This book correlates English-speaking children's brain development and acquisition of language with the linguistic input that comes from children's books. Drawing from the most current research on the developing brain, the author demonstrates how language acquisition is exclusively interactive, and highlights the benefit that accrues when that interaction includes the exploratory language play found in early childhood literature. Through discussions of specific domains of grammar, the relation of these domains to children's literature through scaffolding, and the resultant linguistic and cognitive advantages for the child, this volume offers an innovative approach to early brain maturation.

Uses personal classroom experiences to present strategies for teaching phonics in a holistic reading and writing program

Who are we? What are poems and stories? Can their messages touch us so deeply that we are transformed like The Ugly Duckling transforms into the magnificent swan it was all along? These are some of the questions that are at the heart of this book of poems, prose pieces and letters from two decades of Diana's writing life. It is a collection of work filled with imagery, insights, intimacy and emotion. From Pen (elope) with love takes us to the centre of the human heart and invites us to dance with our humanness, our vulnerabilities, our passions, our childlike wonder and delight, all the while, heading in the direction of our true home. This book will speak to anyone who is on the path of self-discovery and spiritual awakening. It is also for fellow writers and poets seeking nourishment, encouragement, and company on the journey.

This wonderful resource from two authors with an infectious enthusiasm for children's literature will help readers select and share quality books for and with young children.

Specifically focused on infants through the third grade, Sharing the Journey contains descriptive book annotations, instructive commentary, and creative teaching activities tailored for those important years. Extensive book lists throughout will help readers build a library of quality children's literature. Books representing other cultures are included to help celebrate diversity as well as cultural connection. Genre chapters include poetry, fantasy, and realistic and historical fiction. A chapter on informational books demonstrates how young children can be introduced to, and learn to enjoy, nonfiction.

A household of unusual creatures help beginning readers recognize common "household" words.

Problem-posing with Multicultural Children's Literature documents an ongoing qualitative study of early childhood teachers using a problem-posing method with multicultural children's literature. Grounded in critical theory, the text has been written for use in upper-division undergraduate- and graduate-level classes that study infants, toddlers, preschoolers, kindergartners, and students in grades one and two. The book uses examples from both early childhood and elementary teacher education students, and practicing teachers' work as they study critical literacy, multicultural children's literature, and integrated early childhood curriculum. This structure provides insights into guided research in child development, cultural and linguistic contexts, learning theory, strategies for teaching young children, family advocacy, and all related aspects of early childhood teacher education as the learners move through the activities.

In the late 1950s, Ted Geisel took on the challenge of creating a book using only 250 unique first-grade words, something that aspiring readers would have both the ability and the desire to read. The result was an unlikely children's classic, The Cat in the Hat. But Geisel didn't stop there. Using The Cat in the Hat as a template, he teamed with Helen Geisel and Phyllis Cerf to create Beginner Books, a whole new category of readers that combined research-based literacy practices with the logical insanity of Dr. Seuss. The books were an enormous success, giving the world such authors and illustrators as P. D. Eastman, Roy McKie, and Stan and Jan Berenstain, and beloved bestsellers such as Are You My Mother?; Go, Dog. Go!; Put Me in the Zoo; and Green Eggs and Ham. The story of Beginner Books—and Ted Geisel's role as "president, policymaker, and editor" of the line for thirty years—has been told briefly in various biographies of Dr. Seuss, but I Can Read It All by Myself: The Beginner Books Story presents it in full detail for the first time. Drawn from archival research and dozens of brand-new interviews, I Can Read It All by Myself explores the origins, philosophies, and operations of Beginner Books from The Cat in the Hat in 1957 to 2019's A Skunk in My Bunk, and reveals the often-fascinating lives of the writers and illustrators who created them.

Theodor Seuss Geisel—known worldwide as the beloved children's author Dr. Seuss—produced a body of work that spans more than 70 years. Though most often associated with children's books, he frequently contributed cartoons and humorous essays to popular magazines, produced effective and memorable advertising campaigns ("Quick, Henry, the Flit!"), and won Oscars and Emmys for motion picture productions, animated shorts, and features. As founder and president of Beginner Books, his influence on children's book publishing was revolutionary, especially in the field of elementary readers. Geisel's prolific career—he wrote or contributed illustrations to more than 75 books, most of which

have been reprinted repeatedly and translated worldwide—and his predilection for made-up creatures make this joint bibliography and iconography especially useful to readers and researchers. The exhaustive bibliography is arranged chronologically, providing full bibliographic information, including translations as they appear, reissue information, and descriptions of the binding. The iconography links more than 900 fictional names, places and terms to the works in which they appear. For the reader seeking a first edition of *Quomodo Invidiosulus Nomine Grinchus Christi Natalem Abrogaverit* (How the Grinch Stole Christmas! translated into Latin) or hoping to identify “abrasion-contusions” (race cars in *If I Ran the Circus!*), this work promises as much discovery as a walk down Mulberry Street.

Maggie Nelson provides the first extended consideration of the roles played by women in and around the New York School of poets, from the 1950s to the present, and offers unprecedented analyses of the work of Barbara Guest, Bernadette Mayer, Alice Notley, Eileen Myles, and abstract painter Joan Mitchell as well as a reconsideration of the work of many male New York School writers and artists from a feminist perspective.

There are many books on Christian education, but few consider pedagogy with a biblical focus on formation, and a grounding in varied related disciplines. This book seeks to recapture the term pedagogy and place it at the center of the teacher's role—not as a pseudonym for other things, but as the critical foundation for the orchestration of classroom life. This is a view of pedagogy that accepts that children come to classrooms as inhabitants of multiple and varied communities. Some are known and shared with teachers, but many are not. Children cannot be left to find their way in the world, for as they encounter competing and contradictory worlds, their hopes, dreams, and intentions are shaped. Teachers play a key role in students' formation by “shaping” classroom life, for all of life is used by God to reveal himself. The things taught, the priorities set and activities planned, the experiences structured and books shared—indeed, everything in and outside school acts upon and shapes our students. Pedagogy is the vehicle for shaping the life of the school. Learning requires more than subject content and good teaching. The central task of teachers is the development of a pedagogy that shapes “life.” This book offers challenge and guidance as teachers engage in this noble task.

The definitive, fascinating, all-reaching biography of Dr. Seuss Dr. Seuss is a classic American icon. Whimsical and wonderful, his work has defined our childhoods and the childhoods of our own children. The silly, simple rhymes are a bottomless well of magic, his illustrations timeless favorites because, quite simply, he makes us laugh. The Grinch, the Cat in the Hat, Horton, and so many more, are his troupe of beloved, and uniquely Seussian, creations. Theodor Geisel, however, had a second, more radical side. It is there that the allure and fasciation of his Dr. Seuss alter ego begins. He had a successful career as an advertising man and then as a political cartoonist, his personal convictions appearing, not always subtly, throughout his books—remember the environmentalist of *The Lorax*? Geisel was a complicated man on an important mission. He introduced generations to the wonders of reading while teaching young people about empathy and how to treat others well. Agonizing over word choices and rhymes, touching up drawings sometimes for years, he upheld a rigorous standard of perfection for his work. Geisel took his responsibility as a writer for children seriously, talking down to no reader, no matter how small. And with classics like *Green Eggs and Ham*, and *One Fish Two Fish Red Fish Blue Fish*, Geisel delighted them while they learned. Suddenly, reading became fun. Coming right off the heels of George Lucas and bestselling Jim Henson, Brian Jay Jones is quickly developing a reputation as a master biographer of the creative geniuses of our time.

Philip Nel takes a fascinating look into the key aspects of Seuss's career - his poetry, politics, art, marketing, and place in the popular imagination." "Nel argues convincingly that Dr. Seuss is one of the most influential poets in America. His nonsense verse, like that of Lewis Carroll and Edward Lear, has changed language itself, giving us new words like "nerd." And Seuss's famously loopy artistic style - what Nel terms an "energetic cartoon surrealism" - has been equally important, inspiring artists like filmmaker Tim Burton and illustrator Lane Smith. --from back cover
