In One-Man Band, the third volume in his epic survey of Orson Welles’ life and work, Simon Callow again probes in comprehensive and penetrating detail into one of the most complex artists of the twentieth century, looking closely at the triumphs and failures of an ambitious one-man assault on one medium after another – theatre, radio, film, television, even, at one point, ballet – in each of which his radical and original approach opened up new directions and hitherto unglimped possibilities. The book begins with Welles’ self-exile from America, and his realisation that he could only function happily as an independent film-maker, a one-man band; by 1964, he had filmed Othello, which took three years to complete, Mr Arkadin, the biggest conundrum in his output, and his masterpiece Chimes at Midnight, as well as Touch of Evil, his sole return to Hollywood and, like all too many of his films, wrested from his grasp and re-edited. Along the way he made inroads into the fledgling medium of television and a number of stage plays, including Moby-Dick, considered by theatre historians to be one of the seminal productions of the century. Meanwhile, his private life was as dramatic as his professional life. The book shows what it was like to be around Welles, and, with a precision rarely attempted before, what it was like to be him, in which lies the answer to the old riddle: whatever happened to Orson Welles?

This book introduces research-based pedagogical practices for supporting and enhancing language development and use in school-based immersion and dual language programs in which a second, foreign, heritage, or indigenous language is used as the medium of subject-matter instruction. Using counterbalanced instruction as the volume's pedagogical framework, the authors map out the specific pedagogical skill set and knowledge base that teachers in immersion and dual language classrooms need so their students can engage with content taught through an additional language while continuing to improve their proficiency in that language. To illustrate key concepts and effective practices, the authors draw on classroom-based research and include teacher-created examples of classroom application. The following topics are covered in detail: defining characteristics of immersion and dual language programs and features of well-implemented programs strategies to promote language and content integration in curricular planning as well as classroom instruction and performance assessment an instructional model to counterbalance form-focused and content-based instruction scaffolding strategies that support students' comprehension and production while ensuring continued language development an approach to creating cross-linguistic connections through biliteracy instruction a self-assessment tool for teachers to reflect on their pedagogical growth Also applicable to content and language integrated learning and other forms of content-based language teaching, this comprehensive volume includes graphics to facilitate navigation and provides Resources for Readers and Application
