David Amram-composer, jazz artist, conductor, and world music pioneer-has been described by the Boston Globe as "the Renaissance man of American music." From early collaborations with Kerouac and Sinatra, chosen by Leonard Bernstein as the New York Philharmonic's first composer in residence, Amram's artistry has taken him from concerts with Willie Nelson to jamming with the Massai tribe of Kenya. In *Upbeat: Nine Lives of a Musical Cat*, Amram recounts his extraordinary adventures in the many worlds of music he calls home, all told in a rollicking anecdotal style that makes you feel that you are at home around the world. He writes, "Everywhere I have been in the world, music transcends politics. As musicians, we were able to go beyond all that and just be fellow human beings." Threading through Amram's tale of music, hard work, respect, and friendship are unforgettable stories of fellow great artists-Dizzie Gillespie, Hunter S. Thompson, Janet Gaynor, George Plimpton, Lyle Lovett, Zoe Caldwell,

Differentiaalrekening. Er lijkt geen abstracter en wereldvreemder begrip te bestaan dan dat. En toch vertellen integralen, functies en afgeleiden ons veel meer over ons dagelijkse leven dan je ooit had kunnen vermoeden. Ben Orlin bewijst in dit meeslepende boek - gewapend met zijn aanstekelijke gevoel voor humor én zijn heerlijk simpele tekeningen - dat wiskunde écht overal is. Meer nog: het is een andere (en misschien wel betere) taal om de dingen waar we elke dag mee worstelen te bevatten. Met de hulp van Sherlock Holmes, een toren baklava én hondje Elvis toont dit onweerstaanbare boek hoe wiskunde een baken kan zijn in onzekere tijden.

In the bestselling tradition of Liar's Poker comes a devastatingly accurate and darkly hilarious behind-the-scenes look at the wonderful world of management consulting. Once upon a time in Corporate America there was a group of men and women who were paid huge fees to tell organizations what they were doing wrong and how to improve themselves. These men and women promised everything and delivered nothing, said they were experts when they were not, sometimes ruined careers, and at best, only wasted time, energy, and huge sums of money. They called themselves Management Consultants.... different as an innocent quest for a simpler, more spiritual life turns into a nightmare as two seekers, ordinary Americans, stumble across the path of the covert operations of two world powers and become unwilling spies. The story takes the reader through the nether world of the shadow government, all governments in fact, and the ruling classes. Accused by the woman he loves of using and betraying her, the damned hero of the story finds himself haunted by agents of the shadow government as he runs from Bora Bora seeking sanctuary off the gringo trail in Saudi Arabia. There, under the guidance of a top American lobbyist working for a Saudi billionaire, he assesses his options and composes an apology to his lost love. In the process he discovers the dirty truths of machinations behind the faade of democracy, equality, human rights and other myths. The cold, hard facts to back up the truths that hold this work together, the lavish descriptions of some of the most beautiful parts of the world, some of the most beautiful people, and the heros experience of the more spectacular aspects of civilization on the planet make for a rich, riveting story that holds ones interest through to the very end. Though primarily a fruit of extensive research, So Long America is also a novel that leaps off the page to entice and enthrall, and makes for a great deal of just plain enjoyment. NOTE: So Long America is a condensed version of the book Smarter than Snakes that Patrick wrote in response to requests by readers of his book The Train of the Fifth Era, who found the concepts and practices described in that book useful, but could not put them to good use, because habits are all but impossible to change. Smarter than Snakes Patrick presented his Noosomatic model that provides some answers in the form of non-psychoanalytic approaches to changing beliefs, habits and expectations. As a result, Smarter than Snakes reached 586 pages covering essentially two different areas of interest: personal growth and sociopolitical issues such as the deep roots of the Enron scandal in the context of recent geopolitical developments. Though sociopolitical awareness is part of personal growth, a number of readers, despondent about the systematic demolition of social justice in the United States, skimmed over the part on non-psychoanalytic approaches to get to the issues threatening their quality of life. Thus Patrick adapted and transformed the book into a shorter, separate book he called So Long America.

Sarah Bartlett was an Academy Award-nominated film star, an Emmy-nominated television actress and a Tony-nominated stage performer. She was also awarded her very own Varsity Jacket by the former director of the US Department of Music's Federal Hip Hop Administration. Appearing in over 20 films (including Hearts of Sorrow, Hearts of Celery; Perkwit's Secret Bramboráky (the fourth installment of the Blurg movies), and Shadow of the Fish), she also starred on stage in such shows as Howling at the Moon: The Dog Musical; Billiard Balls of Death; and Dreadful About Those Shock Treatments, Eh? There were other sides to Sarah, sides that she preferred people not know much about, sides involving Queen Victoria costumes, drinking way too many sodas at one sitting, and that whole ceramic curry serving bowl (from 2400 BCE) incident, which

she knew would greatly upset anthropologists all over the world. Here, for the first time, is the entire story of Sarah Bartlett's life, including her children, her husband, her boyfriend, her shoes, her Toyota Cadberry, and her dreams (some of them involving picture frames made of cheese; some of them involving the Poky Little Puppy; some of them involving Gloria Swanson wearing a miniskirt, a pair of orange flip-flops and a T-shirt with a picture of Andy Warhol and the phrase "Hey, look, I'm a can of soup" on it; some of them involving cats with lobster claws for legs; and some of them involving copious amounts of Ranch Dressing). The book also includes over 150 illustrations, and some of them actually make sense. If you're looking for a book that offers the best ratio of cost per laugh, look no further. Further? Farther? Wait, let's think this out. Uhh, farther has an a in it, and measure has an a in it, so farther relates to distance. So, yeah, further is the right adjective to use. The Seattle Drainpipe Gazette says, "Rigatoni is to books as cat hair is to dogs." The Farmington Inquirer calls Rigatoni "unobtrusive," "mildly trapezoidal," and "looks great under some flowerpots." In 1968, at the peak of the Vietnam War, centrist Congressman Melvin Laird (R-WI) agreed to serve as Richard Nixon's secretary of defense. It was not, Laird knew, a move likely to endear him to the American public—but as he later said, “Nixon couldn't find anybody else who wanted the damn job.” For the next four years, Laird deftly navigated the morass of the war he had inherited. Lampooned as a “missile head,” but decisive in crafting an exit strategy, he doggedly pursued his program of Vietnamization, initiating the withdrawal of U.S. military personnel and gradually ceding combat responsibilities to South Vietnam. In fighting to bring the troops home faster, pressing for more humane treatment of POWs, and helping to end the draft, Laird employed a powerful blend of disarming Midwestern candor and Washington savvy, as he sought a high moral road bent on Nixon's oft-stated (and politically instrumental) goal of peace with honor. The first book ever to focus on Laird's legacy, this authorized biography reveals his central and often unrecognized role in managing the crisis of national identity sparked by the Vietnam War—and the challenges, ethical and political, that confronted him along the way. Drawing on exclusive interviews with Laird, Henry Kissinger, Gerald Ford, and numerous others, author Dale Van Atta offers a

sympathetic portrait of a man striving for open government in an atmosphere fraught with secrecy. Van Atta illuminates the inner workings of high politics: Laird's behind-the-scenes sparring with Kissinger over policy, his decisions to ignore Nixon's wilder directives, his formative impact on arms control and health care, his key role in the selection of Ford for vice president, his frustration with the country's abandonment of Vietnamization, and, in later years, his unheeded warning to Donald Rumsfeld that "it's a helluva lot easier to get into a war than to get out of one." Have you ever imagined what it would be like if you could easily explain any concept to any prospect or client? And, explain it in such a way that it would be etched in their mind for months to come? For years, salespeople have used the back of a napkin to illustrate concepts and ideas. The reason? Using the back of the napkin requires making the even the most complex ideas easy to understand. Since the overwhelming majority of people have little understanding of either need for income protection or the products that provide the solutions, it is critical that agents, planners and advisors have a simple and effective way to communicate not only the importance of income protection, but also how the various products work. In this book, Jeff Kerns and Chris Carlson will reveal 50 ways you can use the back of a napkin to have a robust income protection conversation with an individual, a business owner or a corporate decision maker. If you become proficient in only one or two of these concepts, presenting income protection products will become so easy and your sales and commissions will skyrocket!

"My Diploma doesn't seem to work" was written by a recent high school grad who is passionate about helping others see through an established system and find their greater potential. What you will get out of reading this book is a shifted perspective and an abundance of self-awareness of the systematic structure that every student is obligated to go through. Whether the student becomes successful outside of school, comes down to how well they are self-aware of their surroundings and environment. Concepts that the educational curriculum leaves out will be addressed in the book through a series of vignettes and analysis along with recommendations for further knowledge. High school education is a subject that should no longer be looked over, by rather understanding there is a hole in the system. And the first step in solving a problem is realizing there is a problem. Hierover gaat Over leven en schrijven. Stephen King verhaalt over zijn jeugd, zijn puberjaren en zijn studietijd. Over de jaren na zijn doorbraak als schrijver, met Carrie, waarin succes en stress hem achtervolgen en de drank een uitvlucht biedt. Over het ongeluk dat hem in 1999 bijna het leven kost. En hoe hij er weer bovenop komt door zijn onweerstaanbare drang tot schrijven. Over wat hem inspireert en hoe hij te werk gaat. En natuurlijk laat King zijn licht schijnen over het belangrijkste wapen van elke schrijver: de pen die de auteur altijd in de aanslag moet hebben.
