Si King and Dave Myers, AKA the Hairy Bikers have travelled an interesting road. Born in the north of England, both Si and Dave had their childhood challenges. For Si, being bullied as the fat kid in class was part of his daily school routine. For Dave, his life changed when he became a childhood carer for his mother. But through the challenges of their early years came a love of really good food. And it was food that brought Si and Dave together. Their eyes met over a curry and a pint on the set of a Catherine Cookson drama, and they knew they would be firm and fast friends for life. From deserts to desserts, potholes to pot roasts, the nation's favourite cooking duo reveals what's made their friendship such a special and lasting one. They've eaten their way around the world a good few times, but have never lost sight of what matters: great friends, great family and great food. In this heartwarming memoir of friendship and hilarious misadventure, Si and Dave take you on the ride of their lives!

Through the lens of the everyday, this book explores 'the countryside' as an inhabited and practised realm with lived rhythms and routines. It relocates the topography of everyday life from its habitually urban focus, out into the English countryside. The rural is often portrayed as existing outside of modernity, or as its passive victim. Here, the rural is recast as an active and complex site of modernity, a shift which contributes alternative ways of thinking the rural and a new perspective on the everyday. In each chapter, pieces of visual culture - including scrapbooks, art works, adverts, photographs and films - are presented as tools of analysis which articulate how aspects of the everyday might operate differently in non-metropolitan places. The book features new readings of the work of significant artists and photographers, such as Jeremy Deller and Alan Kane, Stephen Willats, Anna Fox, Andrew Cross, Tony Ray Jones and Homer Sykes, seen through this rural lens, together with analysis of visually fascinating archival materials including early Shell Guides and rarely seen scrapbooks made by the Women's Institute. Combining everyday life, rural modernity and visual cultures, this book is able to uncover new and different stories about the English countryside and contribute significantly to current thinking on everyday life, rural geographies and visual cultures.

A provocative, globe-trotting, time-shifting novel about the seductions of -- and resistance to -- toxic masculinity. "Frank knew as well as anyone how stories start and how they end. This fiery mess, or something like it, was bound to happen. He had been expecting it for years." Frank Baltimore is a bit of a loser, struggling by as a carpenter and handyman in rural New England when he gets his big break, building a mansion in the executive suburbs of Hartford. One of his workers is a charismatic eighteen-year-old kid from Liverpool, Dmitry, in the US in the summer before university. Dmitry is a charming sociopath, who develops a fascination with his autodidactic philosopher boss, perhaps thinking that, if he could figure out what made Frank tick, he could be less of a pig. Dmitry heads to Asia and makes a neo-imperialist fortune, with a trail of corpses in his wake. When Dmitry's office building in Taipei explodes in an enormous fireball, Frank heads to Asia, falls in love with Dmitry's wife, and things go from bad to worse. Combining the best elements of literary thriller, noir and political satire, Born Slippy is a darkly comic and honest meditation on modern life under global capitalism.
