Is there a Secret Space Program? Is there a mysterious Breakaway Civilisation? It has long been theorised about the existence of such a secret space program, a gigantic complex program to dominate the solar system with our own man-made spaceships. Spaceships that have been hidden from the public. The rumoured secret space program really does exist, the evidence of which lies in anomalous events in and Beyond the Earth. With over 40 years of bizarre events recorded by astronauts of unusual objects in orbit which are not our own and moving intelligently, we simply can't ignore this anymore. Astronaut Edgar Mitchell was very outspoken on these issues. However, there is a very clandestine element to the US space program, to monitor such UFO phenomenon.

David Childress, popular author and star of the History Channel's show Ancient Aliens, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He then examines Operation High-Jump with Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. He looks into the mysterious death of Admiral Byrd's son

when invited to a conference in Antarctica in Washington DC. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. Childress discusses the secret technology involved, anti-gravity propulsion technology, electro-gravity and free-energy, teleportation technology (as in the Philadelphia Project), and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Space Warden and Project Horizon. Does the US Navy have a secret space program that includes huge ships in orbit around the Earth and includes hundreds astronauts as crew for these vehicles? Includes an 8-page color section.

The connections between some of the greatest Conspiracies of all time and a secret government program to move to Mars to survive the coming global apocalypse.

US Air Force combat pilot Colonel Steve Richardson suffers a severe head injury when his F-35 crashes in the mountains of northern Afghanistan. With help too far away, death appears imminent. When an unusual craft appears and rescues him, Richardson is convinced he's hallucinating. It conveys him to a massive spaceship in orbit, where he is treated for his wounds. Once he recovers from his injury, Richardson is introduced to a covert space force called "Solar Warden." This secret space program utilizes futuristic technology to defend earth against a paranormal alien threat intent on destroying earth's inhabitants. When Richardson joins the program, he learns that his new comrades are losing the conflict. Can he learn to operate technology half a century ahead of what he has been trained for in time to be an asset? Or will he become just another casualty in an interstellar war?

In "Inside the Secret Space Program: Valiant Thor and the U.S. Air Force," former Air Force pilot Mel Noel, in a transcript from one of his rare public talks,

describes his interactions with a shadowy Air Force Colonel, who provided him with many insights about the secret space program and the U.S. government's alliance with the space people. In the Epilogue, publisher Gray Barker explains that the Colonel was actually the Venusian sage, Commander Valiant Thor, who occasionally taught courses to pilots and other U.S. military personnel.

PLANET? The Secret Space Program is among the most clandestine efforts ever undertaken and the questions are many as to who is responsible for its adaptation. Did the aliens establish colonies on the Lunar and Martian surfaces that we have seen and photographed despite attempts by NASA to eradicate them from photographic prints? Yes, the answers are of utmost importance despite the fact that the American public is being kept in the dark about a subject so intriguing, so controversial, that its mere utterance creates a frustrating clash among skeptics and those in opposition who claim they have access to undeniable proof. Indeed, are scientists and others traveling back and forth between colonies already established in space? Have their memories been erased so they have only dream-like recollections of such "adventures?" Even Jules Verne - and other early science fiction pioneers - might have hinted that secret societies had developed "advanced" technologies that enabled them to venture beyond our atmosphere. We create our own reality and science says it's true! The Laws of Attraction do exist and are explained in Layman's Terms by a NASA Scientist. US Air Force programs over 75 years ago! While living in America, a brilliant Chinese scientist is chosen to work on the US military's most classified technologies for over a decade. Suddenly, he is outlandishly targeted by the FBI, traded in a prisoner exchange by President Eisenhower and must return to China. This episode ultimately led to China's development of a military-run secret space program (SSP) using exotic electromagnetic propulsion systems now challenging US military dominance on Earth and in outer space. By 2030, China's economy will outgrow the US, and China plans to use its vast economic resources to project its presence deep into space in ways that will lead to increasing military confrontations with the newly created US Space Force. In this book, you will learn about: - The origins of China's SSP through the pioneering work of Dr. Tsien Hsue-shen who brought his advanced knowledge of SSPs in Nazi Germany and the US to China;- How ancient aviation technologies buried in China's mysterious pyramids are being secretly studied and reverse engineered;- Ancient artifacts from extraterrestrial contacts in remote regions of Tibet, the Gobi Desert, and the truth behind legends of Shamballa and Agartha;- China's participation in a United Nations run SSP designed to foster greater international cooperation in responding to the existence of extraterrestrial life;- The space weapons and electromagnetically propelled spacecraft secretly being developed and deployed by China;- The threat posed by Communist China's plan to use Artificial Intelligence to become the dominant superpower on Earth and in

Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA.

Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

Bill Tompkins was embedded in the world of secrecy as a teenager, when the Navy took his personal ship models out of a Hollywood department store because they showed the classified locations of the radars and gun emplacements. He was personally present at the "Battle of L.A." when a thousand rounds of ammo were fired at UFOs, and one of the Nordic craft may have selected him to be their rep in the evolving aerospace race. This book is a partial autobiography about his life to the beginning of the 1970s including some of his early work for TRW. Selected by the Navy prior to completing

high school to be authorized for research work, he regularly visited classified Naval facilities during WWII until he was discharged in 1946. After working at North American Aviation and Northrop, he was hired by Douglas Aircraft Company in 1950, and when they found out about his involvement in classified work, was given a job as a to create design solutions as a draftsman with a peripheral assignment to work in a "think tank." This work was partly controlled by the Navy personnel who used to work for James Forrestal, who was allegedly assassinated because he was going to publicly reveal what he knew about UFOs. Bill Tompkins was asked to conceive sketches of mile-long Naval interplanetary craft designs. Later, as he became involved in the conventional aspects of the Saturn Program that later became the Apollo launch vehicle, his insight to system engineering resulted in his offering some critical suggestions personally to Dr. Wernher von Braun about ensuring more reliable checkout using the missiles in their vertical position and also some very efficient launch control concepts adopted by both NASA and the Air Force. This story is peppered with very personal interactions with his co-workers and secretaries, some of whom the author believes to be Nordic aliens helping the "good guys" here on Earth. Towards the end of this volume of his autobiography, he sketches what he personally saw on TV when Armstrong was landing on the moon. Born in May 1923, Bill Tompkins is one of the few survivors of the "big war" who is still healthy, married to the same girl Mary, and is willing to tell his story about what he really did during his aerospace life in the 40s,

Reveals the Nazi-Reptilian infiltration of the U.S. government, their secret space program, and their slave colonies throughout the solar system • Details “Operation Paperclip,” which enabled Nazis and their Reptilian partners to infiltrate the U.S. military-industrial complex, including NASA and the CIA • Reveals their interstellar space ports in Antarctica and on Mars, their base on the Moon, and their alien technologies, including nano-technology, antigravity propulsion, mass mind control, and hyperdimensional teleportation capabilities • Shares testimonies from American and British “supersoldiers” who participated in the “20 and Back” age-regression programs, revealing advanced human technology and our Space Armada that constitutes a counter-balance to the Nazi Dark Fleet The Nazis did not really lose World War II. They made it appear that way in order to divert attention from the alliance between the Fourth Reich and the race of aliens known as the Reptilians--an ancient galactic civilization obsessed with conquest and domination. After the German surrender in 1945, the Nazi-Reptilian alliance infiltrated the U.S. military-industrial complex. Through “Operation Paperclip,” the Nazis and Reptilians removed their political opponents, such as the Kennedys, and moved into policy-making positions in post-war America, infiltrating aerospace companies, banking, media, and the U.S. government, including NASA and the CIA. But their real target was not the United States--it was the solar system. As Len Kasten reveals in startling

detail--including revelations of antigravity propulsion technology, alien techniques of mass mind control, and hyperdimensional teleportation capabilities--the Nazi-Reptilian alliance used their newfound power, wealth, and influence to launch a Secret Space Program with interstellar spaceports in Antarctica and on Mars as well as an eleven-story base of operations on the Moon. They commenced mining and manufacturing operations on Mars and Ceres, forming colonies there and elsewhere in the solar system. And, most shocking, they have used thousands of human slaves, easily transported in their spaceships, for both work and sexual exploitation.

Sharing testimonies from American and British "supersoldiers" who participated in the "20 and Back" age-regression programs, Kasten reveals the various forces inside and outside government that are resisting the Nazis and thwarting Reptilian attempts to achieve total dominance of the planet and the solar system. The U.S.-led Secret Space Program has its own fleet of spaceships, the Solar Warden Space Armada, which patrols the edges of the solar system and poses a growing threat to the Nazi Dark Fleet.

The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being moved into a new branch under the purview of the Air Force. This new branch is to be called "Space Force". The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US

“Space Sleuths of the Cold War” relates for the first time the inside story of the amateur spies who monitored the Soviet space program during the Cold War. It is written by many of those “space sleuths” themselves and chronicles the key moments in their discovery of hidden history. This book shows that dedicated observers were often better than professionals at interpreting that information coming out of the USSR during the dark days of the Cold War. This book takes a unique approach to the history of Soviet spaceflight – looking at the personal stories of some of the researchers as well as the space secrets the Soviets tried to keep hidden. The fascinating account often reads like a Cold War espionage novel. “Space Sleuths of the Cold War” includes an impressive list of contributors, such as: Editor Dominic Phelan, giving an overall history of the Cold War hunt for Soviet space secrets. Space writer Brian Harvey reveals his own personal search through official Soviet radio and magazines to find out what they were (and weren’t) revealing to the outside world at the height of the space race. Sven Grahn from Sweden details his own 40 year quest to understand what was happening on the other side of the Iron Curtain. Professional American historian Asif Siddiqi explores his own adventures in the once secret Russian archives – often seeing documents never before read by Westerners. Dutch cosmonaut researcher Bert Vis provides an inside account of the Yuri Gagarin training center in Moscow. Belgian researcher Bart Hendrickx’s details his important translation of the 1960s’ diaries of cosmonaut team leader General

Kamanin. Pioneer space sleuth James Oberg's shares his memories of his own notable 'scoops.' Paris-based writer Christian Lardier recounts the efforts of French space sleuths – whose work was frequently overlooked in the USA and Britain because of the language barrier. Antarctica is a land about to be exposed over its well-guarded secrets and ancient hidden mysteries ... In 1955, as a result of a secret agreement reached between the Eisenhower Administration and a German breakaway group in Antarctica, a transnational corporate space program began to emerge. The secret infusion of personnel and resources from US military contractors into Antarctica allowed this transnational corporate program to steadily grow into a major space power, which would eventually surpass and eclipse the secret space programs run by the US Navy, Air Force, and the classified space programs of other nations. Whistleblower claims substantiate that many of the classified programs conducted there violate the 1961 Antarctic Treaty, and constitute crimes against humanity due to the abuse of a captive slave labor force. Dr. Michael Salla daringly exposes the major corporations involved in these illegal programs, and how the truth is hidden from company shareholders and the public. Today, Antarctica's secrets are slowly being revealed by the increasing volcanic activity that is melting the massive ice shelves, exposing ancient artifacts and crashed extraterrestrial spacecraft. Full disclosure of Antarctica's history, and current events involving multiple space programs and transnational corporations, will vitally aid in transforming our planet, and prepare

This book is the story of my journey down the rabbit hole to discover the truth behind the Secret Space Program, ETs, UFOs and conspiracies of all kinds. To research this book, I interviewed about 1000 individuals worldwide from high level military (both retired and current), intelligence agents from the United States and other countries, law enforcement, physicists, scientists of many kinds, former employees of NSA, NASA, CIA, NRO, and aerospace corporations, abductees, contactees, self-proclaimed super soldiers (enhanced physically and/or mentally and psychically), and the list goes on. Some have gone on the record and been filmed in person and via Youtube and others have stayed in deep black and are known as secret sources. This book is a distillation of the information provided in those interviews combined with my own experiences and investigations as an investigative journalist and interviewer. It is an exploration into the nature of consciousness and the future of humanity.

On September 5, 2019, a Space Futures conference was hosted by the US Air Force Space Command which analyzed evolving conditions in space up to 2060. Eight possible negative and positive futures were identified, the optimal being a "Star Trek Future" which would involve countries with space programs forming a multinational alliance collaborating in civil, military and commercial affairs in space. Today, the emergence of Space Force, signing of the Artemis Accords, and creation of NATO's Space Center promise to be the fulcrum for ushering in this Star Trek scenario. Such a future is not assured however due to the existence of uncooperative rival space programs of China and Russia. Could one or both launch a Space Pearl Harbor that could devastate the entire US GPS system, as predicted 20 years ago by a blue-ribbon Space Commission? Also, there is the wildcard of numerous secret space programs possessing reverse-engineered antigravity craft. Their existence is not officially acknowledged by major nations, but their space activities pose major challenges to a Star Trek future. Will Space Force be able to integrate the US based secret space programs or will these and their foreign counterparts be obstacles to its future operations? The ultimate question is how the existence of extraterrestrial life will factor into

the activities of Space Force and its allies space forces. Will extraterrestrial visitors respond in a benign or a belligerent way to Space Force setting up a multinational space coalition to militarily project humanity's presence far into our solar system and beyond? How will a future "Starfleet" with Space Force and NATO at its core have to deal with rogue secret space programs and alien life operating throughout our solar system? The US Navy secret space program reportedly has space battle groups built with the assistance of friendly human looking 'Nordic' extraterrestrials. Under what conditions will the Navy surrender authority over them to combine with Space Force? Space Force Our Star Trek Future provides answers to these and many other critical questions about humanity's bold emergence as an interplanetary space power.

This book is designed for publication straight after the launch of China's first manned spacecraft. The precursor mission, Shenzhou, flew unmanned in November 1999, in line with the predictions of *The Chinese Space Programme: From Conception to Future Capabilities* (1998) the first edition of this retitled book. *China's Space Program: From Conception to Manned Spaceflight* builds on the 1998 title to take account of the first manned flight in October 2003. It also brings the reader up to date with other developments in the Chinese space programme over from 1998 to the manned flight and looks forward to China's future plans and ambitions. *The Other (Secret) Space Program* presents compelling evidence in support of the existence of a

covert space program, operating outside of the mainstream of government and NASA and funded through a black operations budget. It describes the types of anti-gravity spacecraft, weapons systems involved, along with operational details and activities. Eyewitness accounts and testimonials from some of the most credible sources in the aerospace industry, scientific, military and intelligence community, along with photographic evidence provide supporting proof. The Other (Secret) Space Program examines the global "shadow government" that is behind this "black world". You will be shocked to learn that members of this elite program have been traveling to the moon, Mars, and other planets in our Solar System since the early 1960s. Find out the reason for the establishment of this secret space program, how it has been able to operate without congressional oversight for more than 50 years, and its ultimate purpose.

Scott Ourecky wanted to fly—he never dreamed he'd end up in a secret military space program. The year is 1968: The Cold War is far from over, nuclear annihilation is always only a heartbeat away.

America is racing the Soviet Union to land men on the Moon, a war is raging, and a pivotal presidential election looms on the horizon. A child of the early space age, Lieutenant Scott Ourecky joined the Air Force with aspirations of going to flight school. A brilliant engineer, he repeatedly fails the aptitude test

to become a pilot but is selected to work on a highly classified military space program—the innocuously named Aerospace Support Project—in which Air Force astronauts are slated to fly missions to intercept and destroy suspect Soviet satellites. When one of the astronauts in training abruptly falls out of the project, Ourecky is asked to fill in for the two-man simulated missions and survival training only, serving with a headstrong and abrasive test pilot, Major Drew Carson, until another astronaut can be assigned. By far the most proficient pilot assigned to the project, Carson has a dangerous propensity to engage in “pick-up” dog fighting sessions while on cross-country training flights. And although Ourecky was only a temporary “place holder,” not destined to fly in space, he soon finds himself much more involved than he ever anticipated—and in deepest peril. Based on a real secret space program, Blue Gemini combines high-altitude action with edge-of-your-seat storytelling to create a modern Cold War thriller. Space expert Mike Bara looks at the secret space program of the American military that has been going on for over 60 years. Bara looks the Army Ballistic Missile Agency's proposed Project Horizon which was a study to determine the feasibility of constructing a scientific / military base on the Moon.

On June 8, 1959, a group at the Army Ballistic Missile Agency (ABMA) produced for the U.S. Department of the Army a report entitled Project Horizon, A U.S. Army Study for the Establishment of a Lunar Military Outpost. The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Wernher von Braun, head of ABMA, appointed Heinz-Hermann Koelle to head the project team at Redstone Arsenal. Their plans called for 147 early Saturn A-class rocket launches to loft spacecraft components for assembly in low Earth orbit at a spent-tank space station. A lunar landing-and-return vehicle would have shuttled up to 16 astronauts at a time to the base and back. While officially Project Horizon was scrapped by the military, or was it? Bara looks into the secret space program, the possibility of secret bases on the Moon and many rumors surrounding the military's secret

projects in space. The book will ask and answer many questions. Was Wernher von Braun involved in the Roswell crash investigation? Why did he suddenly become fascinated with highly advanced theoretical physics propulsion systems during the Apollo years, and why did all of this public research suddenly "go black" in the early 1960s? Did NASA and the Pentagon know and expect to find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the TV cameras in order to hide their explorations of one of these bases? What was the top secret "Chapel Bell" experiment on Apollo 16? Has teleportation been developed from captured alien technology and used to transport humans to secret NASA/DOD bases on Mars? Do space shuttle videos taken in the 1990s show proof of a highly advanced secret US space fleet? Does hacker Gary Mackinnon's discovery of defense department documents identifying "non-terrestrial officers" serving in space mean that the US has secret space platforms designed to fight a war with an alien race? And, have these secret military space platforms been photographed by civilian observers here on Earth?

There are areas of science that are off limits to the public and are not taught in our universities. The science and technology of anti-gravity and extracting energy from space itself was developed in the late 19th and early 20th century by scientists and

experimenters like John Worrell Keely, Nicola Tesla, and Thomas Townsend Brown. But today, this science is purposely overlooked and regulated to the world of "Black Projects." The publicly acknowledged space program is but a "smoke screen" to hide a secret space program, overseen by NSA, the CIA and a secret branch of the U.N., that is so secret that even some U.S. Presidents and Congressional oversight committees are not even aware of it.

Secret Science and the Secret Space Program will document and provide an in depth look at this secret science and technology and the secret space program that has already colonized Mars, built bases on our Moon and other planet's moons and given us the ability to travel to the stars. "Black" science is so far ahead of acknowledged science that this book will seem like science fiction to many who read it.

THIS BOOK CONTAINS SHOCKING PHOTOGRAPHIC EVIDENCE THAT WE HAVE ALREADY TRAVELED TO MARS AND SET UP SECRET BASES THERE! THANKS TO TECHNOLOGY DEVELOPED BY "THE WIZARD" NIKOLA TESLA, MARS IS NO LONGER THE MYSTERY PLANET! WHAT IS THE TRUTH ABOUT A SUPPOSED SECRET SPACE PROGRAM OUTSIDE THE JURISDICTION OF NASA? For centuries astronomers have peered through their telescopes for signs of life on the Red Planet. Some thought they saw canals or strange lights that

roamed the surface. Jules Verne -- and other early pioneers of science fiction -- wrote what were then considered to be far-fetched stories about the exploration of the moon and the planet Mars. They based their classic literary works not just on their own fertile imaginations, but on "wild rumors" circulating that such voyages had already been made, accomplished by a group of scientists -- all members of the same secret lodge or society that had tapped into an unknown power source, using it to facilitate the birth of flight, years before the Wright Brothers were able to leave the ground. Contacted by this secret fraternal order, Nikola Tesla is said to have furthered their cause, coming up with his own method of interplanetary travel, soon to be stolen and used by Hitler and perhaps, the New World Order! Here is proof that scientists and engineers regularly travel back and forth between colonies that have been set up on the Martian surface and deep underground. This is all part of a super-secret space program that the public has been told nothing about. "Inside the Secret Space Programs" is a continuation of two previous works by the Author, Herbert G. Dorsey III - "Secret Science and the Secret Space Program," and "The Covert Colonization of Our Solar System." The previous two books, document the progress of antigravity propulsion, from the German Vrill Society and their Jensietsfugmaschine [otherworld flying machine], in 1923 and Thomas Townsend Brown's experiments with gravitators at about the same time, to the present black projects inside companies like Lockheed

Martin, Northrup Grumman, Boeing Aerospace, and North American, which create antigravity craft for the Air Force, Navy and some private corporations like the secretive Interplanetary Corporate Conglomerate (ICC). As more information becomes available from persons, like Corey Goode, William Tompkins, and Tony Rodrigues and others who worked in the secret space programs is revealed, a better picture of what goes on inside these programs is made possible. Sufficient new information has been revealed to warrant a new book on the subject. And remarkably, the new information, not only to a large degree, reinforces the information revealed in the previous two books, but also adds important information on subjects like where these kilometers long space craft are being built on this planet and how is it being financed. If you are interested in learning more about is really going on out in space, the covert colonizing, militarization, manufacturing and mining of Mars, other planets, moons and asteroids in our Solar system and even in other star systems, or you are curious about the technology used and how it works, this would be an excellent book to study.

Farrell examines how the Nazi survivors in South America are using advanced technology to create secret space programs to control the planet Earth. He explains how their use of UFOs has helped create a vast, and almost complete hidden, system of finance within the world which is funding covert operations both on this planet and off. From engineering earthquakes to 9/11, these technologies have had profound repercussions for the world.

A deep dive into UFO cover-ups by the deep state. A wake-up call to what has and is being hidden. : “The leading proponent of the theory that the US government knows more than it’s saying about UFOs.” —Globe and Mail (Toronto) The deep state exists without a doubt and it has perpetrated a

consistent mission to hide, obscure, and delete information as it pertains to UFOs and alien interactions. Should unelected officials be making the decisions on disclosure? Has a secret space program been developing technologies not of this world for decades? What have the U.S. Air Force and other agencies been hiding? This and more is explored in UFOs and the Deep State. UFOs and the Deep State will touch upon: Air Force Office of Special Investigations and interviews with UFO witnesses The CIA-sponsored Robertson Panel to suppress UFO research and the campaign to move Project Blue Book from the Advanced Technical Intelligence Center (ATIC) to Air Force Public Affairs Exclusive interviews with Paul Bennewitz and the military personnel involved in the Rendlesham Forest UFO incident Project Moon Dust, run by the Air Force and Department of State An examination of the Secret Space Program and other black projects Author Kevin D. Randle connects the dots at last to reveal the overlooked, including how the deep state conducted interrogations that involved various techniques using chemicals and other mind-altering techniques. The evidence is clear. The unelected officials in the deep state have been obscuring UFO incidents and intimidating those who wish to speak out. Let the truth rein free!

"Established in 1958, NASA, the National Aeronautics and Space Administration, has been at the forefront of efforts to explore outer space, resulting in the Apollo missions to the moon, the Skylab space station, and the space shuttle. But beyond these very public explorations, author Nick Redfern seeks to display what goes on behind the scenes at NASA, ascertaining whether there is any truth to rumors and speculation about everything from a possible UFO crash at Roswell, New Mexico in 1947 to whether or not the moon landings themselves were faked."--

an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the Germans' advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a -Disseminator of Naval Research and Information-, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as -Nordics-. An extensive number of documents substantiate Tompkins' claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980's. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of President Donald Trump may just be the wild card they needed to reveal ... everything!

How does one go about organizing something as complicated as a strategic-missile or space-exploration program? Stephen B. Johnson here explores the answer—systems management—in a groundbreaking study that involves Air Force planners, scientists, technical specialists, and, eventually, bureaucrats. Taking a comparative approach, Johnson focuses on the theory, or intellectual history, of "systems engineering" as such, its origins in the Air Force's Cold War ICBM efforts, and its migration to not only NASA but the European Space Agency. Exploring the history and

politics of aerospace development and weapons procurement, Johnson examines how scientists and engineers created the systems management process to coordinate large-scale technology development, and how managers and military officers gained control of that process. "Those funding the race demanded results," Johnson explains. "In response, development organizations created what few expected and what even fewer wanted—a bureaucracy for innovation. To begin to understand this apparent contradiction in terms, we must first understand the exacting nature of space technologies and the concerns of those who create them."

Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling *Covert Wars and Breakaway Civilizations*, part of his book series on suppressed technology, Nazi survival, secret finance and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell delves deeper into the breakaway civilizations created by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the "end" of World War II and shows how they created a huge system of hidden finance with the involvement of leading financial institutions around the world. He exposes the secret space programs used by the breakaway civilizations and reveals the clash of civilizations—a virtual secret war going on around us. He investigates the current space secrecy that involves UFOs, suppressed technologies and the hidden oligarchs who control planet Earth for their own gain and profit. Farrell probes the mystery surrounding Dr. Kurt Debus and his links to NASA and Werner von Braun. He uncovers the covert operations of Richard Bissell, the flying saucer designs of

Alfred Loedding and T. Townsend Brown, and strange activity on Mars involving UFOs. He explains the magneto-hydrodynamic anti-gravity drives that would easily power such craft. He includes a continued discussion of “emulational” technologies (those that can imitate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of “full spectrum dominance” and the culture of “plausible deniability.” Farrell includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret oligarchies and super technology.
