Introduces trains, discussing how they work, the history of railroad transportation, and working on a train.

Although it might be loosely classified as a memoir, no one has ever written anything quite like this. It describes middle-class childhood in the 1930's through the relationships between five boys, and it breathes of foolishness, fantasy, improbability, and charm. A snake suddenly appears out of a hot air register and disrupts a bridge party, a young violinist forgets how to end his solo at a commencement and plays on (and on), a boat on wheels vibrates itself apart and a mysterious bullhead catfish substitutes for Moby Dick, then vanishes without drowning anybody. The author, a former writer at Time Incorporated who became a distinguished historian, has written an enchanting book, its chapters organized topically rather than sequentially--each devoted to a subject like cowboying, radio serials, wheels, indoor and outdoor games, love of steam locomotives, and discovery of sex. The final chapter suggests that the end of childhood coincides with an awareness that life can be wistful and poignant. And it concludes that buyouts and proto-globalization helped bring an end to that civic and regional integrity which underlay American life before television.

Yes, your child can tell time! Use this workbook to train your child read time. The ability to read time is very important because it is the culmination of your child's skip counting skills. Justin loves locomotives. Now can he, Squidgy, and Olive pilot a train to deliver valuable cargo? Official book adaptation from the popular animated TV show. All aboard! Like kids everywhere, Justin loves playing with trains. Now he and his pal Squidgy imagine themselves behind the wheel of a classic steam train. Plus their friend Olive has important cargo for them to deliver! Wooo hooo! Learning how a tank engine works is exciting. But they discover it's not easy getting through the railroad tracks in the Canadian wilderness. Will their barrel of delicious maple syrup make it to Flap Jack Falls in time for the popular Pancake Festival? Never give up! Kids and parents appreciate how the Justin Time TV series highlights the importance of creativity. Teachers and librarians like how Justin travels around the world and into different eras to learn about history, social interaction, and life lessons. Global cultures inspire co-creator Brandon James Scott to stoke kids' imaginations to broaden their horizons and learn about new animals, customs, and places. Scott illustrated all new original art for this book adaptation.

This book series is based on episodes from a popular animated television show, which airs on Netflix and PBS Sprout in the USA, NBC Kids on Saturday mornings, and on Disney Junior channels in Canada, Australia, New Zealand, Germany and Italy. The series also airs on Discovery Kids Latin America, Discovery Familia in the U.S., Finland's YLE, Israel's Hop!, South Korea, and Super RTL (SRTL) Germany. -

- "As the Justin Time TV series gains popularity...this series of books is sure to appeal to preschoolers...Boys, in particular, will enjoy following Justin to different places and times around the world on his magical steam engine. Highly Recommended." - CM magazine

"Remember as a kid when possibilities seemed endless and a cardboard box could transform into a fort, a tank, a mountain, or a Super Mario pipe?... Justin Time is a new animated program for pre-schoolers that brings that boundless creativity to the small screen. The show centers on Justin, a young boy who imagines himself traveling around the world at different points in history." - Torontoist "Tired of preschool cartoons spending an inordinate amount of time on boring matching games, talking down its audience, or afraid of going out on a creative limb? If so, then meet Justin Time...The series is about trust and teamwork -whether nestled deep in the jungle or perched high on top of a snowcapped mountain - and the many other elements of friendship most conducive to having a great time (and learning a thing or two along the way).

Justin Time encourages a kind of freewheeling imagination that hopes to leave the didactic and lazy storytelling of yester-animation in the dust." - Animation Insider "Justin Time is a wonderful series that gives preschoolers a sense of history and all the great things in the world around them – these delightful stories are sure to charm young readers." —Andrew Beecham, Senior Vice President, Programming for PBS KIDS Sprout

Deel 3 van Cressida Cowells magische avontuur De Tovenaars van Ooit. De spanning in De Tovenaars van Ooit-serie van Cressida Cowell, bekend van Hoe tem je een draak, loopt verder op in Drie keer kloppen, het derde deel over Xar en Wens. Net als De Tovenaars van Ooit (deel 1) en De heksenval (deel 2) bevat dit derde deel heel veel grappige illustraties. Xar en Wens weten niet beter dan dat hun families – de Tovenaars en de Krijgers – altijd op voet van oorlog met elkaar leven. Een vriendschap tussen de twee kinderen ligt dan ook niet voor de hand. Maar wanneer de Heksen terugkeren, moeten Xar en Wens wel samenwerken. De Koningsheks maakt jacht op een magisch voorwerp dat Xar en Wens per ongeluk in hun bezit hebben gekregen. Ze moeten gauw een betovering zien te vinden om de Heksen te laten

verdwijnen. Maar hun zoektocht naar de betovering is extreem gevaarlijk. En iemand zal hen verraden... 'De feeën, machtige tovenaars en toverspreuken vliegen je direct om de oren. (...) Cressida Cowell schrijft met veel humor en vaart.' Kidsweek

All aboard! This train travels through history making stops in time to learn about the progress of travel by rail. Hop up into the cab of a speeding modern-day locomotive and look down the tracks into the past. Perhaps these are the same tracks that the diesel-electric locomotives of thirty years ago thundered down, pulling their loads. Perhaps you can see the steam engines of thirty years before that. Watch time unravel and the landscape change as the history of trains barrels through the pages of STEAM, SMOKE AND STEEL: BACK IN TIME WITH TRAINS. The first trains puffed great billowing clouds of smoke and showered passengers with burning embers as they sped down the rails at a pulse-pounding twenty miles an hour! By the 1850's, however, trains were traveling much faster, much farther, and much cleaner and train travel contributed to the growth of our nation. Young readers will be fascinated by the exciting -- and sometimes dangerous -- story of trains while they learn about the different kinds of engines, equipment, and jobs necessary for operating trains throughout history. The young narrator introduces readers to trains from the time of his great-great-great-great-great grandfather at the turn of the nineteenth century to his father's train of today, showing the great changes that invention and progress have brought over time. Patrick O'Brien's striking illustrations emphasize the beauty, grandeur, and romance of the train. Detailed and richly textured oil paintings take readers on a trip through time to ride aboard open-air cars, travel through mountain passes, and roar down the rails on high-speed bullet trains. Budding engineers will love getting a glimpse at the past and dreaming about the future of trains.

Alex moet op reis met zijn oom. Aan boord van stoomtrein de Hooglanden-expres ontdekt hij een verstekeling. Weet zij iets van de kostbare juwelen die overal verdwijnen? Of is er meer aan de hand? De juwelendief is het eerste deel in de whodunitserie Dader op het spoor van Sam Sedgman en M.G. Leonard, de auteur van onder meer Keverjongen. Voor treinfanaten en detectives vanaf 9 jaar. Met illustraties van Elisa Paganelli. Alex heeft echt zijn oom niet nodig als oppas, maar toch moet hij met de reisjournalist mee op de laatste reis van stoomtrein de Hooglanden-expres. Ook het Britse koningshuis is van de partij. Dan ontdekt Alex een verstekeling aan boord. Heeft die iets te maken met de kostbare juwelen die verdwijnen, of is er meer aan de hand? Geen van de volwassenen lijkt op het goede spoor te zitten, en dus is het aan Alex om de waarheid boven tafel te krijgen.

Do you know what's the fastest train in the world? Do you know what's the longest train route? Shanghai Maglev is considered as the fastest train in the whole world. It has a maximum speed of 431 kilometers per hour and runs at Shanghai's high speed magnetic levitation (Maglev) line where the train moves without touching the ground. In other words, the Shanghai Maglev doesn't have wheels - it floats or literally flies over the track with the help of a magnetic field between the train and track. The Golden Eagle Trans-Siberian Express is a luxury train introduced in April 2007. It travels on a 6,000 miles journey which has been considered as the world's longest train journey. The whole journey passes across two continents and eight time zones. More trivia and fascinating information about trains are featured in this book especially made for young learners. Different types of trains from those that are used in delivering goods, luxury trains, high speed trains and other types of trains are presented in this book. Each train comes with its beautiful picture and

This famous trains coloring book is the perfect fit for any child, providing hours of fun. With the death of his mother and the sudden disappearance of his father, teenager Tommy Blanks is faced with living alone in the Bronx on the money his father left him and on whatever he can steal. His shoplifting eventually lands him in a Catholic Boys' Home in Upstate New York run by a demonic priest. After a school-wide brawl, Tommy escapes and is presumed dead by the local authorities when they find his hat floating in the river. Tommy is taken in by a local hermit who leads him to Tommy's great-grandfather's deserted house in a nearby town. History and fiction converge as we discover that Thomas Blankenship, Tommy's great-great-grandfather, is the young man whom Mark Twain used as a prototype for Huckleberry Finn. And Tommy's life on the road as an orphan parallels Twain's resourceful Huck Finn. Eventually, his search for the facts and the meaning of his own experience leads Tommy across the country and finally back home. Michael Pearson's evocative prose works to dramatic effect in a novel that is part mystery, part bildungsroman, part love story.

How does pollution impact our daily quality of life? What are the effects of pollution on children's development? Why do industry and environmental experts disagree about what levels of pollutants are safe? In this clearly written book, Moore traces the debates around five key pollutants--lead, mercury, noise, pesticides, and dioxins and PCBs--and provides an overview of the history of each pollutant, basic research findings, and the scientific and regulatory controversies surrounding it. Moore focuses, in particular, on the impact of these pollutants on children's psychological development--their intellectual functioning, behavior, and emotional states. Only by understanding the impact of pollution can we prevent future negative effects on quality of life and even pollution disasters from occurring.
