A tense and enthralling historical thriller in which British Naval Intelligence officer Ian Fleming attempts to foil a Nazi plot to assassinate FDR, Churchill, and Stalin. November, 1943. Weary of his deskbound status in the Royal Navy, intelligence officer Ian Fleming spends his spare time spinning stories in his head that are much more exciting than his own life...until the critical Tehran Conference, when Winston Churchill, Franklin Roosevelt, and Josef Stalin meet to finalize the D-Day invasion. With the Big Three in one place, Fleming is tipped off that Hitler's top assassin has infiltrated the conference. Seizing his chance to play a part in a real-life action story, Fleming goes undercover to stop the Nazi killer. Between martinis with beautiful women, he survives brutal attacks and meets a seductive Soviet spy who may know more than Fleming realizes. As he works to uncover the truth and unmask the assassin, Fleming is forced to accept that betrayal sometimes comes from the most unexpected quarters—and that one's literary creations may prove eerily close to one's own life. Brilliantly inventive, utterly gripping and suspenseful, *Too Bad to Die* is Francine Mathews's best novel yet, and confirms her place as a master of historical fiction.

True stories of nineteenth-century crooks, con artists, and quacks—including the man who “sold” the Brooklyn Bridge. Gunslingers and outlaws weren't the only ones who made the West wild. The nineteenth century was the golden era of riverboat gamblers, crooked railroad contractors, and filthy-rich medical quacks. These crooks made a living deceiving people who took a stranger at face value and left their doors unlocked. Throw in some get-rich-quick schemes and a generous mixture of whiskey and there was never a shortage of suckers. Conman George Parker was able to stay in business for forty years by “selling” public structures such as Madison Square Garden and the Statue of Liberty. He even “sold” the Brooklyn Bridge as often as twice a week. For most, the Salted Gold Mine or the Magic Wallet cons were enough to satisfy their greed. However, the more ambitious grifters tried the Big Store, an illegal underground betting parlor like the one seen in the movie *The Sting*. With an honest-looking face and a lack of morals, these scammers played a big role in giving the frontier its lawless reputation—and this book tells their stories.

Family-oriented Juliet is a Christmas-dinner cook extraordinaire and is trying to keep it together in the wake of her marriage breakdown two Christmases ago, but the cracks are beginning to show. Her bright and vivacious sister Gemma was always the favorite daughter. Gemma has no qualms about escaping the festive madness and the pressures of her glamorous job by jetting off somewhere warm and leaving Christmas in Juliet's capable hands. When Gemma shirks responsibility one too many times and announces she's off to the Caribbean (again!), Juliet finally snaps. Gemma offers her sister the perfect solution—to swap Christmases. She'll stay home and cook the turkey (how hard can it be?) and Juliet can fly off into the sun and have a restorative break. In the midst of all the chaos, there's Will, Juliet's dishy neighbor who's far too nice to float Gemma's boat and may secretly harbor feelings for her sister; and Marco, the suave Italian in the villa next door who has his own ideas about the best way to help Juliet unwind. Will the sisters abandon caution and make this a Christmas swap to remember?

This is the book that has served as an entry point to the Law of Attraction for thousands of readers throughout the world. David Gikandi starts with basics. Wealth is not about having buckets of cash--although that might be a by-product of wealth. True wealth understands the value within. True wealth flows out of developing "wealth consciousness." True wealth flows out of internalizing the mantra: "I am wealth. I am abundance. I am joy." To help people better understand and utilize this simple system, a 16-page study guide has been added to the original text, making it the ultimate self-help book.

The typical American spends 80,000 to 100,000 of his or her best hours at work. For many, those hours are spent without a sense of purpose, meaning, or passion. But it doesn't have to be that way. For followers of Jesus, work is not just something we have to do. It's an opportunity to enter into deep participation in the life and work of the living God--a vital, unique, and powerful dimension of an abundant life in Christ. But many followers of Christ are uninformed or misinformed when it comes to what the Bible teaches about work. Through extensive research, consulting, mentoring, and interviewing, co-authors Thomas Addington and Stephen Graves have found that few followers of Jesus realize how much the Bible has to say about all the decisions, dilemmas, deals, and duties inherent in everyday work. From handling change to handling trauma, from creating a strategic plan to managing a staff dispute, from establishing travel policies to dealing with a dishonest supervisor, biblical truth is relevant, applicable, and

discernable in workplace issues. The Fourth Frontier is for you if you're longing to: Understand God's personal calling for your life. Experience a sense of satisfaction and a God-connection to your job. Use your God-given skills for His kingdom while you're at work. Feel passion, peace, and purpose about your time between 8 and 5. Avoid the fears and anxieties that strangle joy for most employees. Create a supportive synergy between your family and your work life. Feel balance in all areas of your life. Followers of Jesus need not live fragmented, imbalanced, frenetic lives of conflicting demands and polarized priorities. Embark on a journey into The Fourth Frontier and embark on a journey of learning what it means to live a Christ-centered life of devotion, integrity, stewardship, and rest-and learning to be salt and light in the workplace and the world.

Preparing for TOEFL Do you plan to take TOEFL or IELTS but are not ready for the challenge? Do you need more practice? If you do, then this book is for you. Wow! Double Wow! Firestorm will cause you to think deeply and care greatly about finding what is truly important for your life. A cogent brief for Truth...an extraordinary read! -Dr. Altus Newell, Senior Pastor & former International Baptist Seminary President. A powerful apologetic work for our generation! May our Lord Jesus Christ use this fine book for His glory and our good. -Dr. Calvin Bobo, Pastor/Missionary/Theological Educator Any person interested in what Christians believe and why, will find this book useful...even if they don't agree with the Christian perspective. You and I are desperate to hear everything will work out okay. We'd like to believe that ultimately life is "fair..". but things happen daily that defy our sense of fairness and demand explanation. How can anyone have lasting hope and calming peace in the chaos of this place? Or are such things possible? How can anyone know for sure what the Truth is? Regardless of opinion, worldview, cultural perspective, ethnicity, social status, income, or religious belief...this book presents unambiguous food for thought. Firestorm presents weighty, thought provoking insights worthy of deliberate consideration by anyone searching for satisfying peace and inexhaustible hope.

Lee Lawson is the most cruel, relentless, cold, and heartless bill collector in North Carolina's most prominent collection agency, NRCA. He would hunt his victims down until they pay their debts, even if it meant taking away their homes, cars, savings, and even their jobs. But after NRCA's owner betrays Lawson and fires him, Lawson loses the lavish lifestyle his job provided for him and his family. All he has now is his wife and kids. Now, NRCA is after him and he knows how it feels to be humbled, poor, broke, and chased down like an animal. When one debtor takes his own life due to increased pressure from NRCA, Lawson has a change of heart and becomes determined to shut down the agency for good by bringing the big-time corporation to court. Millions are depending on Lawson to bring peace in their lives by ending the NRCA nightmare.

If you've ever struggled with a bill or the perpetual demand of a dollar then this assortment of poems will feel close to home. Past, present and future woes meet within these candid pages and they invite you to be unashamed if you've felt the same. But fear not, money isn't the centerpiece of every poem. Weep, giggle and escape with me if you wish. In exchange for your currency I offer you something, that to me, is beyond price. Enjoy!

Take a breathtaking ride along with emergency responders. Rescue Lieutenant Michael Morse brings you into the homes, minds and hearts of the people who live in one of America's oldest and most diverse cities. He takes you along for a breathtaking ride as he responds to emergencies that can be heartwarming, hilarious—and sometimes tragic. From the profound to the absurd, from challenging situations to total disbelief, it's all simply a day at work for our firefighters, EMTs and police officers.

After his crushing defeat of Prussia in 1806, Napoleon marched into Poland to forestall any Russian attempts to come to the aid of their ally. There then followed the bloody battle in a blizzard at Eylau on 8 February 1807, which decimated both armies. Operations resumed in the spring and on 14 June Napoleon wrecked the Russian field army at Friedland. Napoleon and Emperor Alexander met at Tilsit, and French mastery of north-west Europe was confirmed.??This is the first book to bring together dozens of Russian letters, memoirs and diaries, with authors ranging from the commander-in-chief (Benningesen) to NCOs. We see the brutal conditions of the winter campaign at first hand, and gain fresh insight into the infamous Treaty of Tilsit and the diplomatic manoeuvring that followed it.

Two friends, John and Eric, find their teacher's wallet full of money. John wants to give the money back, but Eric wants to spend it. What will they decide?

Destined to become the bible for a bold new subculture of eco-minded people who are creating a lifestyle out of recycling, reusing, and repurposing rather than buying new. An exciting new movement is afoot that brings together environmentalists, anticonsumerists, do-it-yourselfers, bargain-hunters, and treasure-seekers of all stripes. You can see it in the enormous popularity of many websites: millions of Americans are breaking free from the want-get-discard cycle by which we are currently producing approximately 245 million tons of waste every day (that's 4.5 pounds per person, per day!). In The Scavengers' Manifesto, Anneli Rufus and Kristan Lawson invite readers to discover one of the most gratifying (and inexpensive) ways there is to go green. Whether it's refurbishing a discarded wooden door into a dining-room table; finding a bicycle on freecycle.org; or giving a neighbor who just had a baby that cute never-used teddy bear your child didn't bond with, in this book Rufus and Lawson chart the history of scavenging and the world-changing environmental and spiritual implications of "Scavenomics," and offer readers a framework for adopting scavenging as a philosophy and a way of life.

Gold Medal Winner, Success and Motivation, 2011 Axiom Business Book Awards Insight from leaders who experienced major setbacks and redefined success In tough economic times, when careers are derailed and leaders are forced to rewrite their professional plans, this book enlightens and uplifts. Comebacks features an all-star cast of ten leaders who endured setbacks—for some a public fall in the midst of media scrutiny—then reassessed and moved ahead with new purpose. Based on revealing interviews, the book presents a behind-the-headlines glimpse into the lives of leaders; how they drew upon resources, both internal and external, to move on; and the lessons that helped them redefine success. Leaders profiled include: Jacques Nasser, former CEO of Ford Motor Co., recently appointed Chairman of BHP Billiton, the world's largest natural resources company Patricia Dunn, former Chair of Hewlett-Packard, vilified for her alleged role in corporate espionage only to be exonerated from all charges, today active in philanthropy Jamie Dimon (JP Morgan), Herbert "Pug" Winokur (Enron Corp.), David Neeleman (JetBlue), and more Redmond, a top executive recruiter, and Crisafulli, author of The House of Dimon, show how all leaders face adversity, but true leaders turn adversity into success.

Good and evil are as old as ethics or morality itself. For without an understanding of religious or philosophical ethics, the moral existence of good and evil would be impossible to comprehend; the term good, for example, would be exclusively a matter of subjective personal likes and dislikes in other words, a mere matter of taste, differing from individual to individual with no real obligation to the public good or safety. As it currently stands in philosophy, for instance, the term good may be understood as engaging in righteous conduct; the term good may also be understood as an object that corresponds and fulfills natural needs inherent in human nature. These natural needs, for example, which are deeply, rooted in human nature, manifest themselves in our human desire for life, liberty, and the pursuit of happiness, among other things. In these two senses, the term good is an objective universal value, based on the reality of man (by man I mean human beings everywhere, of course). From natural needs, we derive the doctrine of human rights. It logically follows that the things we have a natural human need for, we as human beings also have a natural right to. This idea is not only used in the real world that you and I live in; it is also used in the storyteller's world of fiction or imaginary literature. Anything working to defeat or frustrate the good in the real world or in the storyteller's world is judged evil. This is of the utmost importance to those who believe in right and wrong. For right and wrong always follow good and evil. Society can never know what right or wrong is in the domain of social human affairs, without first knowing what is good and what is evil, and what makes it so. In Trapped Between the Extremes of Good and Evil, we enter a fictional world and explore the phenomenon of good and evil through the actions of an international serial killer, angels and demons, one twin brother's hatred of the other, and a San Francisco detective caught in the middle of it all.

"I love this series!" "This is the best writing in decades." You've pulled off the crime of the century. You've stolen billions. The global economy is in ruins, but you've become one of the richest men on the planet. Except you've somehow fallen into the clutches of the people you robbed — a band of spies, mercenaries, and dollar-hungry power brokers who'd just as soon gut you as look at you. That's Sabot Mondragon's predicament. He was a brilliant hacker, but now he's a prisoner in some Central American hellhole, facing a very short and very painful future. And while he doesn't know it, the fate of the world's economy happens to be intertwined with his own. A global power grab of unprecedented scale is underway, and the consequences couldn't be graver. Which is why Special Agent Sam Jameson is hot on his tail. She's a brash, ballsy, and beautiful spy catcher, and she's racing headlong into a buzz saw of intrigue and bad blood left over from the Cold War. Will Sabot survive his vicious kidnapping? Can Sam stop the world's most secretive organization from pulling off a global coup? From the jungles of Central America to frozen Moscow, MINDSCREW's explosive action, razor sharp plot, and smart, sexy characters will keep you turning pages well into the night. MINDSCREW is the final installment in conspiracy master Lars Emmerich's DEVOLUTION trilogy, a collection of three #1 bestselling financial thrillers starring Sam Jameson. ——— Interview with #1 Bestselling Author Lars Emmerich Q: Who are your influences? A: Too many to list! I started out years ago as a Tom Clancy addict, and I thoroughly enjoy many of Nelson DeMille's novels. I regularly read David Baldacci, Vince Flynn, Barry Eisler, Michael Connelly, and John Grisham. James Patterson has redefined what it means to be a working author, and I read his stuff as well. My top picks are usually espionage and private detective novels, any of the thousands of thrillers and mysteries best sellers, and, of course, books featuring classic pulp heroes. And I'm greatly influenced by all sorts of nonfiction, as well. I read all the time, and I'm a bit of a magpie about the topics — science, economics, finance, politics, history, mathematics, engineering, biomechanics, medicine... It's a big world out there, and I love learning more about it. Many of those topics find their way into my fiction, so I can justify it all as "research." Q: The Sam Jameson series has become quite a phenomenon. What do you think has been the driving force behind the books' success? A: I think Sam has something of a unique voice. She says the things we all wish we could say, and she gets away with it about half of the time. The other half of the time, not so much. I think she's also a very human heroine. She has plenty of flaws and weaknesses, yet she accomplishes some amazing things. She's kind of like every one of us in that regard, which resonates. Q: You have developed personal relationships with your readers over the years, which is unusual in the publishing business. Was that a conscious choice? A: Absolutely. Books are intimate things. They occupy a person's mind and thoughts for hours at a time. Good books leave a lasting impression, and great books might even change the way we think about things, but all books are a relationship. I felt that Big Publishing did a great job of distributing novels, but at a very high cost — there was almost no way for a personal connection to form between writers and readers. But I always wanted a conversation. I wanted to learn from my readers, to hear what was on their minds, to listen to their criticism and hopefully improve the books I write. It's been extremely rewarding, and I'm hopeful it can continue for years to come.

Jesus spoke in parables to teach spiritual principles. This thought-provoking devotional book follows a similar theme teaching spiritual perspectives through everyday observations in nature and science. From country living among dogs and chickens, comes a book that teaches practical, easy to understand tools to incorporate a godly mindset as one goes through difficult trials and challenges. It teaches how to have peace and joy in the midst of experiences that don't make sense. It will give a framework of communication of spiritual principles for a deeper, more fruitful, and successful walk with God.

Traditional approaches to social psychology have proven highly successful in identifying causal mechanisms underlying human thought and behavior. With the recent advent of the dynamical approach, it is now possible to assemble sets of such mechanisms into coherent systems. This book uses innovative concepts and tools to illuminate the processes by which individuals, groups, and societies evolve and change in a systemic, self-sustaining manner, at times seemingly independent of external influences.

Readers learn how the dynamical approach facilitates novel predictions and insights into such social psychological phenomena as attitudes, social judgment, goal-directed behavior, attraction, and relationships. Featuring a wealth of charts and figures derived from original research and computer simulations, the volume is grounded in classic and contemporary theories of social psychology.

A tour de force of life on a journey with Jesus. By all means, take this journey if you can.—Chuck Colson, Founder, Prison Fellowship With our society's sometimes unfavorable view of Christians, it is all the more important that believers display what Dr. David Jeremiah calls signs of life — signs that Jesus has transformed us and that we are committed to Him and His kingdom. They are signs that ought to be detected from across the street, over the fence, down the hall, throughout the office, or in the pews, for it's not enough to just talk about Jesus. It's also not enough to serve Him in secret with our acts of private devotion. We have to display the lifestyle of the Nazarene in the midst of a corrupt and darkened culture. In a world starved for love, joy, peace, patience, kindness, faithfulness, honesty, relevance, and compassion, Christians should specialize in exactly those things through public expressions of private faith. It's by our smile, our compassion in the face of misfortune, our friendliness, our simple lifestyle, our willingness to commit random acts of kindness, our social ministries, our tears, and our words that unbelievers recognize Who we represent. Signs of Life will lead you on a journey to a fuller understanding of the marks that identify you as a Christian. Signs that will advertise your faith. Personal imprints that can impact souls for eternity and help you become a person of influence who radiates relevancy, authenticity, generosity, and compassion every day — just like Jesus did.

For those who want to infuse their self-care routine with a little magic, this mystical guidebook provides readers with simple spells to enhance their daily lives. Topics range from relationships and emotional health to self-love, work, school, and more. Spellwork for Self-Care takes an old-fashioned approach to the practice of self-soothing. As young people flock to the well-worn paths tread by the witches of yore by using tarot card readings, astrological sign analysis, and herbal home remedies for mental and physical ailments, the practice of witchcraft has morphed into a form of spirituality for millennials and Generation Z. This book of 40 spells combines witchy spiritual practices with our culture's hunger for self-care, creating a compact resource for those seeking alternate paths to better mental, spiritual, emotional, and physical health.

New York's Lower East Side is the birthplace of everything from organized crime to anarchist movements. In the nineteenth century, an influx of struggling immigrants seeking opportunity met the harsh realities of industrialization. Poverty and squalor fueled a vicious battle for power and political clout. Local historian Eric Ferrara reveals the wicked history of America's most infamous neighborhood, where the abounding graffiti is a testament to the soul and spirit of the slum.

John Stevens should have been a mortality statistic, after 25 years of a life of alcoholic insanity. As a child he endured the violence and chaos of alcoholism in his family, and he chose to perpetuate those family traditions in his own marriage. But today, thirty-five years later, John lives a life which is rich, vital, and, above all, sober; filled with friends, music, and service to others. The story of his metamorphosis is a compelling saga, a journey from the pit of addiction and degradation to a sane and useful life in recovery. John offers his story as a testimonial to the transcendent power of faith, trust, and love to utterly transform a man's life. As his tale reveals, this can sometimes begin in a sudden and dramatic way, on a fall walk through the bare trees of a still Minnesota woods.

Evidence and Religious Belief features eleven new essays on the question of whether religious belief must be based on evidence in order to be rational. Leading philosophers in the field discuss the demand for evidence, the ways in which available evidence differs from person to person, and the current arguments for and against religious belief.

"The central element of Jewish worship is the yearly cycle of reading the first five books of the Bible, the Five Books of Moses, called the Torah in Hebrew. Torah Today, a compilation of fifty-four essays that grew out of Pinchas Peli's Torah column in the Jerusalem Post, comments upon the weekly readings from the Torah. Written in a clear style, each essay brings the reader closer to the rich spiritual world of Torah as it confronts the challenges of modern society. These commentaries, which emulate the traditional midrash, have long been essential reading for Jews throughout the world - families at the Shabbat dinner table, pulpit rabbis, teachers, and students of the Bible. Christians, too, have been among Rabbi Peli's devoted readers. This reissue of Torah Today, with a new preface by Rabbi Harold M. Schulweis, makes this classic work available to a new generation of Bible students."--Jacket.

An inspirational journey from footballer to trader GOALS TO GOLD tells the fascinating and unexpected story of one man's journey from top-flight football to the cut-and-thrust world of the financial markets. This book also explores the relationship between sports and trading success - making it the perfect book for any sports fan who's ever wondered whether they could make a go of it in the markets. Lee Sandford spent 17 years as a professional footballer, playing for Portsmouth, Stoke City, Sheffield United and Reading. But when his career was over, he didn't retire to a pundit's sofa or the golf course. He entered another fiercely competitive world: the stock market. Goals to Gold tells the story of his days as a footballer and subsequent time as a trader, laying bare the sobering facts of a life scattered with huge achievements, near misses and big disappointments. Part exploration of the unseen side of football and part introduction to financial trading, it shows how the important qualities in football and trading alike are hard work, determination, patience and sticking to your strategy even when the studs-up tackles are flying. Packed with real-life, behind-the-scenes stories involving promotion, relegation and trophies in football and trading through booms and busts in the markets, Goals to Gold is a gripping and revealing read - perfect for football fan and trader alike.

Based on extensive interviews with forty women working as prostitutes, Red Light, Blue Light examines a variety of personal developmental experiences and socio-situational factors that can combine to make prostitution neither an inevitable nor inescapable circumstance but a rational occupational choice. This book attempts to analyze why women enter the world of prostitution, how the skills and values of the business are transmitted and how the individuals themselves subjectively define, perceive and rationalise their activity. As opposed to the traditional stereotypical depiction of prostitutes as hopeless, downtrodden victims of male exploitation living lives of poverty, misery and wretchedness, the picture that emerges in this study is of an independent occupational group organizing and controlling the business in which they work. The book also presents a profile of clients of prostitutes and discusses the role of the police. Written in accessible style, the resulting monograph presents a fascinating, unique and comprehensive account of street prostitution in a northern city.
