This important study makes a convincing case for its thesis that the dramatic form of Shakespeare's plays corresponds to that of a natural system evolving to a more complex state while undergoing symmetry breaking. Drawing upon such key concepts of chaos theory as "global agency and self-similarity," the book constructs a methodology which illuminates many problematic aspects of agency in the selected comedies, tragedies, and histories it examines. Each of these genres is shown to reflect the paradoxical dynamics of a chaotic system. This fresh -systems perspective- offers a serious challenge to the structuralist assumptions underlying many current literary approaches."

A provocative study in contemporary sociology and the first full-scale account of Roman Catholic fundamentalism, *The Smoke of Satan* offers new insight into the Catholic Church and explores the nature of religion in society.

This volume of essays centers on the theme of doing Christian theology in the present postmodern context, a consistent theme of the teaching of John D. Castelein. The work will celebrate and honor John's years of service by representing reflections of his teaching in the thought of his students and colleagues. The essays range over such topics as theological reflections on the postmodern philosophical themes, the relations between Christian theology and culture, the contributions of philosophical hermeneutics for Christian theology, and the challenges of engaging in ministry in a postmodern context. The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries, be they in a college setting or in a local church.

To take a journey, travelers must know where they are, where they are going, and how to get there. Moral theology examines the same three truths. The Christian Moral Life is a handbook for moral theology that uses the theme of a journey to explain its key ethical concepts. First, humans begin with their creation in the image of God. Secondly, the goal of the journey is explained as a loving union with God, to achieve a share in his eternal happiness. Third and finally, the majority of the book examines how to attain this goal. Within the journey motif, the book covers the moral principles essential for attaining true happiness. Based on an examination of the moral methodology in the bible, the book discusses the importance of participating in divine nature through grace in order to attain eternal happiness. It further notes the role of law, virtue, and the gifts of the Holy Spirit in guiding and transforming humans into friends of God, who participate in his happiness. Following this section on moral theology in general, the book analyzes the individual virtues to give more concrete guidance. The entire project builds upon the insights of great Christian thinkers, such as Thomas Aquinas, Thérèse of Lisieux, and John Paul II, to uncover the moral wisdom in scripture and to show people how to be truly happy both in this life and the next. This book will be of great interest to undergraduate students of moral theology, priests and seminarians, parents and teachers seeking to raise and to form happy children, and anyone interested in discovering the meaning of true happiness.

Terayama Shūji (1935–1983) was one of postwar Japan's most gifted and controversial playwrights/directors. Since his death more than twenty years ago, he has been transformed into a cult hero in Japan. Despite this notoriety, *Unspeakable Acts* is the first book in any language to analyze the theater of Terayama in depth. It interrogates postwar Japanese culture and theater through the creative work of this unique yet emblematic artist. By situating Terayama in his historical milieu and by using tools derived from Japanese and Western theories of psychoanalysis, anthropology, sociology, gender studies, and aesthetics, Carol Fisher Sorgenfrei has woven a sophisticated and provocative study.

From the horrific to the heroic, cinematic werewolves are metaphors for our savage nature, symbolizing the secret, bestial side of humanity that hides beneath our civilized veneer. Examining acknowledged classics like *The Wolf Man* (1941) and *The Howling* (1981), as well as overlooked gems like *Dog Soldiers* (2011), this comprehensive filmography covers the highs and lows of the genre. Information is provided on production, cast and filmmakers, along with critical discussion of the tropes and underlying themes that make the werewolf a terrifying but fascinating figure.

A New York Times Notable Book *A New York Times Book Review Editors' Choice* *A Publishers Weekly Top Ten Book of the Year* Binyavanga Wainaina tumbled through his middle-class Kenyan childhood out of kilter with the world around him. This world came to him as a chaos of loud and colorful sounds: the hair dryers at his mother's beauty parlor, black mamba bicycle bells, mechanics in Nairobi, the music of Michael Jackson—all punctuated by the infectious laughter of his brother and sister, Jimmy and Ciru. He could fall in with their patterns, but it would take him a while to carve out his own. In this vivid and compelling debut memoir, Wainaina takes us through his school days, his mother's religious period, his failed attempt to study in South Africa as a computer programmer, a moving family reunion in Uganda, and his travels around Kenya. The landscape in front of him always claims his main attention, but he also evokes the shifting political scene that unsettles his views on family, tribe, and nationhood. Throughout, reading is his refuge and his solace. And when, in 2002, a writing prize comes through, the door is opened for him to pursue the career that perhaps had been beckoning all along. A series of fascinating international reporting assignments follow. Finally he circles back to a Kenya in the throes of postelection violence and finds he is not the only one questioning the old certainties. Resolutely avoiding stereotype and cliché, Wainaina paints every scene in *One Day I Will Write About This Place* with a highly distinctive and hugely memorable brush.

This third edition of stories from the Caine Prize for African Writing includes works by writers from Nigeria, Kenya, Zimbabwe and South Africa, most of whom have never before been published.

Essays examine the wisdom of the ancients, east and west, and the essential unity of their vision of truth.

Focusing on orally transmitted cultural forms in the Caribbean, this book reaffirms the importance of myth and symbol in folk consciousness as a mode of imaginative conceptualization. Paul A. Griffith cross-references Kamau Brathwaite and Derek Walcott's postcolonial debates with issues at seminal sites where Caribbean imaginary insurgencies took root. This book demonstrates the ways residually oral forms distilled history, society, and culture to cleverly resist aggressions authored through colonialist presumptions. In an analysis of the archetypal patterns in the oral tradition - both literary and nonliterary, this impressive book gives insight into the way in which people think about the world and represent themselves in it.

This book presents a philosophical rethinking of the meaning and nature of spiritual discipline. It offers a new way of describing and justifying practices like praying, meditating, fasting, and yoga, and it provides an innovative case for their contemporary importance. Spiritual discipline is especially effective at combatting Pascalian diversion, the pursuit of activities that occupy the mind just enough to avoid thinking about important things; and Nietzschean decadence, the proclivity for extirpating instinctive drives instead of satisfying or sublimating them. In addition to overcoming diversion and decadence in contemporary consumerist culture, VanNess recommends spiritual discipline as a means of political resistance to powerful institutions which seek to exercise social control in democratic societies by promulgating addictive patterns of consumption. Finally, he argues that regimens of spiritual discipline can serve healthful and liberating purposes, and generally promote fullness of life, only insofar as they are shaped by an ethos of intellectual criticism and aesthetic experimentation.

Verse-by-verse explanations with a literal translation Shouldn't a Bible commentary clarify what God's Word actually says? Going beyond questions of authorship, date, sources, and historicity, respected linguist and teacher Gundry offers a one-volume exposition of the New Testament that focuses on what is most useful for preaching, teaching, and individual study--what the biblical text really means. Providing interpretive observations in a "breezy" style that's easy to read and adaptable for oral use in pulpit or classroom presentations, Gundry directs his book to an evangelical audience. His crisp translation of the New Testament inserts various phrasings of passages in brackets, allowing for smooth transition from original text to alternative and contemporary readings. SAMPLE TEXT OF TRANSLATION JOHN'S PREDICTING A MORE POWERFUL BAPTIZER THAN HE (Mark 1:1-8) 1:1-3: The beginning of the gospel of Jesus Christ, God's Son, according as it's written in Isaiah the prophet, "Behold, I'm sending my messenger before your face [= ahead of you], who'll pave your way [= the road you'll travel], [the messenger who is] the voice of one crying out in the wilderness, 'Prepare the way of the Lord. Make his paths straight.'" Pastors, Sunday school teachers, small-group leaders, and laypeople will welcome Gundry's non-technical explanations and clarifications. And Bible students at all levels will appreciate his sparkling interpretations of the NT Scriptures. A trustworthy guide for anybody wanting to delve deeper into God's Word. SAMPLE TEXT OF COMMENTS "Gospel" means "good news." Jews would associate this good news with Isaiah 52:7. Non-Jews would think of the good news of an emperor's accession to power, birthday, visit to a city, military victory, or bringing of prosperity to the empire. But Mark's good news has to do with the salvation and victory brought by Jesus over evil in all its demonic and physical forms. "The gospel of Jesus Christ" therefore means "the gospel about Jesus Christ" and refers to a proclaimed message ("the voice of one crying out"), not a book (though because books like Mark's contain that proclaimed message, the term came to refer to those books in the capitalized form of "Gospels" to distinguish them from the message, kept uncapitalized as "gospel").

2014: The Year of Action By: Bepty Antoine 2014: The Year of Action is a broad-ranging compendium of the events, conflicts, and progress recently seen throughout the world. Written from the perspective of an immigrant with a particular heart for the poor, this unique tome focuses on the influential work of two world leaders, United States President Barack Obama and Pope Francis. Bepty Antoine utilizes historical and cultural knowledge to frame events within a larger context, presenting the actions both men have taken to further social justice issues, often connecting these concerns to environmental crises. Drawing on the tenants of their Christian faith, both the President and the Pope have sought to defend immigrants, refugees, and the global poor, and their efforts, often in the face of extreme opposition, are carefully detailed and celebrated. 2014: The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture.
