral singularities such as compulsory and preferential voting. In seeking to explain this Australian Exceptionalism, the book covers a diverse range of issues: the strength and weakness of religion, democratic and undemocratic tendencies,

the poverty of public debate, the role of elites, the exploitation of Australian sports stars, the politics of railways, the backwardness of agriculture, deviation from the Westminster system, the original encounter between European and Aboriginal cultures, and the heavy taxation of tobacco. Bringing together contributions from economists, economic historians, and political scientists, the volume seeks to understand why Australia is different. It offers a range of explanations from the 'historical legacy', to material factors, historical chance, and personalities.
