Includes more than 300 practice exam questions, score analysis, timed exams, and answers; searchable electronic version of the book in HTML on CD-ROM in back pocket.

Cowboy stories and movies about the Wild West are full of amazing characters. Yet many of the lawmen we think of as heroes were anything but -- some were violent scoundrels and outlaws themselves. Among all the lawmen of the frontier, one man stands out as a true hero: Bass Reeves. In his day, Bass Reeves was the most successful federal marshal in the United States. True to the mythical code of the West, he never drew his gun first. He rounded up hundreds of outlaws and was shot at countless times but was never hit. Bass Reeves was born into slavery. And though the laws of his country enslaved him and his mother, when he became a free man he served the law with such courage and honor that he was known and respected all over the Indian Territory. Gary Paulsen's dramatic account of the life of Bass Reeves, through stories both real and imagined, makes him come alive as a boy and a man. Listeners will truly understand why he became a legend.

Serves as an independent, definitive reference guide to IT industry certification programs, training programs and materials, what to expect from the job market, ways for certified professionals to remain current in their fields, and how to grow professionally to meet the changing needs of this job market. Evaluates all major vendor and non vendor-specific certifications as an independent A-Z reference of certification providers. Addresses future growth of each certification with one-, two-, and five-year forecasts on growth and industry changes. Contains valuable tips from IT recruiters on ways for those holding certifications to break into the IT industry.
