Everything you need to pass the TASC If you're looking to gauge your readiness for the high school equivalency exam and want to give it all you've got, TASC For Dummies has everything you need. The TASC (Test Assessing Secondary Completion) is a state-of-the-art, affordable, national high school equivalency assessment that evaluates five subject areas: reading, writing, mathematics, science, and social studies. With the help of this hands-on, friendly guide, you'll gain the confidence and skills needed to score your highest and gain your high school diploma equivalency. Helps you measure your career and college readiness, as outlined by the Common Core State Standards Focuses entirely on the 5 sections of the TASC and the various question types you'll encounter on test day Includes two full-length TASC practice tests with complete answers and explanations So far, New York, Indiana, New Jersey, West Virginia, Wyoming, and Nevada have adopted TASC as their official high school equivalency assessment test. If you're a resident of one of these states and want an easy-to-grasp introduction to the exam, TASC For Dummies has you covered. Written in plain English and packed with tons of practical and easy-to-follow explanations, it gets you up to speed on this alternative to the GED. "REA: the test prep AP teachers recommend."

Kids love exploring complex topics, and the more than 150 ready-to-use projects in this book will get their minds working and their hands investigating as they complete fun tasks like "Can You See Sound?" and "It's All in the Advertising." The research-oriented activities in this book will help teachers provide differentiated learning experiences for advanced and gifted learners based on grade-level content. Each project is written for learners in grades 3-5 to use independently, and the teacher-friendly projects require few additional materials and very little guidance. The projects are fully integrated, with many employing skills from several content areas. Learners will use 21st-century skills as they explore grade-level content more deeply through specific, intensive online research. Grades 3-5

A history of the Reconstruction period and the movements of reform, immigration, industrialization, and urbanization. "Involving students in real historical problems that convey powerful lessons about U.S. history, these thought-provoking activities combine core content with valuable practice in decision making, critical thinking, and understanding multiple perspectives. O'Reilly - an experienced, award winning teacher - has students tackle fascinating historical questions that put students in the shoes of a range of people from the past, from the rich and famous to ordinary citizens. Each lesson can be done either as an in-depth activity or as a "quick motivator." Detailed teacher pages give step-by-step instructions, list key vocabulary terms, offer troubleshooting tips, present ideas for post-activity discussions, and furnish lists of related sources. Reproducible student handouts clearly lay out the decision-making scenarios, provide "outcomes," and present related primary source readings and/or images with analysis questions"--Page 4 of cover.

Dit boek (hardcover) is onderdeel van de TREDITION CLASSICS serie. De makers van deze serie zijn verbonden door hun passie voor literatuur en gedreven met de bedoeling om alle publieke domein boeken weer gedrukte vorm beschikbaar te maken - wereldwijd. De meeste geprinte TREDITION CLASSICS titels zijn al decennia verdwenen uit de boekenkasten. Bij tredition geloven wij dat een goed boek nooit uit de mode is en dat zijn waarde voor eeuwig is. Deze boeken serie helpt bij het behouden van de literatuur schatten. Het draagt bij in het behouden van prachtige wereldliteratuur werken.

First published in 2014. Routledge is an imprint of Taylor & Francis, an informa company.

The field of elementary social studies is a specific space that has historically been granted unequal value in the larger arena of social studies education and research. This reader stands out as a collection of approaches aimed specifically at teaching controversial issues in elementary social studies. This reader challenges social studies education (i.e., classrooms, teacher education programs, and research) to engage controversial issues--those topics that are politically, religiously, or are otherwise ideologically charged and make people, especially teachers, uncomfortable--in profound ways at the elementary level. This reader, meant for elementary educators, preservice teachers, and social studies teacher educators, offers an innovative vision from a new generation of social studies teacher educators and researchers fighting against the forces of neoliberalism and the marginalization of our field. The reader is organized into three sections: 1) pushing the boundaries of how the field talks about elementary social studies, 2) elementary social studies teacher education, and 3) elementary social studies teaching and learning. Individual chapters either A) conceptually unpack a specific controversial issue (e.g. Islamophobia, Indian Boarding Schools, LGBT issues in schools) and how that issue should be/is incorporated in an elementary social studies methods courses and classrooms or B) present research on elementary preservice teachers or how elementary teachers and students engage controversial issues. This reader unpacks specific controversial issues for elementary social studies for readers to gain critical content knowledge, teaching tips, lesson ideas, and recommended resources. Endorsement: (Re)Imagining Elementary Social Studies is a timely and powerful collection that offers the best of what social studies education could and should be. Grounded in a politics of social justice, this book should be used in all elementary social studies methods courses and schools in order to develop the kinds of teachers the world needs today. -- Wayne Au, Professor, University of Washington Bothell, Editor, Rethinking Schools

This volume will be the first full-length exploration of the details of the history of the Japanese language written by experts in the different subfields of linguistics. The book will include the latest research on topics such as segmental phonology, accent, and focus constructions, showing how they contribute to a fuller understanding of the history of Japanese. Developed in partnership with the National Geographic Society, OCEANOGRAPHY: AN INVITATION TO MARINE SCIENCE, 10th edition gives you a basic understanding of the complexities and uncertainties involved in ocean use as well as its role in sustaining life on Earth. Thoroughly updated with the latest findings from the field, the book includes new coverage of important issues such as climate change. Emphasizing the science process throughout, it helps you see how concepts from other scientific fields relate to topics in oceanography. Co-author Robert Ellis draws from his experience managing research projects and educational programs throughout the world, and a diverse group of National Geographic Explorers also share their insights on key concepts. National Geographic resources integrated throughout help create an engaging, visually appealing presentation. A Companion to American Studies is an essential volume that brings together voices and scholarship from across the spectrum of American experience. A collection of 22 original essays which provides an unprecedented introduction to the "new" American Studies: a comparative, transnational, postcolonial and polylingual discipline Addresses a variety of subjects, from foundations and backgrounds to the field, to different theories of the "new" American Studies, and issues from globalization and technology to transnationalism and post-colonialism Explores the relationship between American Studies and allied fields such as Ethnic Studies, Feminist, Queer and Latin American Studies Designed to provoke discussion and help students and scholars at all levels develop their own approaches to contemporary American Studies After a recent CUFA conference, many social studies teacher educators came to realize that pre-service teachers are skeptical of calls to integrate sensitive topics in the curriculum because they do not see it in their field experiences. The purpose of this edited book is to share examples of Pre/K - 12 grade teachers, schools, or school systems that infuse race, class, gender and sexuality in the curriculum. This book offers concrete examples of social studies teachers, schools and schools systems committed to the inclusion of topics often deemed as sensitive or controversial. Care was taken to provide examples from diverse geographic areas, school types (public, charter, private etc.), and grade levels. Researchers teamed with practicing professionals to highlight teachers and schools that successfully integrate race, class, gender and/or sexuality in the curriculum. The chapters provide specific examples of content inclusion, share high leverage practices, and provide advice for others infusing race, class, gender, and sexuality in the curriculum.

A leading economic historian traces the evolution of American capitalism from the colonial era to the present—and argues that we've reached a turning point that will define the era ahead. "A monumental achievement, sure to become a classic."—Zachary D. Carter, author of *The Price of Peace* In this ambitious single-volume history of the United States, economic historian Jonathan Levy reveals how capitalism in America has evolved through four distinct ages and how the country's economic evolution is inseparable from the nature of American life itself. The Age of Commerce spans the colonial era through the outbreak of the Civil War, and the Age of Capital traces the lasting impact of the industrial revolution. The volatility of the Age of Capital ultimately led to the Great Depression, which sparked the Age of Control, during which the government took on a more active role in the economy, and finally, in the Age of Chaos, deregulation and the growth of the finance industry created a booming economy for some but also

striking inequalities and a lack of oversight that led directly to the crash of 2008. In *Ages of American Capitalism*, Levy proves that capitalism in the United States has never been just one thing. Instead, it has morphed through the country's history—and it's likely changing again right now. "A stunning accomplishment . . . an indispensable guide to understanding American history—and what's happening in today's economy."—*Christian Science Monitor* "The best one-volume history of American capitalism."—Sven Beckert, author of *Empire of Cotton*

GLOBAL AMERICANS speaks to an increasingly diverse population of students who seek to understand the place of the United States in a shifting global, social, cultural, and political landscape. America's national experience and collective history have always been subject to transnational forces and affected by global events and conditions. In recognition of this reality, this insightful new text presents a history of North America and then the United States in which world events and processes are central rather than colorful sidelights. The narrative recovers the global aspects of America's past and helps students understand the origins of the interconnected world in which they live. By weaving together stories, analysis, interpretation, visual imagery, and primary sources from across time and place, this book presents a revised history that reflects America's -- and Americans' -- relationship to events and peoples across the continent and beyond. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Centuries of warfare that changed the world are captured in *History's Greatest Wars*. This book acts as a perfect primer for novices while offering seasoned history readers new perspectives on many famous and some not-so-well-known conflicts. Each chapter includes a quick-reference summary, a timeline, an overview of the war, essays on its principal leaders, a series of short, often offbeat features on aspects of the conflict, and a detailed account of a pivotal battle. Author Joseph Cummins highlights pivotal victories that changed nations, from the Norman invasion of England in 1066 to the Spanish conquest of Mexico in 1521 and the first fervid days of the French Revolution of 1789 to the bloody stalemate that ended the Iran-Iraq War in 1988. Each chapter delineates defining moments in the development of political philosophies, from Athens' defense of democracy against Persian despotism to the championing of equal rights for all in the American Revolution. It recounts the heroism of armies and individuals, from the Spartans' fight to the death against the Persians at Thermopylae in 480 BC to the Korean admiral who inspired his country to repel a massive Japanese invasion in the 1590s. It traces the transformation of battle tactics, from the prearranged set-piece encounters of the Napoleonic Wars to the massive naval landings and aerial bombardments of World War II, explains the scientific innovations that yielded the machine gun, the tank, and the atom bomb, and vividly renders the key victories that turned the tide of war, from Waterloo to Gettysburg and D-Day. At the same time, it reiterates the constants of conflict: the slaughters and massacres, including the Holocaust and the little-known Taiping Rebellion, which killed up to forty million Chinese; the personal sacrifices made by those battling tyranny, among them the rebels of revolutionary France, Greece, and Mexico; and the extraordinary influence of charismatic leaders, ranging from Napoleon and Pancho Villa to Mao Zedong and Hitler. Sweeping in its scope, yet intimate in its insights into the motivations of politicians, strategists, commanders, and soldiers, this is a collection that will enhance your understanding of the modern world and your own place in it.

4LTR Press solutions give students the option to choose the format that best suits their learning preferences. This option -- combining an easy-reference, paperback book with Chapter Review Cards -- is perfect for those students who focus on the textbook as their main course resource. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

In addition to providing an overview of today's correctional system, this updated edition will help students develop an understanding of the historical significance of punishment, its theories, and the consequences that result from current penal practices.

This innovative encyclopedia explores the life and times of America's forty-five presidents—from the first administration to that of Donald Trump. • Enables readers to better understand each president's unique contributions to American history, providing significantly more detail than typical reference works on the U.S. presidency • Includes substantial historical overview essays as well as a penetrating critical analysis, in addition to detailed biographical essays, of each presidency • Offers a curated selection of primary documents, combining the educational power of primary and secondary sources to create a richer learning experience for readers

"4 realistic practice tests + 1 full-length diagnostic test."

How did America transform itself, in a relatively short time, from a land inhabited by hunter-gatherer and agricultural Native American societies into the most powerful industrial nation on earth? You'll find out in LIBERTY, EQUALITY, POWER: A HISTORY OF THE AMERICAN PEOPLE, CONCISE Sixth Edition. The authors tell this story through the lens of three major themes: liberty, equality, and power. You'll learn not only the impact of the notions of liberty and equality but also how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The decision to become a United States citizen is one of the most important choices you can ever make. Before you can become a U.S. citizen, however, you first must be a lawful permanent resident of the U.S. For this reason, before you begin the process, you need to know what you want to achieve - legal immigration or naturalization - and if you can expect to qualify for it. U.S. Citizenship For Dummies will help you get through this often confusing process, from determining how best to qualify to live permanently in the United States to gaining a green card and then citizenship. This reference guide is for anyone who * Is interested in living permanently in the U.S. * Is a friend or relative of someone who wishes to live permanently in the U.S. * Wants to become a naturalized citizen * Has no legal background or any familiarity with U.S. immigration This book helps you discover the important requirements you need to meet and offers tips and insights into dealing with the Bureau of Citizenship and Immigration Services (BCIS). You also get to know other government agencies that you'll work with while attempting to immigrate to the U.S. or become a citizen. U.S. Citizenship For Dummies covers the following topics and more: * Clear information on the immigration process * Up-to-date information on various application forms * The rights of legal aliens * Recent changes in immigration laws * Review of English and Civics tests * Pointers on the interview process * Survey of U.S. history, government, and culture * Coverage on visas and green cards * Troubleshooting immigration problems Becoming a U.S. citizen carries important duties and responsibilities as well as rights, rewards, and privileges. Before you make the decision to pursue U.S. citizenship, you need to be aware of what you stand to lose and what you stand to gain; you also need to be sure you're ready to fulfill all the obligations of a good citizen. U.S. Citizenship For Dummies will help you understand all that it means to become a citizen of the United States of America.

The long, dark history of political violence in the United States has been employed to achieve political objectives throughout history. Taking the life of a perceived enemy is as old as mankind. Antiquity is filled with examples of political murders, such as when Julius Caesar was felled by assassins in 44 BCE. While assassinations and assassination attempts are not unique to the American way of life, denizens of other nations sometimes look upon the US as populated by reckless cowboys owing to a "Wild West" attitude about violence, especially episodes involving guns. In this book, J. Michael Martinez focuses on assassinations and attempts in the American republic. Nine American presidents—Andrew Jackson, Abraham Lincoln, James A. Garfield, William McKinley, Harry S. Truman, John F. Kennedy, Richard Nixon, Gerald Ford, and Ronald Reagan—have been the targets of assassins. President-elect Franklin D. Roosevelt was also a target shortly before he was sworn into office in 1933. Moreover, three presidential candidates—Theodore Roosevelt, Robert F. Kennedy, and George Wallace—were shot by assailants.

In addition to presidents and candidates for the presidency, eight governors, seven U.S. senators, nine U.S. House members, eleven mayors, seventeen state legislators, and eleven judges have been victims of political violence. Not all political assassinations involve elected officials. Some of those targeted, such as Joseph Smith, Malcolm X, and Martin Luther King Jr., were public figures who influenced political issues. But their cases are instructive because of their connection to, and influence on, the political process. No other nation with a population of over 50 million people has witnessed as many political assassinations or attempts. These violent episodes trigger a series of important questions. First, why has the United States—a country constructed on a bedrock of the rule of law and firmly committed to due process—been so susceptible to political violence? Martinez addresses these questions as he examines twenty-five instances of violence against elected officials and public figures in American history. Kaplan's SAT Subject Test U.S. History is the most up-to-date guide on the market with the essential content, practice, and strategies students need for success on Test Day. Our proven strategies have helped legions of students achieve their dreams.

Provides telling insights into American history through scores of personality profiles, anecdotes, advertisements, and more Includes sources and references for use in independent study

The perception of the immigrant as criminal or deviant has a long history in the United States, with many groups (e.g., Irish, Italians, Latinos) having been associated with perceived increases in crime and other social problems, although data suggest this is not necessarily the case. This Handbook examines the relationship between immigration and crime by presenting chapters reflecting key issues from both historical and current perspectives. The volume includes a range of topics related to immigration and crime, such as the links between immigration rates and crime rates, nativity and crime, and the social construction of the criminal immigrant, as well as historical and current immigration policy vis-à-vis perceptions of the criminal immigrant. Other topics covered in this volume include theoretical perspectives on immigration and assimilation, sanctuary cities, and immigration in the context of the "war on terror." The Routledge Handbook on Immigration and Crime fills the gap in the literature by offering a volume that includes original empirical work as well as review essays that deliver a complete overview of immigration and crime relying on both historical and contemporary perspectives. It is a key collection for students in immigration courses; scholars and researchers in diverse disciplines including criminal justice, criminology, sociology, demography, law, psychology, and urban studies; and policy makers dealing with immigration and border security concerns.

Proven strategies, practice, and review to ace the SAT Subject Test U.S. History. Getting into a top college has never been more difficult. Students need to distinguish themselves from the crowd, and scoring well on a SAT Subject Test gives students a competitive edge. Kaplan's SAT Subject Test: U.S. History is the most up-to-date guide on the market with complete coverage of both the content review and strategies students need for success on test day. Kaplan's SAT Subject Test: U.S. History features: * A full-length diagnostic test * Full-length practice tests * Focused chapter summaries, highlights, and quizzes * Detailed answer explanations * Proven score-raising strategies * End-of-chapter quizzes Kaplan is serious about raising students' scores—we guarantee students will get a higher score.

For the average person, most of the American history that he or she knows comes from facts taught to them in school to prepare them for their state mandated tests. That's not the fault of their teachers who were just carrying out the directives of their employers. But it's also a fact that a great deal of that content that they were teaching is dry and boring. However, as in every aspect of life, there is always another story behind each major event. The story of America is interesting and exciting, but it's those lesser known parts of our history that make it special. Even though in most cases, the names and events in the book will be recognizable, most of the stories about them will be new to the reader. If you're a young teacher, perhaps you'll find some material to help you get through those less-than-exciting areas of your textbook. If you hated history as a student, maybe you'll find some of these tales entertaining. For those of you who are history buffs, hopefully you'll come across a few things that are new to you.

It has been said that scammers and swindlers often display characteristics commonly attributed to good leadership. These include setting a vision, communicating it clearly, and motivating others to follow their lead. But when these skills are used by unconscionable people to satisfy greed, how can the average person recognize that foul play is afoot? Providing a unique account of frauds throughout modern history, Handbook of Frauds, Scams, and Swindles: Failures of Ethics in Leadership compiles narratives from around the world, including a number of highly-publicized cases. Leading financial and investigative experts have authored the individual chapters, yet the book maintains a reader-friendly style. The result is a text that is highly engaging and most importantly, provides regulators and investigators with an understanding of the motivations and behavior common to the individuals behind these life-damaging crimes. The book includes a wealth of stories, including famous cases such as Ponzi, ZZZZ Best, Enron, Parmalat, and Vivendi, along with lesser-known scandals involving both corporations and individuals. There is also a section on frauds perpetrated for motives other than financial rewards, including instances when the government performed experiments on humans without their knowledge or consent, as well as stories on frauds involving science and religion. A section detailing the Arthur Anderson debacle discusses the compounding of a fraud when the supposed watchdog plays a complicit role. And recognizing that not every issue is black or white, the book also explores whether a hoax perpetrated in the name of a noble cause can ever be justified. By reviewing the tactics used by swindlers and the motivations that turned good people crooked, investigators and others will come to recognize the red flags that accompany unscrupulous behavior. In doing so, they may well learn how to head off potential disaster. Study guide and review for Advanced Placement United States History for the student serious about doing well in the course. It serves as a great resource either while going through the course, or at the end of the course as a review before the AP exam. This book is directly aligned with "American Pageant" (15th Edition) so the student will do as well as possible during the course. Included are detailed outlines. The outlines link directly to each chapter and to each chapter's sub-sections, thus making it great for a student taking U.S. History and using Bailey and Kennedy's "American Pageant" as his or her main text and who strives to excel in the course. Note: this is the ebook/epub/ipad version.
